 maternal-infant interaction & indulgence, adult time differentiation, cross-cultural research, 11815  
 meningitis purulenta & CNS damage, & children, 761  
 mental retardates, schizophrenic diagnosis, 15705  
 movement recording, apparatus, 4355  
 mysticism as regression in service of ego & early infancy, discussion, 11054  
 mysticism as regression in service of ego & early infancy, 11066  
 nervous systems/central & autonomic, stimulation, 11691  
 newborn, nonnutritive sucking & movement, age, food deprivation, 4353  
 orientation & avoidance reflex, movement & respiration & heart rate, development, & rabbit, 7084  
 pattern preference & perceptual-cognitive development, 11692

perceptual development, 8 & 9 & 10 wks old, stimulus form & autonomic activation level & individual differences, 10200  
 perceptual experience, color & form preference & discrimination learning, 7089  
 premature birth, impaired development correlates, 2666  
 premature birth, weight & development of physical & mental & emotional disorders, 2953  
 pupillary conditioning, & adult, 13394  
 pupillary reflex, time vs sound as CS, 10198  
 response understanding, 11693  
 scalogram analysis, Bayley Infant Scale of Mental Development, 16466  
 selective attention to mother's face, 13399  
 self-boundary development & adult depression, ambivalence, benign & negative experience, 16806  
 separation anxiety, libidinal & aggressive drives, mother's hostility & inhibition of child's aggression, 9144  
 separation from mother, depression & recovery, monkey, 5698  
 separation from mother/6 day, monkey, 8585  
 sexuality, Freud's theory, 1691  
 smiling, town & kibbutz & nursery & institutional infants, Israel, 440  
 social visual behavior & mother's attitudes, 8822  
 speech & expression development, birth-3 yrs, German-Swiss infants, German book, 10199  
 stimulus discrepancy, & attention, cardiac deceleration, 15027  
 sucking, visual & auditory stimulation, 10203  
 sucking behavior, milk vs corn syrup solution, 5287  
 thumbsucking as beginning of emotional illness, causes & suggestions, 13400  
 visual discrimination of faces, 4 month old males, 16464  
 visual fixation, heart rate changes, sex differences, 10202  
 visual perception, depth perception & size constancy, operant conditioning, 4352  
 vocalization & intelligence, 13407  
**Influence** (SEE Group Influence, Interpersonal Influence, Persuasion, Social Power)  
**Information** (see also Communication, Information Theory, Language)  
 3-choice variable S-R mapping task, transfer reaction time, & self-paced & discrete trials, 3883  
 4-H research information presentation, bulletin vs film vs lecture vs discussion, 3450  
 acquisition, & structure of environment, 3950  
 amount, probability estimation, cost-payoff arrangement, prior uncertainty, 6730  
 amount, recall for visual patterns symmetry, 14711  
 & anxiety changes, 2356  
 Army decision making, random information generation, 5512  
 attention, age differences, specificity, 13410

## NOTICE

The December issue of *Psychological Abstracts* for 1967 is in three parts. Part 1 contains abstracts and Part 2 and Part 3 contain the annual indexes.

PUBLISHED MONTHLY BY  
THE AMERICAN PSYCHOLOGICAL ASSOCIATION, INC.

at Prince and Lemon Sts., Lancaster, Pa. 17604 and  
1200 SEVENTEENTH ST., N. W., WASHINGTON, D. C. 20036

\$30.00 PER VOLUME (\$30.50 FOREIGN)

\$3.00 PER ISSUE

Second-class postage paid at Lancaster, Pa., and at additional mailing offices.

Business communications are to be addressed to the Washington Office of the American Psychological Association. Correspondence on production and copyright matters is to be directed to the Managing Editor; on advertising and sales, to the Advertising Manager; and on subscriptions and address changes, to the Subscription Office. Changes of address must reach the Subscription Office by the tenth of the month to take effect the following month. Copies undelivered because of address changes will not be replaced; subscribers should notify the post office that they will guarantee second-class forwarding postage. Other claims for undelivered copies must be made within four months of publication.

**Learning Transfer**

articulation in singing & speaking, 1115  
 articulation therapy & verbal behavior, 748  
 bilingual high school students, 223  
 brain RNA injection from conditioned Ss, rat, 14843  
 conceptual similarity & anticipation interval, verbal discrim-  
 ination, 13040  
 cortical spreading depression, interhemisphere, avoidance  
 learning, rat, 1200  
 discrimination learning, position responding, choice latency,  
 continuity theory, rat, 11339  
 discrimination of geometric figures, ferret, 8613  
 discrimination reversal, & overtraining, rat, 10140  
 given & derived coding principles, 13046  
 initial task difficulty & later success, archery, 2387

- interference, derived list, 13036  
interocular transfer & discrimination & age, albino & pigmented guinea pig, 430  
learning set & repeated-reversal tasks, macaque monkey, 7019  
lesions/bilateral, inferotemporal vs hippocampal vs dorso-lateral frontal areas, complex pattern discrimination task, monkey, 11448  
list 1 response recognition after A-B & A-C learning, 13074  
listening skills teaching & transfer, audioprogrammed techniques, college students, 7954  
mediation locus & anticipation interval, 13055  
Moss-Harlow effect, information & discrimination trials, age, preschool children, 2699  
motor learning & transfer, intra-task difficulty, college students, 16184  
oddy learning, apparatus transfer, chimpanzee & children, 4305  
overtraining, behavior changes, & reversal & transfer effects, rat, 2615  
paired associate, stimulus category cue & list difficulty, 5484  
paired associate, word & CVC pairs, transfer to CVCs, overtraining & addition of items to original list, 8341  
paired associate learning, list recall, interference, college students, 9871  
paired associate learning, semantic relations in mixed & unmixed lists, 5480  
paired associate list learning & transfer, stimulus selection, letter color, 8351  
paired associate transfer, list 1 learning level, college students, 6676  
paired associate verbal lists, A-B, C-A & A-B, B-C paradigms, 14667  
pattern discrimination, schemata vs random pretraining, college students, 13006  
pattern discrimination learning & reinforcement, retention, 3929  
pattern identification, inter & intra-problem transfer, 5508  
positive & negative transfer, verbal learning, children, 2701  
primary word associations/unidirectional, paired associate learning, 13060  
progressive transfer, positive & negative stimuli, comment, 6989  
reinforcement schedule, & retention, 226  
& reinforcement schedule, rat, 8627  
response learning transfer, presentation order, paired associate learning, 8347  
response transfer/free-operant test of, rat, 11620  
schizophrenics, 3148  
serial anticipation & recall, 3866  
serial learning, cue, presentation method, college students, 11338  
serial learning, normal & retarded matched for mental age, 4911  
serial to paired associate learning transfer, 2399  
similarity & practice, 6641  
stimulus effect, A-B & C-B paradigm, 1143  
stimulus similarity, paired associate learning, 13058  
substance conservation concept, shape change, 5 yr olds, 4376  
surface, Osgood vs Houston, 200  
task complexity & overlearning, children, 8702  
teaching method, verbal vs visual display presentation & irrelevant cues, 3467  
verbal conditioning of neutral syllable to non-verbal behavior toward labelled object, 13032  
verbal-discrimination transfer, response availability, right & wrong unit interlist similarity, 11363  
vision/color, interocular transfer, pigeon, 10138  
visual & tactual, intersensory transfer, 3884  
visual information/irrelevant training & test performance, 3876  
word recognition transfer, paired associate learning, false recognition, 5482
- Learning/Avoidance**  
1-way locomotor avoidance without handling apparatus, rat, 11196  
actinomycin D, intracerebral injections & inhibition of RNA synthesis, mouse, 5564  
air blast vs electric shock, measure of development of consistent behavior, monkey, 7030  
albinism, mouse, 4317  
alcoholics/chronic & patient, & nonalcoholics, 3878  
atropine & depressants, dissociated learning, rat, 2547  
aversive audio stimuli & backgrounds, qualitative differences, instrumental escape conditioning, rat, 7024  
chloretone fear conditioning, fish, 16427  
cortical spreading depression & interhemispheric transfer, rat, 1200  
cortisone & ACTH injections, acquisition & retention, turtle, 5654  
CS-UCS interval & intertrial interval, 2-way shuttle-box avoidance response, guinea pig, 10144  
differential resistance to extinction, & escape, rat, 1327  
discriminated lever press avoidance learning, rat, 10143  
discrimination, Sidman avoidance behavior, guinea pig, 8620  
dual 1-way shuttle apparatus, avoidance performance & acquisition rate, rat, 10147  
early experience, paternal irradiation, weight gain, open field behavior, pig, 11601  
ECS & foot shock interval, retrograde amnesia, mouse strain, 4280  
& escape, inescapable shock & subsequent interference, harness & shuttle box, dog, 8624  
escape/delayed, aversive light, rat, 1324  
ether & temperature, retrograde amnesia, mouse, 4158  
fear conditioning, prior, goldfish, 7029  
fear incubation, rat, 6984  
GSR & expectancy, 154  
GSR conditioning & EMG, matched Ss, 8317  
instrumental avoidance response acquisition & extinction, retention, forebrain lesion, goldfish, 4026  
intertrial interval, fish, 2626  
& introduction of non-punished alternative, monkey, 13360  
learning vs performance of avoidance conditioning, magnesium pemoline, rat, 11559  
lever press avoidance, shock intensity, response differentiation, discriminatory cue acquisition, rat, 1323  
lever-press avoidance & trial discreteness, rat, 401  
lizard, & discrimination & escape, 8623  
long-term discriminated avoidance in shuttle box, 3300 trials, bass & sunfish, 8622  
magnesium pemoline, advanced vs immediate injection, rat, 13267  
magnesium pemoline, mouse, 8502  
magnesium pemoline, response memory, rat, 4169  
memory & post-trial shock, mouse, 4309  
mentally retarded & normal children matched for MA, & discrimination & escape, 1848  
mother-child relationship, visual cliff, lamb, 6962  
mouse, inbred strains, wheel-turn avoidance task, 7034  
neonatally administered thyroxine, EEG development, maturation, rat, 6914  
nonassociative avoidance learning, nereid, 402  
observation of experienced chickens & subsequent avoidance learning, chicks, 7033  
operant conditioning of curarized dog, effect on learned avoidance response, 4165  
opposite sex-typed toys, modeling, sex differences, children, 10218  
passive avoidance learning, magnesium pemoline injection, rat, 10038  
running vs bar pressing methods, rat, 8619  
shock avoidance training in runway, attempted extinction by shock, rat, 10168  
shock necessary for conditioning, crocodile, 13365  
shock prior to conditioning, paired with cues & response terminated, rat, 10142  
shuttle avoidance learning/nonincremental, air-blast UCS, rat, comment, 14976  
shuttle avoidance learning/nonincremental, air-blast UCS, rat, reply to comment, 14977  
stimuli, light vs buzzer vs light & buzzer, 4313  
stimuli/discriminative vs aversive, comment, 8618  
stimulus parameters, inbred mouse strains, 1329

- strain differences, & avoidance extinction, maturation, mouse, 4236  
 sympathectomy by immunization in 1st week, operant & avoidance behavior, mouse, 9957  
 training of pig-tailed macaque as coconut harvester, & punishment, Southeast Asia, 4278  
 tybamate, tranquilizer, & escape responses, 2541  
 variable interval & fixed ratio schedules in alternation & concurrent discriminated fixed ratio avoidance, pigeon, 10145
- Learning/Discrimination**  
 2-choice discrimination learning, stimulus similarity, reinforcement probability, 11331  
 4-alternative discrimination task, & right-blank vs wrong-blank verbal reinforcement condition, 2413  
 alcohol, response latency, positive vs negative reinforcement, rat, 6858  
 associative recall, pronunciation, practice, college students, 13059  
 attention, incentive, age & sex differences, children, 10259  
 attitude statement reinforcement properties, 3916  
 auditory, monetary reinforcement, utility & power, 5486  
 avoidance behavior/Sidman, guinea pig, 8620  
 avoidance discrimination, nonshock confinement, intertrial interval, rat, 4306  
 avoidance/lever press, shock intensity, response differentiation, discriminatory cue acquisition, rat, 1323  
 awareness & attitudinal reinforcement, 14631  
 bee, 391  
 brain damaged children vs normals, distraction due to peripheral visual stimuli, 14085  
 brain lesions, rabbit, 8422  
 cardiac & respiratory conditioning, extinction, shock, pigeon, 1295  
 chaining theory, 6635  
 choice latency, position responding, transfer, continuity theory, rat, 11339  
 classical conditioning, interstimulus interval, heart & respiration rates, rabbit, 16413  
 color, hue & value & chroma, monkey, 4302  
 color discrimination, goldfish, 1313  
 color generalization, & constant & intermittent information, 3793  
 concept overdiscrimination, & age differences, children, 4390  
 conditional discrimination, children, 1410  
 conditioned inhibition & excitation, operant discrimination learning, pigeon, 16417  
 & conditioning ease, rat, 5713  
 conditioning of orienting response, response latency & reinforcement schedule, 1300  
 control by part of complex, pecking response to each of 4 stimuli, reinforcement vs extinction of complexes of 2 stimuli, subsequent differential responding, pigeon, 8608  
 correct response punishment, & drive & incentive, 2383  
 correction & noncorrection procedures, monkey, 16426  
 cue relevancy, rat, 14943  
 cue similarity & reinforcement schedule, 2-choice auditory task, 9845  
 cue-reward congruity & contiguity, IQ, children, 11727  
 cues, rat, 5737  
 dependency, & principle learning, & multiple choice & essay test performance, 7297  
 dimensions, stimuli alterations & relevance values, concept shifts, 1052  
 displays & stimulus appearance, 192  
 educable mentally retarded children, 17035  
 errors/with & without, & inhibition, pigeons, 2625  
 feature on positive vs negative stimulus, pigeon, 13355  
 feedback vs prompting & feedback, single & multiple stimuli, Navy sonar personnel, 5443  
 flexibility, & previous visual stimulation, rat, 2390  
 frequency-discrimination problem, auditory pattern discrimination, insular-temporal lesion, cat, 4022  
 ground/response to, figure-ground stimulus, children, 5802  
 gustatory discrimination learning, food poisoning test, avoidance response, Cytosan, rat, 8609  
 hidden figure detection, rhesus monkey, 7008  
 historical perspective, 201  
 imprinting, & spatial reversal learning, chicks, 393  
 incentive strength, mental retardates, 10879  
 inhibition, pigeon, comment on Terrace's article, 10133  
 interocular transfer & age, albino & pigmented guinea pig, 430  
 interresponse times, extinction, learning, generalization, computer analysis, pigeon, 8605  
 irrelevant peripheral visual stimuli effects, brain damaged children, 4894  
 irrelevant stimuli, monkey, 4299  
 irrelevant stimuli variability, mentally retarded children, 7760  
 item type & recall, pronunciation, practice, 6670  
 knowledge of results & mixed schema learning, 1146  
 knowledge of results & verbal discrimination learning, 1148  
 langurs & rhesus monkeys, 13353  
 & later discrimination of redundant associated stimuli, pigeon, 4297  
 learning set, & delayed response, tree shrew, 1291  
 light/bright & dim, multiple fixed-ratio reinforcement, errors, rat, 8610  
 line tilt, monkey, 7016  
 line-tilt discrimination, rhesus monkey, 5736  
 lizard, & avoidance & escape conditioning, 8623  
 looking & pointing instructions, overt response, preschool children, 4380  
 Markov model, 2 similar stimuli & 4 similar stimuli, 3869  
 & matching-to-sample, retardates, 1835  
 mathematical model, 14634  
 mediating response transfer, mental retardates, 12416  
 mentally retarded & normal children matched for MA, & escape & avoidance, 1848  
 mentally retarded children, House & Zeaman hypothesis, 4921  
 & middleness concept, chimpanzee, 396  
 mirror-image patterns & interhemispheric transfer, pigeon, 395  
 monocular conditioning & interocular transfer, goose, 7071  
 mother-child relations & maternal failure, transition from subjective orientation to objective reality testing, infant, 16458  
 multiple discrimination learning, conceptual similarity of picture & word stimuli, 2380  
 multiple stimulus oddity discrimination, training technique, monkey, 4298  
 negative stimuli number, pigeon, 7023  
 none-to-all theorem, college students, 6638  
 object & oddity, role of prior training, monkey, 7020  
 object & pattern, cue availability, children, 1409  
 & observing behavior, delayed reinforcement, children, 14678  
 oddity discrimination & set learning, set training, kindergarten children, 16495  
 oddity learning, apparatus transfer, chimpanzee & children, 4305  
 oddity learning, children & adults & seniles, 2389  
 olfaction, brain interhemispheric communication, opossum, 7022  
 option to switch reinforced to unreinforced stimuli, monkey, 11637  
 overlearning reversal, rat, criticism, 16421  
 overlearning reversal, rat, defense, 16416  
 pattern & color, reward & value concept, monkey & lemur, 2623  
 pattern discrimination & reinforcement, retention & transfer, 3929  
 pattern discrimination transfer after bilateral inferotemporal vs hippocampal vs dorsolateral frontal lesions, monkey, 11448  
 patterns, schema family & nonmembers, without external reinforcement, 9881  
 percent reinforcement, rat, 7041  
 perceptual experience, & color & form preference, infant, 7089  
 position sequences for positive stimulus, 2-choice visual discrimination task, criticism, 3871  
 positive induction, instrumental discrimination learning, rat, 14967

prefrontal cortex lesion, reward before & after stimulus, monkey, 16280  
 presentation/anticipation & recall methods of, auditory discrimination learning, 13002  
 proactive interference, rat, 4301  
 psychotic & normal children, 7560  
 rats as discriminative stimuli, free operant procedure, 1310  
 rearing/differential early, rhesus monkey, 14964  
 reinforcement & nonreinforcement, audition, 3803  
 reinforcement & stimulus preference, cat, 397  
 reinforcement amount & performance, acquisition & extinction, mentally retarded children, 14117  
 reinforcement schedule & response rate & accuracy, simultaneous discrimination task, pigeon, 10158  
 reinforcement/verbal & nonverbal, middle & lower class children, 8712  
 & reinforcer acquisition, children, 4388  
 reinforcer effectiveness, grade & sex & preference, 1145  
 research, & classical eyelid conditioning, mental retardates, 12413  
 response acquisition, investigative behavior, stump-tailed vs rhesus monkey, 5694  
 retarded children, 2378  
 reversal & extradimensional shift, 4 vs 10 yr olds, 13430  
 reversal, lesions of cortex & dorsal portion of hyperstriatum, bobwhite quail, 8430  
 reversal, noncorrection, crayfish, 7009  
 reversal & nonreversal shift, motivation & stimulus differential effects, mental retardates, 4916  
 reversal, overtraining & transfer, rat, 10140  
 reversal, visual, quail, 7021  
 & reversal, wheel-turn avoidance, rat, 11638  
 reversal learning & criterion level, kindergarten children, 2388  
 reversal training/successive, lizard, 5732  
 reversals/series of, boundary conditions for increased speed of discrimination, pigeon, 7010  
 reward & punishment, children, 15059  
 reward delay & distraction, mentally retarded children, 17040  
 reward value, & later acquisition & extinction, rat, 2624  
 reward vs nonreward pretraining, mentally retarded children, 6192  
 septal lesions, & overtraining, rat, 8426  
 set formation/learning, mink & ferret & skunk & cat, 6968  
 set performance, MA, IQ, motivation, retarded children, 12393  
 set size, 14633  
 sets/retention of, & learning, IQ, training, lower-class preschool children, 15055  
 short term memory, retarded children, 7745  
 similarity of irrelevant stimuli, preschool children, 15060  
 simultaneous discrimination of colors & geometric forms, duration of reinforcement & intertrial interval, 11634  
 size discriminations/intermediate, & transpositions, dog, 10135  
 social class/high & low, children, 10245  
 spatial discrimination learning, response choice & speed, food ration, rat, 11635  
 spreading depression, performance, secondary cues, brain stimulation, rat, 1213  
 stimulus dimensionality & manipulability, vision, children, 10249  
 stimulus meaning & S's verbal skills, 2381  
 stimulus presentation order, successive & conditional discrimination, children, 10252  
 stimulus redundancy, retarded children, 15709  
 stimulus rotation, monkey, 16420  
 stimulus variation over series of tasks & reinforcement, 191  
 subnormal children, 15056  
 tactile, children, frequency & time touching discriminanda, 5812  
 tactile & visual reversal learning, monkey, comment, 392  
 tactile & visual stimulus perception, retardates, 3248  
 task, posttrial nicotine injections, rat, 14879  
 TCAP, rat, 4120  
 & temporal & frontal lesions, baboon, 16281  
 transfer & visual recognition, new cue combinations, 2379

transfer/dimensional, irrelevant stimulus dimensions, preschool children, 11706  
 transposition, size, double discrimination training, children, 10256  
 Trial 1 reward & intertrial interval & test experience, monkey, 1306  
 verbal, correct-incorrect frequency as cue, 212  
 verbal & visual exploration & manipulative rewards, age & sex differences, children, 8703  
 verbal discrimination learning, nonsense syllables, intralist similarity, 6662  
 visual, geometric forms, transfer, ferret, 8613  
 visual, sameness-difference judgments & discrimination of obliques, rat, 7015  
 visual discrimination, auditory input pattern & articulation & instructions, 13003  
 visual discrimination conditioning, mentally retarded children, 12417  
 visual discrimination learning, cue redundancy attention, age differences, 2nd & 6th grade children, 10211  
 visual pattern, knowledge of results, 196  
 visual redintegration, chimpanzee, 2622  
 X-rays on neonatal brain, rat, 16387  
 T maze, laboratory maintenance, alligator, 384

**Learning/Incidental**

children, age differences, 10257  
 children, developmental study, 2709  
 context vs no-context programed Russian vocabulary lesson, recall, college students, 5080  
 curiosity, & low drive arousal, 3877  
 implicit associations, 6679  
 incidental & intentional learning retention, response-correlated reinforcement, college students, 6658  
 incidental & intentional learning, instructions, presentation rate, recall vs recognition test, college females, 6659  
 incidental-intentional learning dichotomy, attention & instruction & orienting task, 388  
 & intentional paired associate learning, recognition & recall, 14658  
 isolation & perceptual organization, 189  
 motivation & age & sex differences, colors & shapes around nonsense syllables, 8308  
 retroactive inhibition, verbal learning, 8345

**Learning/Maze (see also Alternation)**

3D vs 2D maze learning, preschool children, 8309  
 age difference, exploration levels, chicks, 13339  
 air ion concentration, shock stress, age differences, rat, 5668  
 alternation/direction, T maze, trial 2, rat, 1293  
 circular, counting, food reward, rat, 16406  
 CNS stimulants & maze learning, strain differences, rat, 8528  
 cues/intra-maze, alternation after forced trials, rat, 6986  
 & hippocampal lesions, rat, 291  
 intertrial interval, acquisition & reversal, rat, 1290  
 latent learning, stimulus change & exploration, rat, 16399  
 manifest anxiety & achievement motivation & learning time, 9785  
 memory, blindfolded adults, blind children, 9220  
 multiple choice maze learning & retention, decision making & perceptual-motor activity, 9930  
 operant stimulus control, discrimination reversal, heat escape, alligator, 1307  
 paired associate learning, serial-recall, knowledge of results, mental retardates, 9279  
 postweaning environment, rat, 4261  
 social model & response facilitation, hypoglycemic & alloxan diabetic rat, 2617  
 stimulus presentation rate & random reinforcement, T maze, rat, 16412  
 strychnine sulfate, rat, 16341  
 TCAP, RNA stimulating & antithyroid properties, spatial discrimination & reversal learning facilitation & cretinism, 6898  
 transfer to free-turns situation, ant, 10116  
 tricyanoaminopropene in postnatal development, mouse, 16326  
 yeast RNA injection, rat, 2530  
 T maze, laboratory maintenance, alligator, 384

**Learning/Motor**

- alimentary conditioned motor reflexes/exhaustion of, & stimulus intensity, rat, 10165
- anxiety level/initial, frustration & shock & extinction, 1118
- conditioned motor reflexes & kinesthesia, disturbances in functional-activity levels of motor-kinesthetic analyzer, brain lesions & normals, 9953
- controls/forearm & hand & thumb, comment, 17196
- controls/forearm & hand & thumb, reply, 17198
- goal & error training methods, positioning response, 199
- individual differences, college students, 11317
- inescapable shock, interference, escape & avoidance responding, time, & adaptation, dog, 4314
- instruction set on recall or operation, 8311
- instrumental motor vs classical conditioning, comparative analysis, ontogenetic & phylogenetic data, 14651
- keyboard training face validity, methodology, 8109
- kindergarten drawing skill & handwriting preparation, 4385
- kinesthetic experience, 6624
- mathematical model, 50
- mental practice & perceptual motor skills, review, 11318
- mental training, 16185
- observational vs shaping technique, lever pressing, rat, 6988
- performance & learning decrement, secondary task interference, tracking, 3853
- practice/covert & overt, & skill & permanence of effect, complex juggling task, 8297
- rate, & motor educability battery, 6th graders, 3717
- reinforcement/external vs self vs no, visual-motor tasks, 8361
- retention of early learned motor skills, retraining vs new skill learning, aged, 7166
- runway performance, light, shock, goal box, earthworm, 8307
- & sleep, & vasomotor response, 1089
- stimulus predifferentiation & generalization, rotary dialing task, 8300
- task performance learning & pretask experimentation, children, 4375
- & transfer, intra-task difficulty, college students, 16184
- typewriting, 14615
- typing skills, kinesthesia, visual deprivation, 6577
- visual & proprioceptive feedback, training speed, 6684

**Learning/Over**

- amount of training, extinction resistance & suppression with punishment, rat, 10164
- behavior changes, & reversal & transfer effects, rat, 2615
- classical conditioning, visual discrimination, heart rate & foot flexion schizokinesis, dog, 5726
- discrimination reversal, & goal approach strategies, rat, 14966
- discrimination reversal, & transfer, rat, 10140
- & discrimination reversal, continuously reinforced, free operant, rat, 8614
- discrimination reversal & discrimination & learning criterion, rat, 2618
- discrimination transfer task, intradimensional & extradimensional & reversal shift, preschool children, 16499
- extinction, running speed as function of number of reinforcements, 14985
- irrelevant stimuli, successive position reversals, rat, 8593
- learning/reversal, acquisition & reversal food reward size, & differentiated vs undifferentiated maze, rat, 4322
- motor skill retention, 11336
- overlearning reversal effect, running speed & reinforcement, rat, 10154
- overtraining reversal effect, color discrimination, pigeon, 8597
- paired associate, word & CVC pairs, transfer to CVCs, overtraining & addition of items to original list, 8341
- physiological correlates, GSR & heart rate & palmar skin conductance, & original learning & subsequent learning, 11402
- reversal, discrimination, rat, defense, 16416
- reversal, discrimination, rat, criticism, 16421
- & reversal & extinction, goldfish, 1356
- reversal, probability matching, 13012

- reversal, visual discrimination, 16198
- reversal discrimination & irrelevant dimensions & reward magnitude, rat, 10136
- reversal effect, & reward size, rat, 2614
- reversal effect, discrimination task, reward, training procedure, distinctiveness, rat, 7013
- reversal effect, visual discrimination choice, rat, 8607
- reversal/discrimination, & age differences, preschool children, 188
- septal lesions, discrimination learning, rat, 8426
- transfer/learning, & task complexity, children, 8702
- verbal learning reversal shifts, 8343

**Learning/Paired Associate**

- anticipation & contiguity & response practice, 5476
- arousal & recall interval of 2 minutes to 1 week, 14680
- association value of numbers, 13064
- associations/specific vs contextual, unlearning & spontaneous recovery, 9872
- associative directionality & syntactic relationship, grades 4 & 8 & 12, 16494
- associative interference, motivation, 6th grade children, 10255
- auditory & visual learning, 2nd grade children, 7123
- Barron Complexity Scale, complexity-simplicity personality dimension, construct validity, 14438
- bidirectional, transfer & interference, 213
- children, initial associative strength, 8705
- colors added to verbal stimuli, facilitation of learning, differentiation effect vs additional associative cue, review, 13056
- concept learning & convergent paired associate task performance, 1112
- concreteness & imagery & meaningfulness of stimulus & response & reported mediators, 3908
- concreteness, imagery, recall & intertrial intervals, college students, 14670
- constant vs varied serial order, 3912
- content vs function words bounded by nonsense syllables, response triplets, 13039
- contour cues/augmenting, & reducing irrelevant cues, pictorial stimuli, 14638
- cue selection amount & positional distribution, & stimulus pronounceability, 3909
- cue slides with cartoon response slides, construction of response sentences, word order, 11337
- cues/initial, 8326
- CVCs, medium association value, connotative meaning & learning difficulty, 8334
- CVCs & natural language mediation, 217
- CVC-word pair associability, list difficulty, 5483
- distributed practice, proactive inhibition, 13023
- duoprocess paired associate learning model, 49
- emotionality & competitive vs noncompetitive paired associate task, 8287
- extraversion & neuroticism, list difficulty, anxiety & cortical arousal, 11909
- eye movements, fast & slow learners, 2382
- & eye movements & nonlearning situation, 1136
- foreign language, printed & spoken word interaction, 1130
- free recall, directionality & organizational processes, college students, 11371
- frequency shifts & response choices, 5461
- grammar, pronounceability, college students, 9864
- group method, E-bias, 8327
- hunger drive level & habit strength, 11309
- imagery & meaningfulness mediation instructions, word attributes, rote repetition learning, 9876
- information processing model, 1144
- intentional & incidental learning, recognition & recall, 14658
- interference & acquisition & strength of competing responses, 8325
- interstimulus & interunit intervals, response repetition vs number tracking vs rest, 5474
- interstimulus interval, 16205
- intralist association, interference, associative-mediation hypothesis, 8332
- item replacement, incremental & unitary aspects, & retention, 6652

- language development & television, object & verbal availability, concept learning, elementary school students, 7125
- learning rate & transfer, number of S-R pairs with common relating principle, 6675
- left-right habits from reading & coding & practice, 222
- length of list & initial associative strength & presentation time, 4th vs 6th vs 8th graders, 13061
- letter pairs, grammatical structure, 2408
- list 1 response recognition after A-B & A-C learning, 13074
- maze learning, serial-recall, knowledge of results, mental retardates, 9279
- meaningfulness, eye movements, college students, 14663
- meaningfulness & presentation method, 13042
- meaningfulness & response hierarchies, percentages of presentation occurrence of alternative responses, 9869
- meaningfulness & syntax & constraint, 6th graders, 5477
- mediated generalization & interference, 2nd grade to college, 211
- mediated transfer, presentation rate & meaningfulness, 221
- mediation, associative strength, 9865
- mediation, mediator recall & meaningfulness, forward & backward recall, 6640
- mediation & short term memory, aural presentation & written response, 5471
- mediation locus & anticipation interval, transfer learning, 13055
- mediational processes, interference, college students, 6660
- memory/short term, & ability level & temporal factors, retardates, 1845
- memory/short term, retroactive & proactive inhibition, 5491
- method of generated responses learning, retention, college students, 8323
- mixed vs unmixed list designs, reinforcement & test learning sequences, 14661
- mnemonic, verbal material retention, 1139
- model, all-or-none unlearning, 6672
- model, overlapping stimuli, 12771
- natural language mediators, 5473
- nonsense syllables, control locus, expectation, anxiety theory, college females, 9668
- Northern Ireland, introduction of clinical psychology into health services & university, 11975
- nouns, concreteness & specificity & imagery & meaningfulness, 6673
- oppositional serial structures, 220
- ordering in lists, 6639
- own vs other voice presentation, air vs bone conduction, 202
- paired associate list learning & transfer, stimulus selection, letter color, 8351
- phonemes/4-letter, & frequency, 13037
- phonetic relation, & impulsivity, 5944
- physiological arousal, & pursuit rotor & finger dexterity tasks, 6744
- pictorial & verbal factors, connective form class & amount learned, elementary school students, 17134
- picture-number, & GSR to number, perceptual defense research method, 158
- positive & negative evaluation, self-image, chronic schizophrenics, 7601
- practice, recall, college girls, 6654
- practice, recall, response correctness & latency, 9868
- practice/massed vs distributed, retention vs performance during acquisition, CVCs, 6655
- practice/massed vs distributed, trigrams & words, 6678
- presentation methods, 219
- presentation time, & trials to criterion, & total time, & meaningfulness, 3899
- primary word associations/unidirectional, transfer, 13060
- priming, food & color words, hunger & color-naming conflict, 9870
- procedure to control interpair & repeated test learning, 218
- pronounceability rating & learning prediction mixed & unmixed lists, 3898
- pronounceability of paired associate trigrams, & learning, 2397
- recall, articulation & stimulus & response availability, 1132
- recall, long & short lists, 11360
- recall, presentation rate & age differences, 239
- recall accuracy & confidence in recall accuracy, 13052
- recall of competing responses to single stimulus, 6656
- recall of primary vs control word associates & extraversion & anxiety, 13062
- recall of primary word associates, interference of learned secondaries & recovery, 5460
- recall/list, transfer, interference, college students, 9871
- reinforcement & nonreinforcement, 5446
- reinforcement & test trial intervals, college students, 14641
- reinforcement interval length, 3906
- research criticism, 2395
- response & stimulus connotative similarity, 8337
- response availability & response members occurrence, children, 2697
- response hierarchy changes & additional associations, 2404
- response learning transfer, presentation order, 8347
- response meaningfulness, social class, Anglo-American & Mexican-American 5th grade students, 11726
- response shift errors, induced muscular tension, 5470
- response-stimulus learning during stimulus-response learning, interference, 13011
- retention, post-learning activities, 16223
- retention interval, presentation rate, list length, college students, 11358
- retroactive & proactive inhibition, 5463
- retroactive inhibition, mental retardates, 12410
- rhymed vs unrhymed paired associates, 6671
- schizophrenics/chronic, & alcoholics & normals, incidental learning, 5991
- schizophrenics/process & reactive, 7564
- sentence vs conjunctive phrase context, noun pairs, 5478
- sequential ordering of added pairs, & correction, 8324
- serial position, correct & incorrect or competing & omission responses, 6666
- serial to paired associate learning transfer, 2399
- short term memory, anticipation trials, interpresentation intervals, college students, 14629
- short term memory, associative strength, retention intervals, task repetition, mental retardates, 17042
- short term memory, related vs unrelated materials in retention interval, 6698
- signal detection analysis, recall, confidence & correctness, college students, 8382
- sign-to-object generalization, evaluatively conditioned nonsense syllables paired with block patterns & pattern preference, 9857
- similarity, children, 8704
- & simultaneous additional task, 2398
- simultaneous list presentation, multiple associations, CVCs, 3900
- sleep/retention after, 6691
- sociometric status & cue meaningfulness & distinctiveness, 4th & 6th graders, 13054
- sociometrically ranked names & consonants, children, 8710
- spacing of item repetitions, 5469
- speech part of stimulus & response, college students, 14668
- stimulus & response meaningfulness, & retention, 11362
- stimulus association & duration, anticipation time, college students, 13044
- stimulus duration, intertrial interval, college students, 13045
- stimulus learning vs recognition, 1128
- stimulus meaningfulness, & anticipation vs recall presentation, & mixed vs unmixed lists, 3914
- stimulus presentation/optimal strategy of, 6657
- stimulus recognition, 13049
- stimulus recognition/auditory, 13016
- stimulus relatedness, response coding, 8350
- stimulus selection, 2407
- stimulus selection, attention, prior associations, experience, college students, 6669
- stimulus selection & transfer, 224
- stimulus similarity, transfer learning, 13058
- structure & meaning & sound similarity, 5th grade students, 14666
- tachistoscopic recognition thresholds, word frequency, stimulus-response similarity, 8357
- transfer, meaningfully similar & associated stimuli, separate-lists design, 8342

- task, preferred sense modalities, sex & age differences, mentally retarded children, 7758
- task, retroactive inhibition, response-class similarity, college students, 11364
- task, visual information encoding, pattern goodness rating, 8328
- task performance, IQ & age differences self concept, female retardates, 7737
- test trials, college students, 16203
- Thorndike-Lorge frequency vs number of associates, 5479
- training procedure, multiple choice vs recall presentations, college students, 8335
- training transfer, stimulus & response integration, college students, 11366
- transfer, interference from preexperimental language habits of high vs low associative strength, 11365
- transfer & item length, & multiple choice recognition, 210
- transfer, list 1 learning level, college students, 6676
- transfer, semantic relations in mixed & unmixed lists, 5480
- transfer, stimulus category cue & list difficulty, 5484
- unlearning, continuous vs reduced occurrence of response members, partial reinforcement analogy, 9874
- unlearning, spontaneous recovery, partial reinforcement effect, response availability & response members occurrence, 3913
- unlearning of 1st list & amount of interpolated learning, A-B & A-C paradigm, 6674
- verbal & pictorial facilitation, age differences, 1st & 3rd & 6th grade students, 11730
- verbal labels & recognition of forms, 11329
- verbal learning, stimulus familiarization, college students, 14664
- verbal list transfer, A-B, C-A & A-B, B-C paradigms, 14667
- verbal stimulus hierarchies & association & recall probability, 1142
- vicarious learning, model & learner competence & observation trials, 9873
- visual tachistoscopic thresholds after paired associate learning, 12927
- word & CVC pairs, transfer to CVCs, overtraining & addition of items to original list, 8341
- & word abstractness & meaningfulness, children, 455
- word association, individual differences, 8348
- word recognition transfer, false recognition, 5482
- word-object, presentation sequence & modality, 198
- words/English & foreign, prelearning exposure & recall, 1-trial learning, 6653
- Learning/Perceptual**
- auditory discrimination, monetary reinforcement, utility & power, 5486

 & locus of chained associations, 5466  
 meaningfulness & percentage occurrence of items, 16207  
 nonsense syllables, electric shock isolation, college students, 14665  
 order of information, temporal input related vs unrelated to output, position vs temporal contiguity interpretation, 8355  
 paired associate & maze learning, knowledge of results, mental retardates, 9279  
 paired associate training, backward association, college students, 13041  
 perceptual recognition, training & delay & order effects, children, 7121  
 previously learned & newly learned material, within-list proactive inhibition, long & short-term memory systems, 3934  
 retroactive inhibition, Osgood's 2nd law, similarity & degree of learning, 8356  
 sensory deprivation, & memory, 5405  
 serial order effects, 2-channel memory, 5493  
 serial order in recognition & recall, lists of digits, 8329  
 sex role identification/appropriate, & personal adjustment, sorting instrument, 10470  
 spread of effect, intelligence, 13080  
 stimulus grouping during learning, serial recitation grouping, 13050  
 stimulus similarity & 1 vs 2 responses to each stimuli, verbal learning, 8336  
 stimulus trace model, & retention, 12782  
 structure & sequence, 3870  
 & subsequent recognition thresholds, CVCs, 8354

tachistoscopic pattern perception, similarity, information-translation theory, 3873  
 transfer, meaningfully similar & associated stimuli, separate-lists design, 8342  
 transfer, normal & retarded matched for mental age, 4911  
 transfer, serial to paired associate learning, 2399  
 transpositions in short term memory, retrieval vs storage, same vs different category trigrams, retention interval, 8376  
 verbal learning & retention, IQ level, mental retardates, 15739  
 von Restorff effect, isolation & surprise, nonsense syllables & numbers serially presented, 8330

**Learning/Verbal**

4-stage paradigm, mediated facilitation & interference, 8333  
 abstraction & meaningfulness & pronounceability, words, 2857  
 age differences, & auditory vs visual presentation, & meaningfulness, elementary & high school students, 3901  
 age differences, & retention, 5464  
 aged, men over 60 yrs & experimental stress, 4422  
 alphabetic ordering of stimulus items & memorization, 6661  
 anxiety & stress & task difficulty, 1129  
 anxiety & threat & awareness, college males, 2401  
 association, total association & conceptual cohesiveness, free recall & clustering & recognition of word sets, 6694  
 association strength & retention, mediation, delay, 8338  
 associations/specific vs contextual, unlearning & spontaneous recovery, 9872  
 associative interference, motivation, 6th grade children, 10255  
 associative recall, pronunciation, practice, college students, 13059  
 associative responses, recognition errors, mental retardates, 7757  
 attention, & stimuli meaningfulness, memory, 9896  
 aural presentation of nonsense syllables, intensity & free recall, 6663  
 awareness & attitude toward reinforcement, 16 PF Test & Nicolet-Walker PRS & WAIS Attention Test, 9866  
 awareness & rate of learning & postconditioning interview, informed vs uninformed Ss, 11369  
 awareness & reinforcement, 1135  
 children, developmental changes, 13397  
 clustering & recall, 5475  
 coding procedure & binary digits transformed into words, 11368  
 coding/anagram, pronounceability & instructions & call restrictions, 13043  
 conceptual similarity & anticipation interval, discrimination transfer, 13040  
 conceptual similarity, implicit responses, recall, 8358  
 concrete & abstract words equated for meaningfulness, recall, 2417  
 context & recall & recognition, 245  
 context of priming, verbal associations, 11361  
 context vs no-context programed Russian vocabulary lesson, recall, college students, 5080  
 cue use/color, 13038  
 CVC trigram learning & mental age, retardates, 1823  
 CVCs, medium association value, connotative meaning & learning difficulty, 8334  
 CVC-word pair associability, list difficulty, 5483  
 definition learning, generalization of paired associate model, 11367  
 derived list learning, interference, 13036  
 discrimination, correct-incorrect frequency as cue, 212  
 discrimination, item recall & type, pronunciation, practice, 6670  
 diurnal differences, hospital patients, 5459  
 dominance & tension, EPPS, 1131  
 environment, rock-n-roll vs classical music, learning CVC's, 12953  
 experimental methods, 9867  
 expository instruction vs discovery method, instructions, retention, remote transfer, 3903  
 extinction of 2 concurrent verbal responses, 2410  
 familiarity, 14659

- feedback vs prompting, & perceptual learning, 5447  
 foreign language, printed & spoken word interaction, 1130  
 foreign language memory, muscular relaxation, autosuggestion, adolescents, 8352  
 free recall, & presentation time, & number of items, 3937  
 free recall, retroactive inhibition, 9904  
 grammatical intrusions & structured letter pair recall, 2408  
 implicit associations, incidental learning, 6679  
 incidental, copying paired associates, dissonance arousal, 14636  
 incorrect recall of plausible multiple-choice alternatives, & knowledge of results, 3905  
 information processing, structured & unstructured verbal items list acquisition & recall, 2425  
 inhibition/retroactive, 1138  
 interlist learning & organization changes, free recall, instructions, retention, college students, 11370  
 intertrial organization, word lists, 13053  
 intrusions & letter pair recall, 3935  
 item position, mediating response, meaningfulness, pronounciability, 8349  
 Japanese & Russian languages, total physical response, review, 1126  
 Japanese language, total physical response, 1134  
 knowledge of results & verbal discrimination learning, 1148  
 letter-sequence spontaneous recovery, extinction procedure, recall, college students, 6668  
 list 1 learning level, paired associate transfer, college students, 6676  
 list-discrimination task, item-population size, recall & recognition, 9878  
 mathematical analysis, 14656  
 meaning change & awareness, classical conditioning of meaning & verbal operant conditioning, 3907  
 meaningfulness, CVC likeability for sound, 2856  
 meaningfulness measure, associative-frequency, 5481  
 meaningfulness of numbers & syllables, 5468  
 mediate association, facilitation, interference college females, 6667  
 mediation, paired associates, mediator recall & meaningfulness, forward & backward recall, 6640  
 memory test & school learning, elementary students, 10972  
 miniature linguistic system, incidental learning & novel stimuli, 10415  
 mnemonic system, & recall, 6701  
 nonsense syllable & digit list, primacy decrease, retention measurement & short-term memory, 2422  
 nonsense syllable learning & presentation array, 9875  
 noun pairs, sentence vs conjunctive phrase context, 5478  
 observational error, 8174  
 operant conditioning & S awareness, 14662  
 original learning-initial learning interval, retroactive inhibition, recall method, 8339  
 own vs other voice stimulus list, & practice, sex differences, 3902  
 paired associate, prelearning exposure & recall, trial learning, 6653  
 paired associate, response repetition vs number tracking vs rest during interstimulus interval, 5474  
 paired associate, response shift errors, induced muscular tension, 5470  
 paired associate learning, spontaneous recovery, partial reinforcement effect, response availability, 3913  
 paired associate learning, constant vs varied serial order, 3912  
 paired associate learning of 4-letter phonemes as function of frequency, 13037  
 paired associate transfer, A-B, C-A & A-B, B-C paradigms, 14667  
 paired associates, anticipation & contiguity & response practice, 5476  
 paired associates, frequency shifts & response choices, 5461  
 paired associates, positive & negative evaluation, self-image, chronic schizophrenics, 7601  
 paired associates, Thorndike-Lorge frequency vs number of associates, 5479  
 paired-associates, stimulus familiarization, college students, 14664  
 phenothiazine drugs, schizophrenics, 1761  
 physiological correlates, GSR & heart rate & palmar skin conductance, & overlearning & new learning, 11402  
 pictorial & verbal factors & connective form class & amount learned, elementary school students, 17134  
 posture, & memory, 13083  
 presentation time, & trials to criterion, & total time, & meaningfulness, paired associate lists, 3899  
 & presentation time & time of stimuli reproduction, 8331  
 proactive inhibition, retention interval, descriptive prose, 8346  
 reading skill improvement, 5018  
 recall, free & constrained concept formation, age differences, children, 10254  
 recall, free recall & set & category instructions, word association & delay, 1133  
 recall & vocalization level & trigram association value, 2423  
 recall facilitation, word pronunciation & spelling & related word verbalization, 1161  
 recall/whole-part free, transfer effects, 11379  
 response availability, short-term memory, free recall, 8371  
 response hierarchies, percentages of presentation occurrence of alternative responses & meaningfulness, 9869  
 response learning transfer, paired associate learning, presentation order, 8347  
 retention, unlearning & competition, 1159  
 retention intervals, error distribution, interference vs decay, 8369  
 retention measurement, relearning saving scores, 8364  
 retroactive inhibition, incidental learning, 8345  
 retroactive inhibition, Osgood's 2nd law, similarity & degree of learning, serial task, 8356  
 reversal of reinforcement value of verbal stimulus, 1150  
 reversal shifts, overlearning, 8343  
 review of literature, personality variables, 9879  
 role of single word variables, statistical approximation to English, 232  
 rote as meaningful learning, connected meaningful material, 2402  
 rule learning of logical connectives, adolescents, 14671  
 Russian language, total physical response, 1127  
 semantic similarity & retroactive interference, long & short-term memory, 2414  
 sensory deprivation, & memory, 5405  
 sentence length, & retention, 16217  
 sentence verification, evidence delay & sentence length & transformations, 2851  
 sentences, noun response strength, word order & active vs passive constructions, 2406  
 sequential ordering in recall & word list length, 3924  
 serial, ordinal position number as cue, 5485  
 serial learning, error vs correct response curve, list approximation to sentence word-order, 6677  
 serial learning, locus of chained associations, 5466  
 serial learning & retention, IQ level, mental retardates, 15739  
 serial to paired associate learning transfer, 2399  
 shaping duration of vocal response by differential reinforcement, 9848  
 short term memory, response, 8368  
 short-term & long-term memory, massed & distributed practice, interference, 8365  
 & socialization & risk taking, book, 11115  
 speech & sentence learning, color pattern scheme, aphasic children, 4883  
 stimulus & response meaningfulness, & retention, 11362  
 stimulus grouping during learning, serial recitation grouping, 13050  
 stimulus similarity & 1 vs 2 responses to each stimuli, serial learning, 8336  
 stimulus similarity, paired associate transfer learning, 13058  
 symbol-word relation, 2039  
 syntactical structure & rote learning, 2396  
 transfer, meaningfully similar & associated stimuli, separate-lists design, 8342  
 transfer, similarity & practice, 6641  
 transfer & stimulus effect, A-B, C-B paradigm, 1143  
 transfer from perceptual structure map, 1140

- transfer in paired associate learning, stimulus category cue & list difficulty, 5484
- transfer in paired associate learning, semantic relations in mixed & unmixed lists, 5480

 sexual frustration & anxiety, married women, 12300  
 therapy, couple-centered, 1780  
 therapy individual vs conjoint, 9204  
 treatment goals, 4694  
 women's marital problems, psychoanalytic interpretation, 7487

**Masculinity** (see also **Femininity**, **Sex Role**)

academic achievement, Draw-a-Person Test, masculine-feminine orientation, high school student, 1948  
 E & S, performance under social reinforcement, MMPI, 11193  
 factor analysis of 5 masculinity-femininity tests, 2880  
 father absence, juvenile delinquent boys, compulsive masculinity & sociometric rating, 15509  
 & femininity, personality traits, preschool children, 16519  
 femininity concepts, physician, 11954

& femininity stereotypes & perceived characteristics, 609  
 & femininity test scores, & sex role conflict films, 7199  
 masculinity-femininity scales, creativity, sex differences, 9th grade students, 10455  
 memory trace inaccessibility, severely retarded adults, 14124  
 Mf scores on MMPI & SVIB & Guilford-Zimmerman, correlation, college males, 8922  
 mother personality, ease of giving birth, 16677  
 self acceptance of judgments of masculinity-femininity & direction of change due to judgment of another's behavior, 10460  
 speech analysis, effeminate & masculine, pitch & duration, males, 4540

**Masking**

additivity, audition, 14539  
 audition, sensori-neural impairment & residual masking, temporary threshold shift, 3194  
 audition/central, contralateral threshold shift, steady state & pulsed maskers, 5385  
 auditory discrimination, critical band size determination, 2339  
 auditory intensity change sensitivity, 14566  
 auditory signal detection & masking-level differences, continuous & burst noise, 5390  
 backward figural masking, intercontour distance, 3790  
 backward visual masking, 2302  
 bandwidth, noise level, detection of homophasic & antiphase tonal signals, 1071  
 binaural-masked thresholds, accumulation model, 6570  
 brightness judgment, interstimuli interval, 8222, 8223  
 chromatic masking paradigm, temporal interaction of hues, 6551  
 cochlear delayed-click response & noise masking, auditory nerve excitation & temporal characteristics, cat, 4083  
 cross-modality masking, auditory stimulation, tactile thresholds, time interval, 11214  
 eyeblink conditioning, partial reinforcement, probability learning as masking situation, 9861  
 forward masking, auditory threshold shifts, signal frequency, 16124  
 GSR & measurement methods, 5581  
 interaural time delay, speech & noise, 16122  
 masker & signal interaural correlation, narrow-band noise, detection, 12942  
 monaural signal detection, interaural masking level differences, 1075  
 movement masking, static object in peripheral field & moving object in corresponding area of field of other eye, 3782  
 noise, detection, signal duration, 8257  
 noise, signal intensity & duration, forced-choice detection, 8258  
 noise, speech, stutterers, 7683  
 noise detection/narrow band, signal & masker correlation, 16135  
 noise generator, monaural & stereo, 5314  
 orientation of lines, dark adaptation, visual acuity, college students, 14521  
 pure tone, & speech discrimination, sensori-neural hearing impairment, 3199  
 reaction time, check trial recognition, 3859  
 stimuli proximity & parallelism, backward visual masking, 9726  
 stimulus attenuation & noise masking, audition, 14538  
 visual masking, evoked potentials, monkey, 16305  
 visual masking, extraverts & introverts & neurotics, 8239  
 visual masking, monkey, 10179  
 visual short term recognition memory, 0-1 seconds, display cues, 5335  
 visual target detection threshold, masking stimulus width of movement, constant target separation, 6537  
 white noise by pure tone & frequency-modulated tone & narrow-band noise, 9743

**Mass Behavior** (SEE **Group**, **Social Behavior**)**Mass Media** (SEE **Communication/Mass**)**Maternal** (see also **Mother**)

activity intercorrelations, rat, 15012  
 age, & incidence of mongol births, England & Wales, 14080

- attitudes, social reinforcement, mother-child interactions, 1432  
 behavior, alcohol injections, domestic cock, 10174  
 behavior & behavior problems in children, 8721  
 behavior, male rat, 16372  
 behavior, marmosetized rat, 16285  
 behavior, ovariectomy, primiparous & multiparous rats, 1239  
 behavior & pup contact, virgin female hamster, 425  
 behavior & sex of infant & social class & parental education, 8821  
 behavior, strain differences, rat, 5763  
 & caribou calving behavior, natural observation, 8577  
 child rearing attitudes, beginning reading success, boys, 10966  
 child rearing attitudes, neighborhood group attraction & communication, Newcomb's balance model, 7278  
 deprivation & foster home placement, separation anxiety & parental rejection, resolution of object loss, 17006  
 deprivation, wrist cutter syndrome, meaningful verbal communication, psychiatric patients, 13713  
 early exposure to warmth vs cold & ear marking & subsequent survival to cold & maternal behavior, mouse, 11599  
 EEG, & fetal, guinea pig, 307  
 goat, olfaction & recognition of own young, 6958  
 hippocampal lesions/bilateral dorsal, sexual & maternal behavior, rat, 9972  
 indulgence & neglect & maladjustment in adolescence, college students, 8740  
 lack of maternal & family care, child's personality, Rorschach, 11746  
 maternal-censure, performance interference, schizophrenia, 1748  
 nest building factors, fetus & estrogen & progesterone levels, rabbit, 8574  
 nonhormonally determined maternal behavior, males & females, rat, 11674  
 psychopathology, role in development of male vs female schizophrenic children, 13978  
 pup age & behavior, virgin female hamster, 1370  
 reading achievement & mother's behavior, 6th grade girls, 3424  
 rearing, isolation & wire cage & poor mother, social behavior, monkey, 16450  
 recognition of neonate cries, 13453  
 responsiveness to young, virgin & pregnant & lactating hamster, 1369  
 separations/early, coo vocalizations, fear, monkey, 11602  
 marital status, posthospital adjustment, family relations, age differences, residual psychiatric symptomatology, depressed women, 10711  
 marital status, Self-Rating Depression Scale, age & sex & educational differences, income, values, psychiatric outpatients, 10722  
 sexual preference, test without copulation, female rat, 15002  
**Mathematics** (see also Counting, Number)  
 ability factor analysis, sex differences, 10451

- myoneural synapses development & skeletal muscle maturation, curare & neuromuscular transmission & age differences, dog, 14751
- neonatally administered thyroxine, EEG development, conditioned avoidance learning, rat, 6914
- perceptual development, social interaction, Vygotsky's theories, 3641
- protein deficiency, intelligence, rat, 1256

- sensorimotor cortex evoked potentials, physiological structure development, rabbit, 4043  
 sexual maturation, pituitary activity & simulated daytime, rat, 5672  
 sexual maturation, urinary steroid excretion, body build, male depressed & schizophrenic patients, 8542  
 strain differences, avoidance learning & extinction, mouse, 4236  
 stressful periods occurrence, 5833  
 treatment maturational stages, behavior problem & regression, defense mechanism, 17 yr old male, case report, 14019  
**Maze** (see also Learning/Maze)  
 differentiated vs undifferentiated, reversal learning & over-learning, acquisition & reversal food reward size, rat, 4322  
 Hebb-Williams maze, B, deficit & restricted & enriched environment, rat, 5689  
 Hebb-Williams maze, magnesium pemoline, time, errors, rat, 8518  
 learning, wall following tendency, hippocampal lesions, rat, 4029  
 performance, cerebral lesions, young & mature rat, 13186  
 performance, reward magnitude, incentive choice, length of institutionalization, male retardates, 14111  
 Porteus Maze & Digit Span tests, addicts, psychological support, drug life identification & craving, 10681  
 Porteus Maze scores, verbal reinforcement, Australian aborigine children, 13409  
 Porteus Maze Test performance, impulsive vs controlled institutionalized delinquents, 3088  
 Porteus Test, behaviorally retarded vs nonretarded, southern Negro adolescents, 8879  
 saline-water preference, prior drinking experience, rat, 4263  
 verbal maze, doublet effect location & magnitude, 255  
 vestibular sense & locomotion, immobile carriage & movable maze apparatus, rat, 2651  
 water vs saline preference in T maze, reinforcement value, thirsty rat, 4319  
**Meaning** (see also Semantics)  
 affective, reduced stimulus input, pictorial & verbal stimuli, semantic differential, 11296  
 affective meaning of concepts, children, Picture Evaluation Technique, sex & situational differences, 10236  
 alienation concept from psychological & cultural & sociological & philosophical viewpoints, 15956  
 change, awareness, classical conditioning of meaning & verbal operant conditioning, 3907  
 & change of meaning, psycholinguistics, G. Stern, 16663  
 classical conditioning of word meanings, neurotics & extraverts, 13027  
 client change in connotative meanings & perception of counseling relationship, counselor-trainees relationship orientation, 17002  
 conditioning connotative meaning, 216  
 connotative meaning of vocational agriculture words, socioeconomic status, teacher-student similarity & recognition, grade level, high school students, 10930  
 connotative word meaning, mediational level & semantic differential, development, 1399  
 CVCs, medium association value, connotative meaning & learning difficulty, 8334  
 language/oral, acquisition of meaning, neuropsychological foundations, 13404  
 morale definition & level, Naval aviation trainees, 7222  
 oral statements, Test of Implied Meanings, 2858  
 paired associate learning, & structure & sound similarity, 5th grade students, 14666  
 phonetic symbolism/universal, matching English & Japanese words, imitative & word length factors, 8853  
 pragmatic meaning of interpersonal terms, semantic differential & interpersonal behavior measurement, 2854  
 racial concept & color name connotations, replication, Germany, 11879  
 ratings & emotional state, elation vs depression, 1092  
 relativity & values & psychotherapy, 13711  
 rules of use theory as semantic theory of meaning, language philosophy, 9530  
 semantic differential concept meanings, special education classes, emotionally disturbed boys, 7868  
 semantic differential rating of stimulus word & primary associate, children & adults, 4543  
 stimulus & response connotative similarity, paired associate learning, 8337  
 structural meaning measurement, & grammaticality & reading ability, 2853  
 subconscious meaning, language, psycholinguistics, 8865  
 suicidal patients, dichotomous thinking, semantic differential, 4767  
 syntactic position of nonsense syllable & rated meaning, semantic differential, 13573  
 verbal labels & recognition of forms, 11329  
 vocabulary learning, foreign language, reinforcement, 214  
 word certainty & uncertainty, 5928  
 word meaning assessment, comparison of free association & semantic differential profile of word, 15243  
 word meanings, & self-descriptions, adjective pairs & triads, replication, college students, 4545  
 word meanings acquisition, reinforcement, 7288  
 word repetition & semantic satiation, experimental instructions & semantic differential, 4537  
**Meaningfulness**  
 association, & familiarity, nonsense words, 2405  
 association & pronounciability & familiarity & frequency, verbal units, 11875  
 associative learning, words & objects, blind children, 3371  
 auditory distraction/of, sorting task, 14125  
 auditory recognition of nouns, meaningfulness & abstractness, mentally retarded, 3810  
 auditory word recognition, abstractness, phonetic structure, 8253  
 conceptualization/all-inclusive, list meaningfulness, 8863  
 CVC likeability for sound & verbal learning, 2856  
 free learning, recall, encoding cues, college students, 8370  
 inter-item & positional associations, degree of serial learning, ordinal position, 14669  
 learning & recall, & volume of material, fast & slow learners, 11359  
 learning & retention, & presentation method & organization, 16208  
 learning paired-associate lists, eye movements, college students, 14663  
 learning/paired associate, cue meaningfulness & distinctiveness, & sociometric status, 4th & 6th graders, 13054  
 learning/serial, & item percentage occurrence, 16207  
 meaningful verbal communication, wrist cutter syndrome, early maternal deprivation, psychiatric patients, 13713  
 measurement, & agreement of meaning, semantic differential, 13578  
 mediation in paired associate learning, mediator recall & meaningfulness, forward & backward recall, 6640  
 paired associate learning, nouns, & specificity & concreteness & imagery, 6673  
 paired associate learning, percentages of presentation occurrence of alternative responses, 9869  
 paired associate learning, imagery & meaningfulness mediation instructions, word attributes, 9876  
 paired associate learning, stimulus & response meaningfulness, & retention, 11362  
 paired associate learning, & presentation method, 13042  
 paired associate learning, & presentation time, & trials to criterion, & total time, 3899  
 paired associate learning, stimulus & response concreteness & imagery & meaningfulness & reported mediators, 3908  
 paired associate learning, stimulus meaningfulness, & anticipation vs recall presentation, & mixed list, 3914  
 paired associate learning, mediated transfer, & presentation rate, 221  
 paired associate learning & word abstractness, children, 455  
 paired associate learning, & syntax & constraint, 6th graders, 5477  
 personal & common constructs, 10416  
 personal values & imagery & meaningfulness of value words, 10418  
 reading ability, & temporal order & retention, 10-15 yr olds, 14655

- recall, concrete & abstract words equated for meaningfulness, 2417
- response meaningfulness, verbal paired associate learning, social class, Mexican-American & Anglo-American 5th grade students, 11726
- rote as meaningful learning, connected meaningful material, 2402
- short term memory & recoding cues, 1160
- short-term memory, unit sequence interference, response latency & correctness & confidence, 8384

- dihydroxyphenyl-alanine & noradrenaline & adrenaline in brain stem, reserpine & hyperthermia, 11526
- dormouse, hibernating cycle, arousal, environmental temperature, 11590
- early experience, shock effects, emotionality, 13301
- early exposure to warmth vs cold & ear marking & subsequent survival to cold & maternal behavior, 11599
- ECS, 1-16 hours before test, punishment performance, 13302
- ECS, inhibitory avoidance task, retrograde amnesia, activity rhythm, 11411
- electroconvulsive seizure/submaximal, & retroactive & proactive amnesia, mouse, 5714
- estocin & tranquilizer combination, pain threshold & conditioned reflex, 4179
- ether & temperature, retrograde amnesia, avoidance training, 4158

- exploratory behavior, illumination level & temporal satiation, 3 inbred strains, 10107  
 foster mother of own vs other strain, behavior & performance, 1278  
 gene mutations, DNA-RNA activity, research, 6941  
 genetic analysis, open field behavior, treatment effects, 14902  
 genetic differences, conditioned avoidance, alcohol preference, audiogenic seizures, locomotion, wall-hugging behavior, 6935  
 glaucine chloral hydrate, cardiovascular system, autonomic nervous system, 4105  
 grippie & antigrippe immunity, experimental neuroses & nervous system typology, & rat & chicken, 2445  
 GSR, urination & contact area, 16309  
 gutimine, brain electrical activity & conditioned reflex, 4142  
 hallucinogenic drug induced head twitches & related drugs & antagonists, 11546  
 haloperidol as antagonist to amphetamine, EEG, 13282  
 hemithiamine, anticonvulsant properties toward metrazol & bemegride & arecoline & strychnine & thiosemicarbazide & shock, 13269  
 hexanal & chloracetylin, sleep inducer, 4204  
 hippocampal brain lesion, amnesia, 13165  
 hoarding, genetics, biometrical analysis, 4234  
 hoarding, inbred strains, genetic model, 4233  
 homoveratrylamine & histamine, catatonia, 6890  
 hynderine, catecholamine metabolism, 4111  
 hyperkinesia, 3 alpha-chloronortropine & nortropine & pseudotropine, 4144  
 hypothalamic mediation, reserpine, 5653  
 immunosympathectomy, environmental adaptation, electric shock, heart rate, 6924  
 inbred mouse strains & wheel-turn avoidance task, 7034  
 incline behavior, balancing practice, 6966  
 inhibition of isolation-induced attack behavior, psilocybin & mescaline & 2-bromlysergic acid diethylamide, 10048  
 learning interference/appetitive & aversive, ECS & ether, 13343  
 learning/appetitive & aversive, memory, ether, electroconvulsive shock, consolidation theory of memory, 11619  
 learning/avoidance, albinism, 4317  
 learning/spatial & visual, preceded by training in water maze with free spatial or visual choices, 10196  
 life history & ecology, natural observation, golden mouse, 2583  
 LSD & mescaline, conditioned reflex, 4186  
 LSD-25, locomotor activity & brain chemistry, 6878  
 male, aggressive & sexual behavior, 10175  
 maternal influence on open field behavior, 11585  
 mating behavior, strain differences, males, 16445  
 medial & hypnotic action, caffeine & antihypnotic action, season of year, castration & adrenalectomy, 4175  
 memory, protein synthesis inhibition, antibiotics, 8573  
 meprobamate & oxyldine combination with amidopyrine, conditioned electrodefensive reflex, mouse & rat, 6887  
 methylphenidate & amphetamine & diphenylhydantoin & dimethadione & phenobarbital, motor activity, & children, 11557  
 methyltyrosine modification of central stimulant effects, LSD & d-amphetamine & morphine & mescaline & cocaine & desmethylinipramine, 8522  
 monoamine oxidase after fighting, amygdala & hypothalamus & frontal cortex, 11506  
 monoquaternary ammonium salts, sympathetic & parasympathetic ganglia, 4149  
 morphine tolerance, 8-azaguanine, 16342  
 nerve growth factor, tissue distribution & biological activity, 1192  
 olfactory stimuli & agonistic behavior, urine pheromones of familiar vs strange mouse, 7062  
 open-field activity & defecation, bright illumination, albino vs pigmented mice, 2568  
 orientation to homesite, celestial cues, & California vole, 14930  
 orthonal, anticonvulsant & antitremor, 4205  
 oxygen-enriched atmosphere & cerebral acetylcholinesterase activity, 11521  
 passive avoidance, fearfulness, strain differences, food & water deprivation, Mowrer's theory, 8616  
 passive avoidance response, retention, shock duration & training-testing interval, 4310  
 pentyleneetetrazol & memory, 13217  
 peripheral adrenoreactive system, beta-aminopropiophenones & adrenaline simulation, 4154  
 phenacon, acetylcholine content & cholinesterase activity in brain in shock, 13220  
 post-trial shock, & memory, avoidance learning, 4309  
 predicting audiogenic seizure behavior, sex & defecation & barrier activity differences, 16379  
 preweaning handling & shock, task learning, 14929  
 puromycin, seizure, memory, 13232  
 quaternary ammonium compounds, hemato-encephalic barrier penetration, tremor inhibition, 4155  
 & rats reared by rats, activity level of mother & pup's weight & fighting, 6974  
 retrograde amnesia, ECS & foot shock interval, passive avoidance learning, strain differences, 4280  
 rotary acceleration, postural response after falling, 13297  
 running wheel behavior, wheel size, 10108  
 sanguinarine, anticholinesterase action & increased sensitivity to acetylcholine, 6860  
 scopolamine & atropine & benactazine, avoidance conditioning, 346  
 scopolamine, avoidance conditioning, naive vs trained mice, 11558  
 scrophularia, neurotropic action, 4182  
 sex drive, unilateral gonadectomy & androgen secretion & compensatory growth, 4210  
 sexual behavior, ST/J & CBA/J strains, 421  
 sexual performance/male, female variation, deer mouse, 13385  
 social interaction as population regulation mechanism, 13383  
 species & strain differences, whisker deprivation, water submersion task, 14905  
 stimulation & gonadotropic action, ginseng root, 4114  
 strain differences, avoidance learning & extinction, maturation, 4236  
 strain differences, optimal distribution of practice for learning & consolidative processes, 5683  
 strain differences, reactivation time for castrated male to regain ejaculatory reflex, 4238  
 stress & social dominance & exploration, 6954  
 stress during infancy & cancer susceptibility in induced tumors, & rat, 6933  
 stress/prenatal maternal, physical stress vs adrenalin, genotypes, pup activity, 6928  
 sugar preference, methodology, & rat, 1389  
 swimming performance, d-amphetamine & iproniazid & phenelzine & deanol & imipramine & desipramine, 2545  
 swimming performance, water temperature & time to submersion, mouse strains, 4239  
 sympathectomy by immunization in 1st week, operant & avoidance behavior, 9957  
 tetrahydrocarbazol & tetrahydrothiopyranindole & benzdehydrothiopyranindole, antidepressant properties, 4109  
 thyroid & hypothalamo-hypophyseal neurosecretions, saline intake, 14886  
 tremor/drug induced, countertremor activity of 7 arylhydrazides of dialkylglycolic acids, 8515  
 tricyanoaminopropene & amnesia & brain RNA, 333  
 tricyanoaminopropene in postnatal development, maze acquisition, 16326  
 trioxazine, conditioned reflex & pain threshold, 4190  
 ulcerogenesis, isolation & food deprivation, 354  
 ulcerogenesis/feeding-induced, changed housing, 13310  
 ultrasonic calls & age, 2654  
 uridine incorporation into brain RNA, short-term training, 11541  
 vestibular nystagmus, electronystagmogram & centrifuge acceleration & rotary stimulation, 13391  
 water intake canalization, inbred & crossbred mouse, 10071  
 wheel-running preferences, 11610  
 willow herb, conditioned reflex, orienting response, aggression, experimental neurosis, 4163  
 Mouth (see also Cleft Lip & Palate)

- accommodation to nipple, infant, 8669  
 cigarette smoking, orality & impulsivity, men, 5950  
 classical conditioning of jaw movement, & appetite, rabbit, 1304  
 dental appearance/attitude toward, 2782  
 drooling measurement, free play, mentally retarded child, 3240  
 lingual postures & speech, descriptive analyses, 1803  
 lip reading ability, Wechsler Digit Symbol & Wechsler Kols Blocks tests, 16070  
 loss of teeth in dreams symbolizing aging fear, 13877  
 oral & diurnal instinctual drive cycle as sleep-dream cycle counterpart, 16165  
 oral habits, allergic children, 14137  
 oral skills & manual communication, deaf children, 1800  
 oropharyngeal activity, speech, films, 16264  
 orthotic training, operant conditioning, quadriplegics, 2111  
 perception of orally-retained liquid bulk, scaling by constant method & ratio estimation, 6495  
 saliva/amount of, mouth movement & swallowing, 5525  
 salivary conditioning, UCS intensity, response probability, high school students, 11344  
 speech, oral & nasal airflow & pressure, measurement techniques, 3993  
 spontaneous salivation rate, water reward, thirsty dog, 4325  
 tongue thrust therapy techniques, 7681  
 tongue-lick, fixed-ratio performance, lickendum apparatus, rat, 5303  
 unconditioned salivation, caffeine & korasol & diphacil, dog, 4203
- Movement** (see also Movement/Apparent)  
 academic achievement & family movement, elementary school student, 3304  
 acceleration, illusion, spatial orientation, 6512  
 afferent paresis, kinaesthesia & voluntary movement control, 758  
 aftereffects, information vs redundancy in rotating field, 3776  
 arm neuromotor & muscle movement latencies, reaction time, 6632  
 artificial selection for stimulus source movement, genetic analysis, fruitfly, 4231  
 avoidance & orientation reflex, & respiration & heart rate, age differences, infant & rabbit, 7084  
 Bernstein/N.A. review of work, coordination of voluntary movement, USSR, 8045  
 blind Ss, anxiety & veering tendency & walking speed, 12317  
 blind vs blindfolded Ss, veering tendency, incline & decline gradient perception, length of blindness & performance, 12316  
 body immobilization, visual signal reaction time, physically handicapped adolescents, 9218  
 body movement, Kinget Drawing Completion Test, gifted & retarded adolescents, 7359  
 body-part size estimates, illumination, sex differences, college students, 12904  
 brightness of flickering moving spot, visual judgment, 16108  
 calls, postures, gull, 5696  
 cardiac conditioned reflex, leg movement & heart rate, dog, 7005  
 chlordiazepoxide, fixated behavior & position stereotypes, Maier paradigm, 5641  
 conflict & classical conditioning/during, & heart rate & respiration, dog, 5710  
 deprivation in modern society, 8409  
 depth localization, aviation, 12925  
 direction & aftereffect, apparent movement, 6515  
 directional movements & movement reversal, monkey, 1309  
 driving, information on speed of motor vehicle to other drivers, apparatus, 12678  
 elbow & wrist movement, articulatory angular velocity, individual fixed set, CNS control, 3983  
 extent & direction & latency of autokinetic movement, adjacent light placement, 5401  
 eye nystagmus, neck muscles & head movement, 2316  
 facing movements accuracy, blindfolded Ss, 5396  
 finger movements, contour tracing illusion, contextual tactile stimulation, 3759  
 fish schools, internal movements, 8578  
 gamma movement, exposure times, mentally retarded adolescents, 6200  
 geometrical figure movement & peer association, attitude & peer popularity, & home adjustment, children, 4510  
 head rotation, auditory direction judgments, college students, 12939  
 human center of mass/of, mechanical impedance relationship, 9669  
 human movement response on Rorschach & cognitive level & role-taking ability, boys, 10220  
 immobilization induced lymphopenic response & electrical stimulation of medial thalamus, EEG, rabbit, 11468  
 incline behavior, balancing practice, mouse, 6966  
 individual patterns of autokinetic directional dominance consistency, 5400  
 infant, recording apparatus, 4355  
 judgement of movement, 2-dimensional projections, 16119  
 locomotion performance & transfer, arm & foot, right & left limbs, 2372  
 magnetic field, paramedia, 4272  
 masking, static object in peripheral field & moving object in corresponding area of field of other eye, 3782  
 monitoring, radio telemetry, human body, 14490  
 motion aftereffect & direction, 6515  
 motor skill movement patterning, intelligence, age & sex differences, social maturity, mentally & retarded children, 10878  
 muscle articulatory angle, reproduction & tension, 3987  
 muscle regulation of nonmovement, invariant muscle parameters, nervous system adjustment, 2443  
 musculo-articulatory sensitivity, graphic recording apparatus, 3726  
 nonnutritive sucking, age, food deprivation, newborn, 4353  
 observer movement, monocular depth perception 16420, observer movement, monocular depth perception, 12916  
 patterns in development/role of, object & self-image formation, psychoanalytic interpretation, 15455  
 precision, 16183  
 psychotherapy, hand & body movements & altered clinical state, 10527  
 rate, tracking, position & rate displays, 3855  
 remote control maneuvering unit & angular accelerations, Air Force, 3545  
 remote object manipulation, delayed feedback about forces, 9824  
 response speed & choice, spatial discrimination learning, food ration, rat, 11635  
 restlessness & life-sustaining activity, 4 days of sensory deprivation, 16153  
 restraint apparatus, cat, 5301  
 rotating light speed, & matching anchor brightness, 5339  
 rotation, nystagmus habituation interruption, cat, 16373  
 rotation & pivoting perception, visual fixation, 9728  
 rotatory nystagmus, latency time duration, reproducibility, 2315  
 running speed, competition, reinforcement, rat, 5709  
 running speed, S-R temporal relations, frustration effect, generalization, rat, reply, 5724  
 running speed, S-R temporal relations, frustration effect, generalization, rat criticism, 5725  
 runway speed, reward magnitude & percentage, memory, extinction, rat, 7042  
 sensory understimulation treatment, body movements, depersonalization & derealization syndromes, psychiatric patients, 7423  
 sleep, body movement & oxygen consumption rate & pulse rate, 11401  
 sound localization, head movements, 16132  
 sound localization, induced head movements, 16133  
 speed & accuracy, Gibson's Spiral Maze, depressed psychiatric patients, 6098  
 speed & accuracy, industrial retraining, age differences, adult sewing machinists, 7982  
 speed, emotion correlation, judgments, 10442  
 speed, grain weevil, 1270  
 stationary control & maintenance, muscle spindle response, 2452  
 stimulus imagery, & eye movement, 5374

- stimulus/of, CFF, age differences, 20 & 50 yr old men, 16462  
time estimation, movement speed & space traversed, 14508  
tracking, velocity control & proprioceptive cues & display magnification, 9828  
unconscious changes, imposed rate of body movement, 16150  
velocity/object, target arrival estimation, display extent, 12900  
vestibular sense & locomotion, immobile carriage & movable maze apparatus, rat, 2651  
visual field movement & numeric evaluation of field elements, tachistoscope presentation, 3780  
voluntary, inhibition of initially active antagonist of active muscle, EMG, 8445  
voluntary, preparatory & compensatory periods, brain damaged Ss & location of lesions, EMG, 9247  
walking pace/stable, instructional set, 9825
- Movement/Apparent** (see also Autokinetic Effect)  
apparent reversal, rotating rectangular shapes, cues, college students, 6543  
apparent rotary motion reversals, apparent orientation reversals in depth, 12898  
autokinetic effect, moving & stationary lights, factor analytic study, 5329  
autokinetic effect induced by apparent egocentric displacement of visual stimuli, 5340  
autokinetic speed, psychophysical measurement method, 14499  
Autokinetic Word Test, field dependence, reaction time, sex differences, college students, 8247  
behavioral compensation, monocular vision, 9708  
dynamic reversible figure illusion, speed of movement & complexity & light intensity, 3757  
image movement signal units, retina, rabbit, 5625  
incomplete trapezoid in rotation, 112  
induced autokinesis, fixated visual stimulus, 8227  
measurement methods, control of drawing size, control judgments, 9712  
motion perception, apparent location, 6527  
perception of temporal patterns as spatial patterns during apparent movement, 5332  
phi phenomenon & Stanford Binet diamond, perceptual-motor vs perceptual deficit, mental retardates & cerebral palsy patients, 9259  
phi-test vs laterality measures, cerebral dominance, age differences, 3992  
postrotary apparent movements & spiral aftereffects, 16102  
reversals, Ss with cerebral missile wounds, 12356  
simultaneous movements in different directions of 2 shapes along same path, 9732  
subjective change in object location in space, displacement analysis, 1036  
target direction & meaningfulness, 12882  
thresholds/phi, cerebral palsied children, adults, 14105  
transparent 3-dimensional object rotation, perceptual movement illusion, 2290
- Muller-Lyer Illusion** (SEE Illusion)  
**Murder** (SEE Homicide)  
**Muscle** (see also Effort, Electromyography)  
abductor pollicis brevis, EMG of individual motoneurons & learned control of activity of spinal motoneurons, 14819  
acetylcholine, trophic neuromuscular transmitter, chick, 16349  
acoustic stapedius muscle reflex, continuous tone stimulation & reflex fatigue, second tone reactivation, 2507  
action potentials & GSR conditioning, CS-UCS interval, males, 11355  
active phase potential, frog, 4011  
adrenaline & hyperpolarization & decrease in spontaneous activity & excitability of cells, isolated smooth stomach muscle, frog, 13143  
amizyl & diphacyl derivatives, spasmolytic activity & surface activity & molecular weight, rat intestinal segments, 8489  
ammonium formation & elimination, stretching & indirect tetanic stimulation & incubation of homogenates & extracts, frog, 13135  
amyotrophy spinalis progressiva, symptoms & working capacity evaluation, 15621  
arm neuromotor & muscle movement latencies, reaction time, 6632  
arterial hypotonia, aging, 16363  
articular angle reproduction, muscle tension, 3987  
ataxia test, postural equilibrium, 9632  
bee, wing muscle structure, electron microscope & roentgenography, 3991  
bis-ammonium compounds, myorelaxants, curariform & gangliolytic action, cat & rabbit, 4104  
chilling leg muscle, passive movement of limb, potentials evoked, spinal & bulbar frog, decerebrated cat, intact rabbit, 14754  
chin reflexes, development, electromyography, 1 day to 18 yr olds, 2488  
chronic stimulation of sciatic nerve & hormonal regime of organism, weight & water content & metallic ions & RNA & DNA in skeletal muscle, rat & rabbit, 13130  
conditioning of extrasystoles, CNS vs direct myocardial stimulation, dog, 4218  
congenital myopathy, rod-like structures in muscle fibers, case report, 12242  
contractility/glycerinated muscle, adenosine triphosphatase & cholinesterase inhibitors, 13134  
contractile capacity & low intensity ultrasonic waves, frog & rabbit, 13137  
contraction, cholinoreactivity of myofibrillar proteins in act of contraction, 13140  
contraction due to photostimulation, stained tonic & phasic muscle, frog, 13138  
contraction due to photostimulation, end-plate potentials in myoneural region, isolated sartorius muscle, frog, 13131  
contraction/biophysics of, papers read at symposium, Dec. 1964, Moscow, 13133  
convulsive predisposition & unconditioned reflexes, camphor & pyramidon, electric stimulation, rabbit, 8407  
coordinated postural abdominal movement, stimulation of single central neuron, crayfish, 2456  
denervated muscle, electrical activity & relaxing agents, rat, 3989  
depolarization & contraction, fast nontonic & slow tonic mammalian skeletal muscles, 13145  
disability, hypothyroidism, 40 & 63 yr old women, 15748  
dystonia musculorum deformans, clinical manifestations & pathologic anatomy & genetics, 17056  
effort, EEG, stimulus intensity & response conditions, 4076  
effort, subjective scale, 14574  
Einstellung effect, age & training, 16152  
elbow & wrist movement, articular angular velocity, individual fixed set, CNS control, 3983  
electrical activity & movement patterns, motor ability of college women, 2489  
energetic efficiency, articular movement speed, 3982  
enzyme activity, sodium selenite, rabbit, 4123  
excitation of agonist & inhibition of antagonist, latent period magnitude & variability & muscular training, EMG, 9999  
exertion, biphasic cardiac response, avoidance task success & failure, 9949  
exertion, heart rate, induced success & failure, 13294  
extensor monosynaptic reflex, serotonin biphasic action, dihydroergotamine & LSD & gamma-aminobutyric acid, cat, 4131  
external abdominal oblique muscle, extension reflex & respiration, cat, 6809  
extrinsic ocular muscles, extension & labyrinthine reflexes, phasic & tonic systems, cat & rabbit, 6520  
eye nystagmus, neck muscles & head movement, 2316  
fatigue, brain-damaged & non-brain-damaged & undifferentiated mentally retarded boys, 9258  
fluphenazine enanthate/intramuscular injection of, psychiatric patient treatment, 13816  
foot extensor reflex & sole percussion, ontogenetic study, children, 2655  
frog, muscle evoked potential, chlorine & bromine ion solution, depolarizing & hyperpolarizing electrical current, 3995  
frog, muscle permeability, depolarization, 3985  
gamma, gamma, gamma-derivatives of trinitrobutyric acid, antispasmodic properties, rat, 8508

glycolysis, gamma-aminobutyric acid injection to hypothalamus & hyperglycemia, rat, 11514  
 heart rate, work, 16361  
 hereditary essential myoclonus syndrome, 1807  
 Huntington's chorea, contralateral abdominal proprioceptive reflex, differential diagnosis, children, 3262  
 hypothalamic thermoregulation, hypothermia & hypoxia, EEG, rabbit, 6790  
 induced muscular tension, semantic conditioning, anxiety, 14654  
 inhibition of neuromuscular synapse of various skeletal muscles by d-tubocurarine chloride & truxillonium & anatrixonium & cyclobutonium, cat, 13254  
 insulin & potassium conductance of skeletal muscle cell membrane, frog, 10020  
 interocular pressure & arousal & EEG, contraction of orbital smooth muscle of Müller, rabbit, 2504  
 isometric muscle contractions & pain, 1183  
 knee reflex, chronic pain stimulation, dog, 3979  
 length & tension awareness, 14577  
 meprobamate & reduced muscle activity & autonomic responsiveness, anxious patients, 11566  
 methylcholine, small intestine motor activity, dog, 4172  
 middle ear, loudness judgments, 5391  
 model/analog, return inhibition in spinal reflexes, 8117  
 motor unit activation, voluntary & reflex interaction, 9937  
 movement control & muscle regulation, invariant muscle parameters, nervous system adjustment, 2443  
 movement stationary control & maintenance, muscle spindle response, 2452  
 muscle, mechanism of pessimal inhibition of tetanic muscle fiber, 13136  
 muscular & hypnotic relaxation, phobic desensitization, 15400  
 muscular dystrophy, genetics & biochemistry & diagnosis, 9307  
 muscular dystrophy, microelements in blood & spinal fluid & urine, 8473  
 musculo-articular sensitivity, graphic recording apparatus, 3726  
 myasthenia, arterial oscillography & piezography, 8550  
 myasthenia, review of literature, diagnosis & etiology & treatment by prostigmin, 10888  
 myasthenia gravis, 1672 to present, 14132  
 myasthenia gravis, hypernasal voice quality as symptom, case report, 7648  
 myasthenia gravis & psychological & biological stress, 12176  
 myasthenia gravis, psychopathology, case reports, 12238  
 myasthenia gravis, psychopathology, 12105  
 myokinetic test & aggressiveness diagnosis, & juvenile delinquency, 3089  
 myoneural synapse functional formation, stimulation of motor nerve & contraction of gastrocnemius & soleus muscles, prenatal cat, 13155  
 myoneural synapses development & skeletal muscle maturation, curare & neuromuscular transmission & age differences, dog, 14751  
 myosin change & temperature, cholinesterase separation, frog & rabbit muscle, 2470  
 myotonia, neuromuscular transmission & electromyography, 8404  
 myotonic dystrophy diagnosis & working capacity evaluation, 15623  
 Necker Cube illusion reversal & arousal & basal skin conductance & muscle tension & noise, 9727  
 nerve stimulation thresholds, muscle vs cutaneous nerves, cat, 11686  
 paralyzed skeletal musculature, instrumental conditioning, heart rate, curarized rat, 4295  
 polarization level of muscle fiber & refractory period & lability, frog, 6818  
 potentials/& medulla & spinal cord, deafferented respiratory center, frog, 16307  
 proprioceptive reflexes, physiology & theory development, 3590  
 proprioceptors of external ocular muscles, rabbit, 14773  
 pseudohypacusis diagnosis, auditory thresholds & middle ear reflex thresholds, 7673

quadriceps femoris & gastrocnemius & soleus, reciprocal innervation in lumbar osteochondrosis, EMG, 12349  
 radiation & contraction changes, electrical stimulation, frog, 5588  
 radioulnar & elbow joints & common muscles, voluntary vs involuntary movement, EEG & EMG, 9827  
 reading/silent, & speech muscle activity, treatment by auditory feedback from electromyogram, 3367  
 relaxation, anxiety reduction, suggested therapeutic benefit, 6609  
 relaxation, behavior therapy, neurotic fears, inhibition of afferent & efferent feedback, 9000  
 relaxation, foreign language memory, autosuggestion, adolescents, 8352  
 relaxation, reciprocal inhibition, psychotic children, 13960  
 relaxation measurement, small animals, apparatus, 3738  
 replanted limb muscles, phosphorus compounds, dog, 14800  
 retractor penis, lesions of sympathetic vs parasympathetic innervation & subsequent spontaneous activity, dog, 11459  
 rising movements, mechanography & electromyography, human, 3988  
 Sechenov inhibition & tetracyclines, frog, 4106  
 skeletal muscle development & membrane potential, age differences, dog, 14753  
 skeletal muscle tone, depolarization & contraction, electro-mechanical bond, rat, 3997  
 spinal amyotrophy, brain injury origin, case report, 15684  
 spinal reflexes & serotonin, cat, 2526  
 strain & respiratory mechanics in chest & abdominal cavities, 6734  
 strength/static & dynamic, motor ability, 6619  
 stretching of muscles & nerves in limb, muscle & nerve excitability, EMG, 7-24 yr olds, 13132  
 sucking & manual strength, development, 432  
 task endurance, mine-planting, 6314  
 temperature & resistance to alternating current & contractility to electrical stimulation, sartorius, frog, 11483  
 tension, & audition reaction time, 5439  
 tension, arousal, verbal paired associate learning & pursuit rotor & finger dexterity tasks, 6744  
 tension, dreaming, 6583  
 tension & personality, depressives, 13932  
 tension, psychiatric patient, depression & anxiety, electromyography, 302  
 tension, response intent, reaction time, 5442

 eye-hand preference & reading speed & comprehension, 10908  
 familiarity/stimulus, prediction vs confirmation value, foreign words & CVCs, 5513  
 feeding experience, turtle, 8582  
 food & water deprivation, food vs water reward, consum- matory motivation, chicken, 4269  
 food & water preference, hunger, thirst, rat, 5706  
 food deprivation, rat, 5711

food/for, 1st food influence, chick, 13309  
 free-operant preference, continuous reinforcement technique, 12 yr olds, 6485  
 handling vs mechanical removal from E maze, & prior handling, rat, 10077  
 hospitalization/for, age & occupational & educational differences, family background, hospital adjustment, male psychiatric patients, 15444  
 immediate vs variably delayed shock, & warning signal, 151 imprinting, stimulus preferences, duckling, 11604  
 imprinting of preferred objects, goat & duckling, 6957  
 information preference/instrumental & non-instrumental, preparatory-state hypothesis, college students, 14600  
 light, & stimulus change, rat, 1287  
 manipulative preferences, interpersonal orientations, school administrators & counselors & teachers, 7893  
 mixed vs fixed ratio schedule preference, pigeon, 5744  
 movie preference change & interest level, adolescents, 11-18 yr olds, r415  
 music, & familiarity from repeated listening, 7th grade, 3427  
 musical preference, early auditory stimulation, imprinting, rat, 8583  
 narrative rate, retarded boys, 7747  
 number preference, random number series, 5250  
 occupational preference & perception, sex & social class differences, elementary school students, 6305  
 parental preference of young, cichlid fish, 2606  
 partner preference, visual communication, eye contact, pupil dilation, sex differences, college students, 8845  
 patterns/for, & perceptual-cognitive development, infants, 11692  
 pay & time-off benefits, worker preference, age & sex differences & marital status, job satisfaction, 14285  
 perceptual preference conditioning, children, 10251  
 personal preferences, values, activities, age differences, pre-retired & retired professional engineers, 16675  
 poetry/for, & verbal complexity, 5924  
 position habit & fluid preference-aversion tests, 360  
 position preference, short term memory, inhibition, retarded children, 15738  
 preference/equity vs equality, bargaining, expectations, friend & nonfriend boy classmates, 10387  
 psychological disorder treatment, age & personality of doctor, 7383  
 psychotherapeutic procedures, therapist constructs & beliefs, 10559  
 rat, grid box, similarity to home cage & fear of novel stimuli, 4271  
 reading preferences, sex differences, adolescents, 5829  
 reinforcement, light vs dark panel, prior auditory environment, mouse, 8662  
 reinforcement/for, probability learning, monkey, 16404  
 reinforcing stimuli identification, Reinforcement Survey Schedule, therapy & training & research applications, 14436  
 response rate & sucrose preference, rat, 408  
 reward & punishment/immediate & delayed, certainty & vividness & pleasantness, 6718  
 saccharin & sucrose intake/24 hr vs 30 min, rat, 14935  
 safe box vs neutral box following escape conditioning, rat, 13362  
 salt & sweet solutions/for, rat, 6949  
 sex of child preferences & parental rationalization, statistical evidence, 15174  
 sex role preferences, It Scale for Children, preschool children, 13615  
 sign-to-object generalization, evaluatively conditioned non-sense syllables paired with block patterns & pattern preference, 9857  
 skill vs chance tasks in ambiguous situations & Internal-External Scale, 13641  
 social role, role differentiation, art style preferences, 504  
 sodium chloride preference, palatability, bodily need, adrenalectomized & sham-operated rats, 10074  
 spatial or visual, water maze & subsequent spatial & visual learning, mouse, 8596  
 species differences, approach-behavior, developmental environment, cat, rat, guppy, chicken, 2588

stereophonic vs monophonic music preference, operant conditioning, 8319  
 stimulus preference, frustration, reaction time, nonreward predictability, children, 11715  
 stimulus preference, pre-weaning & post-weaning social isolation, rat, 8656  
 sugar, methodology, rat & mouse, 1389  
 sugar & sugar-saccharin, modification, electric shock to mouth, rat, 5715  
 sugar/for, water deprivation & laboratory living, kangaroo rat, 13392  
 supportive vs discrepant information/for, attitude intensity, personality, situation, 16649  
 sweet solution preference, sex differences, Charles River rat strain, 14907  
 tactile, rough vs smooth surface & right vs left position of lever, rat, 8594  
 task, experimenter influence susceptibility, socioeconomic status, & consistent nurturance, & nurturance withdrawal, & unresponsive attention, children, 4369  
 taste preference & learning, rat, criticism, 428  
 taste preference & learning, rat, reply, 431  
 taste preference & learning, rat, criticism, 429  
 taste preference/glucose & saccharin, sex differences, rat, 10093  
 taste preferences, olfactory cues, hypogeusia, rat, 8665  
 taste/for, motivation & hypothalamic hyperphagia, rat, 13332  
 teacher types, student needs & preferences, 5040  
 twins/esthetic judgments by, 7079  
 visual, for symmetry & rejection of complexity, shapes, 11238  
 visual patterns/for, chick, 13317  
 visual preference behavior, object complexity & shape & size, child & rat & chick, 9694  
 warned shock, information in signal & preparation, 6596  
 water vs saline preference in T maze, reinforcement value, thirsty rat, 4319  
 water-saline preference, T-maze, prior drinking experience, rat, 4263  
 wheel-running preferences, mouse, 11610  
 T-maze/black & white, choice following extra-maze exposure to black vs white stimuli, rat, 8612

**Pregnancy**

abortion, psychodynamic effects, 13737  
 abortion/therapeutic, improved or unchanged psychiatric status, 8953  
 adjustment & field dependence & repression-sensitization, unweaned females, 591  
 adolescents/married, factors, 14-19 yr old girls, 8736  
 body temperature of mother during pregnancy/lowered, child development evaluation, case report, 15596  
 children of women denied psychiatric therapeutic abortion, mental health, adjustment, educational level, 13710  
 complications, childhood schizophrenia, 9164  
 complications of mother, schizophrenic patient's neonatal abnormality, 6113  
 DDT & Parathion insecticide doses in pregnant mouse, offspring audiogenic seizures & DDT & Parathion doses, CNS development, 14839  
 emotional disturbance, pregnancy & birth, social psychological characteristics of women, 9138  
 endocrine control, implantation & decidual response, 2557  
 epileptic attack increase, metabolism & hormonal balance & cortical neurodynamics, 7725  
 estrous cycle, & pseudopregnancy, & activity, hamster, 2640  
 father's personality, wife in 1st pregnancy, 9212  
 illegitimate, background & attitudes & sexual behavior & mother, adolescents, 8730  
 illegitimately pregnant & school problem adolescent white females, perceptions of mothers & fathers, 11760  
 labor pains & delivery, psychosomatic medicine, 3156  
 LSD in early pregnancy & abnormalities in offspring, rat, 13219  
 maternal injection procedures & postnatal weight & behavior changes, rat, 6976  
 menarche age & marriage age, 16259  
 motivation, & emotional disturbance, psychoanalysis, 9147

- Negro & white pregnant women, personality scales & internal consistency criteria, 16710  
 obstetric complications, behavior disorders etiology, elementary school children, 13888  
 parent discussion program, unwed expectant adolescents, 3358  
 parity & post-partum mental disorder & gynecological symptoms, 15346  
 pregnancy envy in male, psychoanalytic interpretation, 3059  
 preparation for birth/educational & exercising, 6155  
 psychosomatic sterility, unconscious resistance to pregnancy, psychotherapy & hypnotherapy, 3158  
 season of conception, mental retardation, sex differences, paternal educational level, Negro, white, Mexican-American, 5859  
 & self licking, rat, 10176  
 sexual guilt & self-punishment, psychoanalytic interpretation, 16809  
 single women, stress & self-attribution of hostility among ego control patterns, 16685  
 sodium salicylate, teratogenesis, chlorpromazine antagonism, rat, 13229  
 stress/prenatal maternal, physical stress vs adrenalin, genotypes, pup activity, 6928  
 symptoms/31, self-rating daily during pregnancy, 8899  
 teratogenic effect of vitamin A potentiated by cold temperature, hamster, 6929  
 tissue culture from human embryonic brain, healthy vs schizophrenic women, 7693  
 ultraorthodox Geula in Jerusalem, & courtship & marriage, 498  
 unplanned pregnancy, postpartum mental disorder, 15354  
 unwanted, change in mores concerning sexual behavior, parental & school attitudes & values, 13511  
 & unwed high school girls, New York medical center program, 16998  
 unwed mothers, emotional disturbances & psychotherapy, 2962  
 vascular diseases of brain & pregnancy, symptoms & therapies, 7695  
 women with psychic insufficiencies relating to childbearing, 13209
- Prejudice** (see also Attitude)  
 anti-Negro & anti-Jew attitude, similarities & changes, 15171  
 anti-Semitism, estimation of percentage of Jews in US population, 15178  
 anti-Semitism, history & trends, US, 15092  
 anti-Semitism, public opinion poll, 15176  
 anti-Semitism pre-World War II, polls of non-Jews, 15179

 Organizational Climate Description Questionnaire, school climate & teacher self concept, 7899  
 pain theory, psychiatric patients, 5204  
 Parent-Child Relations Questionnaire revision, Roe's occupational choice theory, adolescent girls, 7152  
 personality, validity, 14444  
 phrase construction & differential responding, paper-pencil questionnaires, 8141  
 post-traumatic syndrome, nature & causes & treatment, neurosurgeons, 7706  
 questionnaire/self-administered, role expectations & perceptions of social worker, physicians & hospital social workers, 14057  
 research methodology, Soviet Social System, & respondent evaluation, 4435  
 schizophrenia, Hoffer-Osmond Diagnostic Questionnaire, & Mauve spot test, 6119  
 self-report validity, interview, personal data blank, 4860  
 sentence building test, & personality questionnaire, response consistency, 7319  
 student attitudes, factor analysis, 7th grade, 15810  
 study habits of industrious students, Hundal's intelligence test, India, 7783  
 survey of authors, group counseling & procedures, 1419u  
 Test Anxiety Questionnaire, worry & emotionality & performance expectancy on college examination, 13649  
 training questionnaire, negative attitude conditioning to unfamiliar information items, 8313  
 treatment attitudes questionnaire, nontherapeutic & therapeutic hospital doctors, 6039  
 validity/mailed questionnaire, labor turnover analysis, 3676  
 working class identification by clerical & sales workers, craftsmen & operatives, reply, 4450

## Rabbit

2,3-dioxybenzoic acid, central & autonomic nervous system, 4143

- 2-substituted tryptamines, pharmacological properties, 14846  
 acquisition of association, 2 stimuli at various intervals in random order, & humans, 11333  
 activity onset & cessation, sunset & sunrise, 2598  
 adaptive nesting behavior, 5704  
 adrenolytic properties of various compound ethers vs derivatives of phenylpropionic acid, cat, 6848  
 alcohol-induced EEG depression, stimulants, 8504  
 alkaloid eburnamonine, CNS stimulant, 4202  
 analyzer compensation-substitution after visual de-reception, 14759  
 animal hypnosis as experimental model, heart rate conditioning, light preference, interest, activity, memory, 8572  
 atropine & chlorpromazine & serotonin & sodium thiopental, EEG changes, 4187  
 avoidance & orientation reflex, movement & respiration & heart rate, age differences, & infant, 7084  
 avoidance conditioning, limited classical trials & unavoidable shock & acquisition & maintenance of extinction, 7027  
 axon, amoeboid movements in autonomic & CNS & spinal cord, 13152  
 benzonol & benzamyl, CNS activity, 4170  
 bis-ammonium compounds, myorelaxants, curariform & gangliolytic action, cat & rabbit, 4104  
 bis-quaternary compounds, curareform activity, 4121  
 blood coagulation, hypothalamic cholinergic substrate, 14889  
 brain acetylcholine & cholinesterase, novocaine & mesocaine & vofacaine & dicaine, 4160  
 brain carbohydrate-phosphorus metabolism, body injury & shock, 14847  
 brain lesions, discrimination learning, 8422  
 brain mitochondria, gamma-aminobutyric acid & oxidative phosphorylation, 11507  
 brain stimulation, operant conditioning, & rat, 6804  
 bufotenin effects, rat, pigeon, cat, humans, 14852  
 cerebral cortex neurons, electrical activity patterns, 4012  
 chilling leg muscle, passive movement of limb, potentials evoked, 14754  
 chlordiazepoxide & eosinopenia due to shock & cortisone & ACTH, 11547  
 chlorpromazine, distribution in brain & internal organs, 11556  
 chlorpromazine & scopolamine, EEG, chain conditioned reflexes, 5651  
 classical conditioning & reinforcing brain stimulation, 389  
 classical conditioning of jaw movement & appetite, 1304  
 classical discrimination conditioning, heart & respiration rates, interstimulus interval, 16413  
 classical discrimination conditioning, magnesium pemoline, heart rate, 14875  
 CNS impulse summation, pain stimulation, sodium 4-oxybutyrate inhibition, 4136  
 conditioned defense reflex, & reaction to food, 6955  
 conditioned eye-blink, CS-UCS interval shift, response latency & frequency, 7000  
 conditioned reflex activity, mexamine & serotonin, 4108  
 conditioned reflex duration & latent period, rat & human, 5691  
 conditioned reflex/alimentary motor, electrical stimulation of hypothalamus, reserpine & dioxypheylalanine, EEG, 14959  
 conditioned reflexes to time, gradual alteration of reflexes with lesser to greater time intervals, 10122  
 conditioned response to E, respiration & heart rate, 4248  
 conditioned swallowing reflex, motor cortex excitation locus, strychnine cortex stimulation, EEG & electromyograph, 5565  
 conditioning/classical eyelid, single alternation reinforcement, 16409  
 conditioning/delay & trace, interstimulus interval, acquisition & resistance to extinction, nictitating membrane, 5730  
 conditioning/differential eyelid classical, 2 tones, 16407  
 coronary thrombosis & acute neurogenic action, rabbit with experimental atherosclerosis, 14895  
 cortical neuron electrical activity, sodium thiopental narcosis, proserine & serotonin & adrenaline & noradrenaline, 4139  
 cortical spreading depression, localization of function, operant behavior impairment, 299  
 cyclobutonium, nondepolarizing myorelaxant, cat & rabbit, 6852  
 cysteamine & derivatives, reflex time & motor activity & endurance, mouse, 8488  
 delay vs trace conditioning, nictitating membrane, interstimulus interval, 1303  
 dicaine anesthetic, histamine & acetylcholine, 4145  
 ear/outer, cold & warm water irrigation & lateral vestibular nucleus & cerebellum nerve cell changes, 2449  
 EEG & amphetamine & eserine, & dog, 327  
 EEG, olfactory bulb respiratory responses, barbiturates & chlorpromazine & amphetamine sulfate & LSD-25, 6886  
 EEG, subcortex & cortex, conditioning, 6830  
 EEG theta rhythm, coagulation of septum & extirpation of reticular formation area, medial thalamus & visual cortex inhibition, 10015  
 electrocorticogram structure, 5583  
 epinephrine & vasopressin & progesterone, EEG & background diencephalic activity, urethane or ether anesthesia, 13287  
 estocin & tranquilizer combination, pain threshold & conditioned reflex, 4179  
 estrogens/conjugated, & EEG, & cat, 2546  
 excitability of cerebral cortex, serotonin & mexamine, 16289  
 excitation & EEG & behavioral reactions, 2496  
 extrinsic ocular muscles, extension & labyrinthine reflexes, phasic & tonic systems, cat, 6520  
 eye opening/before & after postnatal, morphocytochemical features of visual cortex & retina, 13216  
 Flaxedil & saline, heart rate conditioning, 13284  
 food & water intake, intrahypothalamic injections of carbachol, 9987  
 gamma-aminobutyric acid & DNA metabolism & free nucleotide content, brain, 11517  
 gamma-aminobutyric acid injection & glucose metabolism in brain mitochondria, 11534  
 ganglionic, circulatory & respiratory receptor reflexes, cat & rabbit, 6857  
 glaucine chloral hydrate, cardiovascular system, autonomic nervous system, 4105  
 gutimine, brain electrical activity & conditioned reflex, 4142  
 heart rate & classical conditioning, 390  
 heart rate & cowering response, 4219  
 heart structure & function, peripheral nerve stimulation, 5662  
 Hebb-Williams Elevated Pathway Test & Closed Field Test, cat & rat, 11588  
 hematoencephalic barrier & capillary permeability, reserpine, & rat, 16336  
 hematoencephalic barrier & capillary permeability, chlorpromazine & sodium amytal, rabbit & rat, 16337  
 hematoencephalic barrier & capillary permeability, rabbit & rat, 16336  
 hematoencephalic barrier & capillary permeability & sodium amytal, & rat, 16337  
 hemato-labyrinthine barrier permeability & stimulation of auditory analyzer, 11496  
 hippocampal electrical activity, peripheral stimulation, 4063  
 hippocampal stimulation & heart rate, cat, 6792  
 hippocampus, spontaneous electrical activity, stimulation of & evoked potentials in hippocampus & neocortex, 13198  
 hydrazine & isonicotinic acid hydrazide, distribution in organism, rat, 8503  
 hynderine, catecholamine metabolism, 4111  
 hypothalamic electrical stimulation, posterior nucleus, antibody formation, 6797  
 hypothalamic lesions/medial & lateral, glucose injections & food intake, 9958  
 hypothalamic structure removal & anaphylactic shock development, rabbit, 14795  
 hypothalamic thermoregulation & hypothermia & hypoxia, EEG, 6790  
 hypothalamus electrical stimulation, blood serotonin, 16300

hypothalamus/extirpation of lateral, conditioned food-procuring & alimentary & orienting & defensive reflexes, electrical activity, rabbit, 10121  
 imipramine & paradoxical sleep, EEG & EMG, dreaming & enuresis, 2544  
 immunological tolerance to antigens of homologous peripheral nerves & reduced ability to develop allergic polyneuritis, 11538  
 inhibition of postsynaptic components of responses to flashes of light, depression by acoustic stimulation, 9952  
 injection of homologous nervous tissue & peripheral nervous system demyelination & inflammation, rabbit, 11436  
 interoceptive signalization, ontogenesis, 14774  
 interocular pressure & arousal & EEG, contraction of orbital smooth muscle of Müller, 2504  
 lesions of frontal cortex & extinction, increase in emotional reactivity & food-directed activity, 11438  
 lesions/striate, depth perception, 13182  
 lymphopenic response due to immobilization, & electrical stimulation of medial thalamus, EEG, rabbit, 11468  
 maternal behavior, experimental environment & social experience, 16447  
 Mogadon, EEG & respiration & heart rate, carotid & vertebral injection, 13285  
 morphine & electrical activity of brain under chronic pain, 13235  
 muscle contractile capacity & low intensity ultrasonic waves, 13137  
 muscle weight & water & metallic ions & RNA & DNA content, chronic stimulation of sciatic nerve & hormonal regime of organism, 13130  
 muscle-tissue enzyme activity, sodium selenite, 4123  
 muscular convulsive predisposition & unconditioned reflexes, camphor & pyramidol, electric stimulation, 8407  
 myelinated fibers of great auricular nerve from skin of ear, dissection & microelectrode recording, 13148  
 N-acetyl-L-asparaginic acid in acetylation of D-glucosamine in brain, 11516  
 natural immunity reactions & hypothalamus, 8418  
 nervous trunk morphology/cervical sympathetic, 16273  
 nest building & fetus & estrogen & progesterone levels, 8574  
 neuron discharges from thalamus, & biological time count, 2451  
 neuron evoked potentials, cortical motor area, 5589  
 novocaine, brain electrical activity, limbic system activity, 4167  
 nystagmus/central & side, & side position of head, 2649  
 nystagmus/fast component of, ampullar apparatus of horizontal semicircular canal, 6554  
 odor stimuli, olfactory-trigeminal response, 2519  
 optic system/accessory, vertical movement perception, 4101  
 oxyline modification of neurotropic agents, conditioned reflexes & EEG, 4196  
 pemoline & magnesium hydroxide, conditioned photic evoked response, 14869  
 peripheral adrenoreactive system, beta-aminopropiophenones & adrenaline simulation, 4154  
 phenacemide & phenoxycetylurea, anticonvulsant, 4191  
 phenamine & adrenolytic aminasine, EEG, conditioned reflex, 4133  
 phenoxyacetate 1-ethyl-1-phenyl-3-dimethylaminopropanol hydrochloride, local anesthetic action decreased by blood serum cholinesterase, guinea pig, 8516  
 physostigmine & phenmetrazine, chlorpromazine & reserpine & imipramine, 6871  
 pituitary induction of prolonged hypertension, 12 months, rabbit, 6915  
 promedol & metazyl & haloperidol & chlorpromazine, singly & in combination, analgesic effects on shock, 13253  
 proprioceptors of external ocular muscles, 14773  
 propylamine derivatives, hypotensive action, 13230  
 pyridoxyphen, CNS, 4159  
 quateron doses, uterine motricity & induced birth activity, 8478  
 radiation/ionizing, potentiation of biological activity of hypothalamus extracts, 13161  
 red blood cell aggregation/dextran induced, 4214

reserpine & chlorpromazine, cold stress, rat adrenal ascorbic acid, & rabbit blood glucose & serum cholesterol & sodium, 5630  
 reserpine, laxative effect, 13276  
 reticular formation chemical sensitivity, cholinergic & adrenergic systems, 6740  
 reticular formation excitation locus, strychnine, 4041  
 retina, image movement signal units, 5625  
 salivary gland, constant polarization potential & sorptional properties, lingual & sympathetic nerve section & stimulation, 14755  
 schizophrenic blood serum injections, brain & internal organ changes, chronic vs acute vs healthy donors, 7600  
 scrophularia, neurotropic action, 4182  
 semicarbazine & hydroxylamine & phosphorous thirty-two, brain nucleic acids, rabbit, 11518  
 sensorimotor cortex evoked potentials, physiological structure development, 4043  
 sexual behavior, temporal patterns, 8658  
 stereotaxic apparatus, 5312  
 supra-threshold phenomena, middle ear muscle activity, 1384  
 thiopental narcosis, EEG changes, reticular formation electrical stimulation, neurotropic agents, 4188  
 trioxazine, conditioned reflex & pain threshold, 4190  
 vagus nerve electrical activity, stomach sarcoma, 17055  
 vision, corticothalamic connections, electrical stimulation of visual cortex & summated spike response duration in lateral geniculate body, 9992  
 visual cortex, evoked potentials, recovery cycle & thalamic level, 4051  
 visual cortex evoked potential, light stimulation, 4062  
 visual cortex evoked potential, neuron recovery cycle, light stimulation, 4009  
 visual cortex neuronal activity modification by sound & by electrical stimulation of midbrain reticular formation & paw, 11433  
 visual cortex neurons, spontaneous activity & reactions to photic & acoustic stimuli, 5-17 days old, 9943  
 weightlessness & gravitational strain, EEG, & cat, 16312  
 Race (SEE Ethnology)

## Radiation

5-methoxytryptamine & betamercaptoethylamine, nervous component of antiradiation properties, 13279  
 acute radiation mortality, catecholamine in organs, guinea pig, 14914  
 antiradiation agents & pain threshold, rat, 4147  
 antiradiation agents, survey of Soviet & foreign research, USSR, 8534  
 apparatus, high speed X-ray television fluoroscope for biodynamic research, 11213  
 aversive conditioning, dose & dose rate & duration, rat, 7031  
 biological activity potentiation by ionizing radiation, hypothalamus extracts, rat & rabbit, 13161  
 brain tissue permeability for radioactive phosphorus, neurotherapeutic drugs, rat, 8536  
 cognition, preoperative children, 5804  
 cystamine & mexamine, antiradiation & nervous system division, mouse, 4201  
 embryonic X-irradiation, approach & following response, chick, 14917  
 embryonic x-irradiation, early behavior, domestic chick, 11603  
 gamma radiation & task performance, monkey, 2576  
 gammaencephalography, brain tumor diagnosis & location, 3217  
 hypothalamic nuclei & corticosterone in adrenal venous blood, X-irradiated rat, 8466  
 induced aversive conditioning, olfactory bulb removal, rat, 14963  
 lesion/localization of, radioactive isotopes, aphasia, 17022  
 lick rate & gamma irradiation, rat, 352  
 mongolism & psychological & clinical comparison, trisomic & translocation Down's syndrome, 14120  
 muscle contraction & electrical stimulation, frog, 5588  
 oxyptertine circulation & locations of accumulation & duration of activity, placental barrier, mouse & cat, radioautographic study, 8464

paternal irradiation, early experience, avoidance learning, open field behavior, weight gain, pig, 11601  
 physical activity & resistance to radiation-induced changes, rat, 1185  
 radioactive iodine diagnosis, thyrotoxicosis, schizophrenia, 16908  
 radioactive phosphorous & glucose, hematoencephalic barrier permeability & phagocytic activity of leucocytes, cat-atonic & paranoid schizophrenics, 16946  
 radiopaque markers for orally ingestible toxic drugs to aid in coma diagnosis & treatment, 11967  
 radiotherapy & brain tumors, tolerance & functional importance of area, 7700  
 rat, sucrose aversion, classical conditioning, Premack's theory, rat, 14906  
 roentgenographic study of gall bladder filling & type of food digested, dog, 6844  
 roentgenotherapy for histohematic permeability disturbances in Ss with diencephalic pathology, 14103  
 sickness, motor function of gall bladder, monkey & dog, 16260  
 skeletal muscle electrical & mechanical behavior, X-irradiation, frog, 8558  
 solar radiation area, body posture, 16269  
 UHF radiation exposure, auditory threshold, 14536  
 X-irradiation, conditioned noise aversion, monkey, 10130  
 X-irradiation & Proferin, saccharin aversion, rat, 10080  
 X-irradiation, saccharin avoidance & food consumption, rat, 10081  
 X-ray, diagnosis & treatment, meningiomas, 14138  
 X-ray therapy, diencephalic lesions, 14088  
 X-rays on neonatal brain, discrimination learning, rat, 16387  
 X-rays/avoidance conditioning with, saccharin flavored water, rat, 16411

**Radio** (SEE Communication/Mass)

**Ranking**  
 case factor ranking analysis, experienced vs inexperienced rehabilitation counselors, 10793  
 & choice, probabilistic models, 2223  
 rank biserial correlation, 974

**Rat** (see also next headings)  
 1-way locomotor avoidance without handling apparatus, 11196  
 2nd order aversive classical conditioning, 10117  
 2-substituted tryptamines, pharmacological properties, 14846  
 acetylcholinesterase, behavioral & environmental changes, 10025  
 acetylcholinesterase reduction, problem solving, 16348  
 acquired fear extinction, intertrial interval length & regularity, 2632  
 adrenal cortical 24 hr rhythm, & emotionality, albino & hooded rat, 6906  
 adrenal cortical activity, heat, 14899  
 adrenalectomized & sham-operated rats, sodium chloride preference, palatability, bodily need, 10074  
 adrenocortical steroids at weaning, handling in infancy, 8547  
 ageusia/partial, & water intake, 2521  
 aging, submandibular gland, 10076  
 air drinking & age & ingestive experience, thirsty rat, 8643  
 alcohol consumption, alcohol associated with shock avoidance vs no reinforcer vs food producing operant, 13308  
 alcohol tolerance, 5632  
 amnesia/retrograde, electroconvulsive shock, 10088  
 apparatus adaptation, preconditioning, competing exploration, 10124  
 approach & avoidance training drive, conflict behavior, 6981  
 asparaginic acid, oxidation by brain mitochondria, 8480  
 audiogenic seizure & thiosemicarbazide, 328  
 auditory sensitivity, cochlear potential method, 7068  
 auditory sensitivity development, 1375  
 auditory stimuli/intense, chronic vs acute stress, hypothalamus & reticular formation changes, 6931  
 auditory stress, behavior & physiology, 6932  
 aversive conditioning, radiation dose & dose rate & duration, 7031  
 behavior, African giant rat, 13311  
 behavior fixation, approach-avoidance conflict, 11618

behavior suppression & electrical intracranial stimulation, 1209  
 brain & liver & heart monoaminoxidase, tricyclic dyes & deamidization, 4135  
 brain, pyruvate & alpha-keto-glutarate & gamma-aminobutyrate levels & exploratory activity, 10019  
 brain 5-hydroxytryptamine, & anterior-pituitary-adrenocortical system, stress, 6909  
 brain amines, early cold stress & handling serotonin & norepinephrine & dopamine, 5700  
 brain damage, adrenaline & noradrenaline & dopamine & dopa in blood & tissues, 14845  
 brain electrical stimulation, tumor growth resistance, 8443  
 brain electrical stimulation & neutral proteinase activity, 2484  
 brain electrical stimulation & RNA modification, 2483  
 brain mitochondria, oxidative phosphorylation & structural impairment, audiogenic seizure, 2481  
 brain self-stimulation, electrode placement, & squirrel, 16301  
 brain self-stimulation/electrical, & diurnal activity cycles, 16298  
 brain spreading depression/sham vs unilateral vs bilateral, sensitivity to shock, 9988  
 brain stimulation, operant conditioning, & rabbit, 6804  
 brain stimulation/electrical, secondary reinforcement, 6794  
 brain stimulation/electrical, sexual motivation & reward, 6793  
 brain stimulation/electrical, serotonin release, 8435  
 brain stimulation/electrical, brain & organ development, 8442  
 brain stimulation/electrical, methamphetamine-induced psychoses, 14815  
 brain stimulation/forced & subsequent self, shock, 13194  
 brain tissue respiration & glucose metabolism, gamma-aminobutyric acid, 11512  
 brightness discrimination, & alcohol, 6893  
 bufotenin effects, rabbit, pigeon, cat, humans, 14852  
 carbachol application to hypothalamus, water intake, 16291  
 cardiac & respiratory CR, & amount of light, 2619  
 cardio preamplifier, free-roving rat, 5308  
 cardiograph, short term heart rate change, 1025  
 castration, adult sexual behavior, 16388  
 cerebral cortex capillary structure, electron microscopic study, 8412  
 cerebral cortex Purkinje cell inclusions, 14775  
 chew through cardboard barrier, motivation, 16397  
 choice behavior, alternative strength & reinforcement & speed of response, 13315  
 cholinesterase reduction, fixed-ratio lever pressing, 4126  
 citrulline synthesis in brain & binding of free ammonium, 11510  
 classical conditioning, heart rate deceleration, & reinforcement schedule, 1298  
 classical conditioning, heart rate & GSR, & pseudoconditioning, 5723  
 closed field test/Hebb-Williams, & opossum & cat, 6963  
 conditioned avoidance learning & memory, pemoline & magnesium hydroxide vs pemoline, 5647  
 conditioning, EEG, visual cortex, 6812  
 conditioning, saccharin water drinking, thiamine reinforcement, vitamin deprived rat, 5722  
 cortex, gamma-aminobutyric acid & citric acid content, 11513  
 cortical steady-potential shifts during conditioning, cat, 10002  
 defecation & heart rate & genetic differences, 1285  
 denervated muscle, electrical activity & relaxing agents, 3989  
 desoxycorticosterone acetate, startle response, 4138  
 differential conditioning & electrical stimulation of septum & hippocampus, 296  
 dominance, paired comparison orders & reliability, 1372  
 dopamine & glucose & oxygen uptake in brain, 11522  
 drinking preferences, homeostatic & hedonic factors, adrenalectomized rat, 2578  
 early experience & adult behavior, litter size & infancy noise level, 1275  
 early experience, handling vs background stimulation, weight & activity, 4256

- early experience, later physiological & behavior responses to stress, 1277
- early handling & body heat loss & adult emotionality, 5699
- early handling & corticosterone level in blood, 10097
- early handling & emotionality & social dominance, 371
- early stimulation amount & spacing, & emotionality, 1276
- eating behavior, nonnutritive bulk, 16371
- ECS/single, during extinction, 4337
- electric shock & high intensity sound as psychological stress, dental caries, 13333
- electrical self stimulation, sensory inhibition, 14818
- electrical stimulation of cervical sympathetic chain & depletion of noradrenaline in salivary gland, 2453
- electrical stimulation of parafascicularis thalamic nucleus, acquisition of conditioned avoidance, 9989
- electrocoagulation, hypothalamus, 16358
- electroconvulsive shock, histamine & serotonin & epinephrine & norepinephrine in brain, 8438
- electrode attachment technique, 3729
- electrode/recording-stimulating, chronically indwelling, implanting method, unrestrained rat, 6481
- electrodes/implanted cranial, method to reduce dislodgement, 9644
- electroshock, prolonged treatment, capillary response to histamine, 13241
- electroshock/chronic, brain weight & chemistry & behavior changes, 6816
- EMG of voluntary movement, electrode implantation method, 14477
- emotional reactivity & gastric erosion susceptibility, 14931
- emotionality, conditions during infancy & septal lesion, 4262
- emotionality, open field test, noise & bright light stimuli, 4268
- emotionality in novel environment, heart rate, defecation, 13290
- environment/new, conditioned avoidance extinction, 16442
- environment/rich vs isolated, transitory cerebral changes, 13326
- epinephrine & vasopressin & progesterone, EEG & background diencephalic activity, urethane or ether anesthesia, 13287
- estrogen/hypothalamically implanted, maternal behavior, 10051
- estrous activity & daily motor activity, 15005
- estrous cycle & reticular formation damage & thyroid deficiency, 13176
- ethanolamine & hypothalamo-neurohypophyseal system, 11505
- experience/amount of free environmental, & age, subsequent spatial relations performance, 6975
- experience/early, & behavior & physiology, 2581
- experience/early, handling & shock, emotionality & sensory discrimination
- experimental variables & pentobarbital induced sleep, 1260
- experimentation, expectancy of E & rat's performance, 8180
- exploratory behavior & age, 6953
- exploratory behavior & blindness, 10181
- exploratory behavior, stimuli complexity, 14936
- extinction & punishment persistence, percentage of punishment & reward in training, 11666
- extinction of approach behavior, approach-avoidance conflict, 10167
- extinction of runway response following partial reinforcement, 14995
- extinction resistance, & complex situation exposure, 1354
- extinction resistance, & tube alley width, 1358
- extinction resistance, discriminative training level, irrelevant cue, 8649
- extinction resistance, escape & avoidance training, punishment, 14989
- extinction resistance, training with interspersed shock, 16438, Akhtar, Mohammad
- extinction resistance to avoidance running, punishment intensity, self-punitive behavior, 14988
- extinction/salivary CR, food deprivation & reinforcement, & reticular formation, 4336
- eye opening/before & after postnatal, morphocytochemical features of visual cortex & retina, 13216
- fear incubation, avoidance learning, 6984
- fluid preference-aversion tests & position habit, 360
- food intake, electrical brain stimulation & body weight, 6798
- food poisoning test, Cytoxan, avoidance response, gustatory discrimination learning, 8609
- food-based timing behavior, interresponse time punishment, 11658
- frustration, reward rate reduction, differential magnitude of reward discrimination, 4273
- frustration perseveration & summation, nonreward, 4267
- frustration/reinforcement, & resistance to extinction, 5740
- frustration/temporal persistence of, monkey & rat, 1283
- gamma-aminobutyric acid, oxidation by brain mitochondria & oxidative phosphorylation, 8467
- gamma-aminobutyric acid in transformations of glutamic acid & asparaginic acid & alanine in ammonium neutralization, cortex, 11519
- grippe & antigrippe immunity, experimental neuroses & nervous system typology, & mouse & chicken, 2445
- handling during infancy & tactual variation seeking in adulthood, 6973
- handling vs mechanical removal from E maze, preference, & prior handling, 10077
- heart rate conditioning, interstimulus interval, 11626
- Hebb-Williams Elevated Pathway Test & Closed Field Test, cat & rabbit, 11588
- hippocampal activity, EEG electrode implanting & recording method, 5608
- hippocampal rhythm, avoidance training, 6833
- hoarding & lateral hypothalamus electrical stimulation, 4048
- homoveratrylamine & histamine, catatonia, 6890
- hungers/specific, aversion for thiamine deficient diet, 16370
- hydrocortisone, excited thyroid secretion, 16357
- hypertension by adrenal regeneration, age differences, 11569
- hyperthyroid vs hypothyroid, shock & activity & defecation, 11530
- hypothalamic electrical stimulation/posterior, copulation & feeding behavior, male rat, 13191
- illusion/Oppel-Kundt, 14910
- immunosympathectomy, & heart rate & conditioned emotional response & defecation, 1190

overlearning reversal effect, running speed & reinforcement, 10154  
overlearning reversal effect, reward, discrimination task, training procedure, distinctiveness, 7013  
partial reinforcement & transfer to each of 2 vs 7 relevant cues, 4331  
pattern, learning set formation, brain stimulation reinforcement, 1312  
patterns/alternating & Gellermann & extended, partial vs continuous reinforcement, resistance to extinction, 8644  
prior electroshock & lever pressing, hunger & visual discrimination performance, 6985  
proactive inhibition after partial reversal, 16423  
proactive interference, 4301  
rats as discriminative stimuli, free operant procedure, 1310  
receiver operating characteristics, response latency, 1377  
response rate, alternating high & low frequency of reinforcement each with particular stimulus, 10148  
response-produced stimuli, reinforcement schedule, 13352  
retention & acquisition of monocular discrimination, relevant or irrelevant opposite-eye training, 14942  
reversal & nonreversal, continuously reinforced free operant, overtraining, 8614  
reversal, overtraining & goal approach strategies, 14966  
reversal & overtraining & irrelevant dimensions & reward magnitude, 10136

- reversal, overtraining & transfer, 10140  
 reversal learning, intertrial reinforcement & nonreinforcement, 5733  
 secondary reinforcement & retardation on subsequent discrimination learning, 7043  
 septal lesions & overtraining, discrimination learning, 8426  
 spatial discrimination learning, response choice & speed, food ration, 11635  
 spreading depression, performance, secondary cues, brain stimulation, 1213  
 stereotyped lever pressing, fixation conflict, 1341  
 tactile, preference for rough vs smooth surface & right vs left position of lever, 8594  
 taste, water vs quinine, role of thalamic gustatory area, cortical spreading depression, 11494  
 tone discrimination, stimulus intensity & response strength, 10132  
 visual & kinesthetic retention after bilateral lesions of pre-tectal-diencephalic & ventral mesencephalic areas, 9981  
 visual cues, stimulus additivity & dominance, 13354  
 visual discrimination choice, overlearning reversal effect, 8607  
 visual pattern, low cholinesterase & increasing error cost, 7017  
 visual threshold, removed striate cortex, 13169
- Rat/Drug Effects in**  
 1-3-tricyano-2-amino-1-propene, learning rate, 13258  
 1-piperidino-2-methyl-3-p-tolylpropane-3-hydrochloride, peripheral vasodilator, cat, mouse, 8500  
 2,3-dihydroindoles, conditioned reflexes, 4107  
 5-methoxytryptamine homologues, pharmacological properties, rat & rat uterine cornua, 13221  
 6-Azauridine & 6-Azauril, central nervous system excitability differences, 6889  
 8-azaguanine, morphine tolerance, mouse, 16342  
 acetylcholine inhibition in brain & number of cues, discrimination learning task, 10058  
 activity, central vs autonomically acting drugs, high vs low emotionality strains, 10036  
 adrenalin & pasteurellosis disturbances in CNS, 323  
 alaphen, CNS activity, 4184  
 alcohol, response latency, positive vs negative reinforcement, discrimination task, 6858  
 alcohol/voluntary ingestion, reproductive capacity & pup development & behavior, 6864  
 alkaloid eburnamonine, CNS stimulant, 4202  
 alpha & gamma pyridylethyl hydrazines & amines, M & N cholinergic receptors of CNS & duration of alcohol & chloral hydrate & urethan, 13248  
 alpha melanocyte-stimulating hormone, extinction of conditioned avoidance behavior, lesions in parafascicular nuclei of thalamus, 10029  
 amino acid uptake in brain, L-aspartic & L-N-acetyl aspartic & L-asparagine acids, 16290  
 amizyl & aprophen & corresponding bicyclic esters, peripheral cholinergic activity in narcotized cat & central action in rat, 8520  
 amizyl & diphacyl derivatives, spasmolytic activity & surface activity & molecular weight, intestinal segments, 8489  
 amobarbital, avoidance extinction & spontaneous recovery, 8510  
 amobarbital, prediction of performance, high emotional rat, 13266  
 amobarbital sodium, avoidance, & shock intensity, 16429  
 amobarbital sodium, double runway reward & nonreward excitation, 8507  
 amobarbital sodium & emotionality, avoidance learning, 5646  
 amobarbital sodium, instrumental conditioning & extinction, anticipation & aversion, 8506  
 amphetamine & amytal, adrenaline & methylpentynol, rearing activity, 4177  
 amphetamine & barbamy, skin regeneration & CNS activity, 5643  
 amphetamine & chlorpromazine, fixated response, 6875  
 amphetamine, Dexamy, meprobamate, avoidance behavior, 11554  
 amphetamine stereotypic behaviors, motor excitation, 13262  
 amphetamine stereotyped behavior, a-amphetamine sulfate, tranquilizers, thymetics, adrenergic blocking agents, 16347  
 amphetamine sulfate sensory arousal, & learning, 5688  
 amphetamine sulphate & sodium amytal & adrenaline & methylpentynol, rearing response, 13244  
 anticholinesterase, memory, amount of practice, 16335  
 antidepressants vs cholinolytics, simple pharmacological differentiation, mouse, 11555  
 antiepileptic vs others, EEG & motor convulsions during maximal electroshock, 13278  
 antiradiation agents, pain threshold, 4147  
 apomorphine & dexamphetamine, gnawing compulsion, 6877  
 apomorphine, gnawing reinforcement, 5648  
 apparatus, automatic device for avoidance reflex training & testing various drug effects, 11207  
 apparatus, continuous recording of spontaneous activity & testing of various drugs, & mouse, 11211  
 atropine & depressants, escape learning & dissociation, 2547  
 atropine & prothiadene on nivalin, motor activity, theta activity of cortex & hippocampus, 10040  
 automatic recording of behavior, experimental design, 3723  
 barbitol/induced hypersensitivity to, sleeping time, 16319  
 barbiturate, unilateral hypothalamic destruction & water ingestion, 5561  
 barbiturates & benzedrine, prepyriform cortex electrical activity, food deprivation, 10003  
 beta-phenylisopropylamide para-amino-benzoic acid hydrochloride, depressant, mouse, 8483  
 beta-phenylpyrrolidine & beta-phenylpiperidine derivatives, adrenoblocking & N-cholinoceptor blocking properties, cat & rat, 6863  
 brain tissue permeability for radioactive phosphorus, neurotherapeutic drugs, 8536  
 butylene & isobutylene, mutual potentiation of narcotic effects, brain tissue, mouse, 8481  
 carbachol in preoptic area, drinking & sensory feedback, 1208  
 chloracryl, electroconvulsive seizure, 4180  
 chloral & luminal hydrates, induced neurogenous dystrophy of stomach, acetylcholine level in brain, 8525  
 chloralose anesthesia & epileptoid EEG activity, 11489  
 chlormethiazole, experimental anoxia, cortical activity, 13228  
 chlormethiazole, tissue distribution & metabolism & excretion & body weight & reproduction & offspring, 13280  
 chlorpromazine & amphetamine & atropine & pheniprazine, septal area lesions, EEG & cortical DC potentials, 9978  
 chlorpromazine, avoidance conditioning & CS-UCS interval, 4183  
 chlorpromazine, blood pressure & heart rate, hypothermia, 10033  
 chlorpromazine, brain neuron & interneuronal connection alteration, 8530  
 chlorpromazine, brightness discrimination, 13264  
 chlorpromazine & chlordiaepoxide & alcohol, conditioning fear, 13231  
 chlorpromazine, differential reinforcement learning, 14862  
 chlorpromazine, distribution in brain & internal organs, 11556  
 chlorpromazine & environment, emotionality, rat reared in isolation, 4270  
 chlorpromazine & homofenazine, runway performance, 14863  
 chlorpromazine & sodium amytal, hematoencephalic barrier & capillary permeability-, & rabbit, 16337  
 CNS depressants & ethanol treatment, 1233  
 CNS disorders by experimental streptococcal intoxications & prolonged sleep, 324  
 CNS psychotropic drugs testing method, 6473  
 convulsant & anticonvulsant drugs, EEG during self stimulation, 10014  
 curare, instrumental conditioning, heart rate, paralyzed skeletal musculature, 4295  
 curare, instrumental conditioning, heart rate changes, visceral discrimination & reward, 4289

- cystamine, CNS activity, sodium thiopental & chloral hydrate induced narcosis, corazol induced spasms, morphine induced analgesia, 4173
- d-amphetamine & facilitation of avoidance learning, 16428
- dibazol, body organs & sympathomimetic amines, 4192
- dihydrotestosterone vs 2-alpha-methyldihydrotestosterone hydrazones vs ethers of same, androgenic & anabolic activity, castrated rat, 13289
- dihydroxyphenylalanine, rage & stereotype activity, 13272
- dimethoxyphenylethylamine & mescaline, classical conditioning, potentiated startle response, 8490
- dimethyl sulfoxide & high altitudes, 336
- DNA + RNA, operant conditioning & extinction, 1224
- dopamine & glucose & oxygen uptake in brain, 11522
- & emotionality & avoidance, strain differences, 14916
- estocin & tranquilizer combination, pain threshold & conditioned reflex, 4179
- ethanol, apparatus adaptation, runway performance, 1236
- female sex hormone & urinary histamine excretion, effects in male & female rats, 16351
- fluorocortisol, sodium chloride intake, adrenalectomized rats, 10054
- gamma, gamma, gamma-derivatives of trinitrobutyric acid, antispasmodic properties, 8508
- gamma-aminobutyric acid & brain tissue respiration & glucose metabolism, 11512
- gamma-aminobutyric acid & hyperglycemia, narcosis & adrenalectomy & hypophysectomy, 11529
- gamma-aminobutyric acid injection to hypothalamus & hyperglycemia & muscle & liver glycolysis, 11514
- gangleron & gamma-aminobutyric acid in brain & hypothalamic region, 11523
- glycogen & sulfhydryl groups in brain neurons under various drug-induced inhibitory conditions & death, 11535
- glycyrrhizic & glycyrrhetic acids, pituitary & adrenal glands, anti-inflammatory effect, 6894
- gutimine, brain electrical activity & conditioned reflex, 4142
- hallucinogenic morning-glory seed infusion, activity & discrimination, 4176
- haloperidol, brain hydrocarbon metabolism, 8476
- hemithiamine, anticonvulsant properties toward metrazol & bemegride & arecoline & strychnine & thiosemicarbazide & audiogenic epilepsy, 13269
- hexanal & chloracrylin, sleep inducer, 4204
- hippocampal evoked potentials, procaine & tetrodotoxin & aconitine & veratrine & tetraethylammonium, 16292
- hydrazine & isonicotinic acid hydrazide, distribution in organism, rabbit, 8503
- hynderine, catecholamine metabolism, 4111
- imidazol- & pyrazolidicarboxylic acid methylamide, potentiation of hypophyseal-adrenalin system, guinea pig, 8532
- imipramine & ritalin & niamid & benzquinamide & binazine & chlorpromazine & luminal & strong acoustic stimuli, labyrinth test in water pool, 10037
- imipramine & amitriptyline & desmethylimipramine & nortriptyline, hypothyroid & euthyroid rats, 8484
- imipramine & paradoxical sleep, dreaming & enuresis, 2544
- indopan & chlorpromazine, neuron changes in brain, 8529
- inorganic phosphate, brain stimulation sleep, 13188
- intracerebral actinomycin D, electroconvulsive shock, passive avoidance response, & shock memory, RNA synthesis, 4127
- iodine deficiency & free choice of alcohol vs water, blood cholesterol & thyroid weight, rat, 6854
- iproniazid & tryptamine induced tremors, monoaminoxidase inhibitors, 4141
- ivy, CNS activity, conditioned reflexes, orienting response, 4146
- limbic reaction to central nervous system drugs, septal lesion, rat, 6745
- L-phenylalanine, induced phenylketonuria, 6965
- L-phenylalanine & induced phenylketonuria, birth to 60 days vs 30-60 days, learning deficits, 5636
- L-phenylalanine & L-leucine dietary supplements, maze performance, cerebral serotonin, early experience, 13256
- LSD & amylobarbitol sodium & pentobarbital sodium, social behavior, 4197
- LSD & d-amphetamine, sexual behavior, male, 2537
- LSD, inhibition of sexual dominance behavior, male rat, 13281
- LSD, serotonin release by electrical stimulation, brain region differences, 16324
- LSD injection early in pregnancy & abnormalities in offspring, 13219
- LSD-25 & 2-bromlysergic acid diethylamide, dominance behavior, 10046
- LSD-25, operant response time, visual vs auditory stimuli, intensity, 6873
- magnesium pemoline, advanced vs immediate injection, avoidance task, 13267
- magnesium pemoline, avoidance conditioning & retention, 6879
- magnesium pemoline, avoidance response, learning & memory, 4169
- magnesium pemoline, avoidance activity, 5639
- magnesium pemoline, Hebb-Williams maze, time, errors, 8518
- magnesium pemoline, instrumental avoidance learning, 16331
- magnesium pemoline, learning vs performance of avoidance conditioning, 11559
- magnesium pemoline, passive avoidance learning, 10038
- malononitrile dimer, RNA content of brain & operant & classical conditioning, 4199
- maze learning & CNS stimulants, strain differences, 8528
- meprobamate, initial stages of classical avoidance conditioning, 8514
- meprobamate & oxyldine combination with amidopyrine, conditioned electrodefensive reflex, mouse & rat, 6887
- meprobamate, shuttle shock avoidance, 8493
- meprobamate during conditioning vs during testing, avoidance conditioning, 8486
- mescaline & analogues, tolerance & cross-tolerance, 348
- mescaline & methoxy group configuration, conditioned avoidance responses, rat, 8535
- mescaline & psilocybin, dominance behavior, 10047
- metamizyl, pituitary gland gonadotropic function, 4110
- methamphetamine & chlorpromazine & alcohol & fear, avoidance & escape, shock increments, 5652
- methaqualone, sleep, 14872
- methionine & sulfoxime & iproniazid & reserpine, susceptibility to audiogenic stimuli, 12935
- methionine sulfoximine & eserine & atropine, sound-induced episodic behavior & convulsion, & cat, 2555
- methylpentynol, escape-avoidance, high & low emotionality strains, 337
- methylpentynol carbamate, escape & avoidance learning, 6883
- metrazol, amnesia, & ECS, 16377
- metrazol & carnitine & anectine, prolonged treatment, capillary response to histamine, 13241
- metrazol vs ECS, response retention interference, 14864
- mexamine & serotonin, conditioned reflex activity, 4108
- midbrain reticular system, acetylcholine chloride & sodium pentothal & l-epinephrine, 8432
- mineralocorticoid-induced sodium appetite, drive, 13271
- monoamine levels, behavior effects of manipulative compounds, monkey, 1207
- monoamines, hypertension, 16318
- monoaminoxidase inhibitors, nialamide, pargyline, a-methyl-m-tyrosine, prenylamine, 16340
- morphine & amphetamine, reinforcement, 16435
- morphine abstinence phenomenon/conditioning of, 6904
- morphine withdrawal, induced aggression, 1232
- N-(4-antipyril)-oxamic acid amides & hydrazides vs aminopyrin, chemical structure & analgesic action, 6861
- neostigmine, activity, 11560
- neuroleptics, & electroshock, licking reflex, 10042
- neuroplegic agents & gangliolytics, pulmonary edema, 4181
- nicotine injections/posttrial, underwater discrimination task learning, 14879
- noradrenaline precursor, speed of brain penetration, EEG, 8433
- norepinephrine & carbachol, injected to anterior & preoptic areas of hypothalamus, water & food intake, 10056
- novocaine, CNS, 340

- novocaine & novocaine-amide & dicaine & sovaine, sugar & glycogen level in brain, 8485  
 parathion, conditioned avoidance & acetylcholinesterase in brain & red corpuscle, 13240  
 p-chlorophenylalanine, serotonin depletor, avoidance acquisition & pain & sensitivity, 6902  
 pemoline & magnesium hydroxide vs pemoline, conditioned avoidance learning & memory, 5647  
 penicillin, CNS activity, 334  
 penicillin, CNS disorders, pneumococcal infections, 335  
 pentyleneetetrazole & strychnine & mephenesin, posttrial injections, brightness discrimination, 6888  
 phenacemide & phenoxylacetylurea, anticonvulsant, 4191  
 phenamine & induced diphtherial toxic state, CNS, state, 344  
 phenobarbital, water consumption, 13274  
 phenobarbital sodium, spontaneous motor activity, 16339  
 phenothiazine depression of approach & avoidance behavior, 6895  
 phenothiazines, neurotropism & viscerotropism, 4195  
 physostigmine/intraperitoneal injection of, retrograde amnesia, 10039  
 procaine hydrochloride vs etherization, salt arousal of drinking, 10050  
 Proferin, saccharin aversion, & X-irradiation, 10080  
 progesterone induction of sexual receptivity, spayed rat, 6916  
 pyridoxyphen, CNS, 4159  
 pyrogenal & lidase & strychnine, CNS disorder & restoration, 8465  
 reaction antigen, & sensitization, & CNS activity changes, 329  
 reinforcement schedule preference, oxazepam & amphetamine & chlordiazepoxide & punishment, 5645  
 reserpine & chlorpromazine, cold stress, rat adrenal ascorbic acid, & rabbit blood glucose & serum cholesterol & sodium, 5630  
 reserpine & extinction-induced increase in response rate & brain catecholamine concentration, 10043  
 reserpine, hematoencephalic barrier & capillary permeability, & rabbit, 16336  
 reserpine, laxative effect, 13276  
 reserpine, size & duration of dosage & stability of changes in brain, 13255  
 reserpine administered in infancy, adult operant behavior, 16332  
 reserpine induced ptosis & blepharospasm, decreased sympathetic outflow, 6901  
 reserpine potentiation of d-amphetamine, induced buccal stereotype movements, 13226  
 RNA, bar pressing rate, reply, 11539  
 RNA, memory, induced impairment, ECS, 1231  
 RNA, operant conditioned behavior, 11550  
 RNA, water consumption under water deprivation schedule & death under conditions of food deprivation, 6870  
 scopolamine, diminished responsivity on passive avoidance task, 2nd administration, 6892  
 scopolamine, punishment response, & strain & preshock, 16439  
 scopolamine blocking of motor activity reduction by epinephrine, 6891  
 scrophularia, neurotropic action, 4182  
 serotonin & thermal edema, 5-oxytryptophan & iproniazid & indopan & reserpine & chlorpromazine, 8496  
 skill & comprehension goals & methods, elementary school, 17125  
 sodium amobarbital, gradual withdrawal for maladaptive fear, 11564  
 sodium amyltal, frustration, reward, activity level, 11611  
 sodium amyltal, stimulus change approach, 5642  
 sodium chloride & procaine hydrochloride, & water deprivation, wheel turning activity, 13283  
 sodium chloride intake & acquisition & retention of alimentary conditioned reflexes, normal vs prematurely weaned rat, 11533  
 sodium salicylate, teratogenesis, chlorpromazine antagonism, pregnant rat, 13229  
 staphylococcal intoxication, CNS disorders & sleep, 320  
 strychnine sulfate, maze learning, 16341  
 TCAP, discrimination learning, 4120  
 TCAP, RNA stimulating & antithyroid properties, spatial discrimination & reversal learning facilitation & cretinism, 6898  
 testosterone, age of castration, & mating behavior, 6912  
 testosterone & androgen injection in female rat & mounting behavior, 1238  
 thiopental & sleep cycle, 11561  
 thiouracil & thyroxine, paraventricular nucleus ganglion cells & thyroidectomy, 14783  
 tranquilizer tolerance development, 16338  
 trioxazine, conditioned reflex & pain threshold, 4190  
 tybamate, tranquilizer, escape & avoidance responses, 2541  
 tyrosine hydroxylase inhibition & conditioned avoidance, cat, 11551  
 tyrosine hydroxylation, brain dopamine & noradrenaline, conditioned avoidance, & mouse, 4168  
 vasomotion of microvessels, & confinement, 6921
- Rat/Learning in**  
 1 1 3-tricyano-2-amino-1-propene, 13258  
 acetylcholine inhibition in brain & number of cues, discrimination task, 10058  
 acquisition trials/few, & partial reinforcement, 2616  
 actinomycin D, intracerebral injection & speed of maze learning & retention, 5563  
 air ion concentration, maze learning & performance, shock stress, age differences, 566u  
 alimentary conditioned motor reflexes/exhaustion of, & stimulus intensity, 10165  
 alimentary conditioned reflexes, acquisition & retention, sodium chloride intake, normal vs prematurely weaned rat, 11533  
 alternation, & midline cortex lesion, 284  
 alternation/single, running speeds, 1340  
 amnesia induced by electroconvulsive shock, 1-trial avoidance learning, 2493  
 amphetamine sulfate sensory arousal, 5688  
 apparatus, automatic device for avoidance reflex training & testing various drug effects, 11207  
 auditory vs visual control of chained operants, omission of stimulus correlated with 2nd component, 13342  
 aversion to saccharin conditioned by gamma ray irradiation, 10128  
 avoidance, shock prior to conditioning, paired with cues & response terminated, 10142  
 avoidance, UCS intensity & intertrial interval, rat, 14971  
 avoidance conditioning with X-rays, saccharin flavored water, 16411  
 avoidance conditioning/passive, ECS, conditioned suppression, 16430  
 avoidance response, magnesium pemoline, memory, 4169  
 bar pressing force, remote controlled apparatus for measurement, 8199  
 carbohydrate deprivation, choice of water vs solution of quinine hydrochloride & sucrose, 8663  
 choice & stimulus change, temporal & spatial, T maze, 8587  
 circular maze, learning & counting, food reward, 16406  
 classical conditioning & extinction transfer, reinforced response, stimulus generalization, incentive motivation theory, 7006  
 classical conditioning, orienting response, acquired vs unconditioned, 4291  
 classical conditioning of activity anticipatory to food reward, 10131  
 classical conditioning of licking response, Sheffield omission training, 14960  
 conditioned avoidance, electrical stimulation of parafascicularis thalamic nucleus & acquisition, 9989  
 conditioned emotional response, weakening of response, long CS-UCS interval, inhibition of delay, 11632  
 conditioned emotional response, incompletely learned & retention, 4287  
 conditioned reflex duration & latent period, human & rabbit, 5691  
 conditioned stimulus intensity & chlorpromazine, avoidance learning, 1319  
 conditioned suppression, pre-training exposure to CS, 16410  
 conditioned suppression, reinforcement proximity & UCS intensity, 16408

- conditioned suppression of running in food maze, skin resistance level & drive & competing response, 6995  
 conditioning ease & discrimination ability, 5713  
 continuous & discontinuous negative reward, extinction, 8642  
 cortical steady-potential shifts during conditioning, cat, 10002  
 cues, 5737  
 discriminated avoidance learning, inbred rat strain, 1252  
 discrimination & establishment of secondary reinforcer without contiguity of stimulus & reward, 4324  
 discrimination acquisition, massed & spaced, 5734  
 discrimination learning, cue relevancy, 14943  
 discrimination learning & reversal in wheel-turn avoidance situation, 11638  
 discrimination reversal & discrimination & learning criterion, 2618  
 discrimination task learning/underwater, posttrial nicotine injections, 14879  
 drive strength, extinction & spontaneous recovery, 5755  
 drive/learned, hunger, high vs low drive box & food consumption, 6994  
 escape conditioning, anticholinesterase & memory & initial learning, 11548  
 escape conditioning, positive & negative subcortical stimulation, 11639  
 escape learning & atropine & depressants, dissociated learning, 2547  
 escape/cooperative, removal of plexiglas partition & fighting, 10146  
 & extinction, contingent vs noncontingent delay, 7048  
 extinction, number of trials & magnitude of reward during training, 7055  
 eyelid conditioning/classical, 1297  
 fear/classically conditioned, retention at 22 hrs. & 30 & 60 & 90 days, rat, 8617  
 food deprivation & persistent response sequences, 6992  
 food deprivation time, competing responses, 6987  
 generalization/stimulus, negative reinforcement, 10115  
 habituation to CS/prior, avoidance conditioning, 6998  
 heart rate, classically conditioned, 10126  
 hippocampal lesions, activity, 11450  
 hippocampal lesions, wall following tendency, 4029  
 hippocampal lesions in maze learning, 291  
 hypothalamic stimulation, induced hunger & T maze performance, 1212  
 imitation & cooperation, response chain performance, 10172  
 imprinting, early auditory stimulation, musical preference, 8583  
 instrumental conditioning, heart rate, paralyzed skeletal musculature, curarized rat, 4295  
 instrumental conditioning, heart rate changes, visceral discrimination & reward, curarized rat, 4289  
 instrumental reward learning, sensory preconditioning & higher order conditioning, discriminative stimuli, 11625  
 interhemispheric transfer as stimulus generalization, 8417  
 intermittent punishment & later nonpunishment trials with changed stimuli, 5754  
 labyrinth test in water pool, strong acoustic stimuli & various drugs, 10037  
 latent learning, partial reinforcement effect, competing behavior, 5746  
 latent learning, stimulus change & exploration, 16399  
 learning transfer, brain RNA injection from conditioned Ss, 14843  
 learning/reversal, & overlearning, acquisition & reversal food reward size, & differentiated vs undifferentiated maze, 4322  
 lesions in mamillothalamic tract, retention of visual discrimination & avoidance & operant conditioning, 6787  
 lesions of midbrain reticular formation, open field activity & conditioned avoidance learning, 9970  
 lesions/subcallosal, cue utilization, 5555  
 magnesium pemoline, instrumental avoidance learning, 16331  
 malononitrile dimer, RNA content of brain & operant & classical conditioning, 4199  
 matched responses to reinforcement probability, learning & motivation, fish, 4281  
 maternal injection procedures & postnatal weight & behavior changes, rat, 6976  
 maze, intra-maze cues, alternation after forced trials, 6986  
 maze acquisition, post-weaning environment, 4261  
 meprobamate, initial stages of classical avoidance conditioning, 8514  
 & motivation, habit & response activation, 378  
 mouse killing, buzzer paired with electric shock & effects of each on mouse killing, 6996  
 neonatally administered thyroxine, EEG development, conditioned avoidance learning, maturation, 6914  
 noise intensity/white, bar pressing performance, food reinforcement, 11621  
 noxious stimulation/omissions in, & resistance to extinction, 7051  
 observational vs shaping technique, lever pressing, 6938  
 operant conditioning, shock intensity & delay, 5759  
 overlearning reversal, discrimination, criticism, 16421  
 overlearning reversal, discrimination, defense, 16416  
 overlearning reversal effect, & reward size, 2614  
 overtraining, behavior changes, & reversal & transfer effects, 2615  
 overtraining extinction effect, learning trials, reinforcement, bar-press procedure, 7053  
 pain stimulus & aggressive response, various species, 16393  
 partial delay of reward vs continuous immediate reward, resistance to extinction, 8632  
 partial reinforcement before & after continuous reinforcement, resistance to extinction, 5753  
 passive avoidance learning, magnesium pemoline injection, 10038  
 pentyleneetetrazole & strychnine & mephenesin, posttrial injections, brightness discrimination, 6888  
 population density, & emotionality, 1249  
 positive induction, instrumental discrimination learning, 14967  
 preconditioning training, conditioned emotional response, 16402  
 probability learning, absolute & relative response rate, 11615  
 punishment/resistance to, prior mild aversive stimulation, 6993

 traffic offense rating, driving instructors & physically handicapped & traffic violators, 5148  
 training supervisor, & occupational success, disabled men, 855

**Rating Scale**

- affective states, multiple rating scales, 2886  
 attributive rating method, binocular rivalry & figure reversal fields, rigidity, anxiety, college students, 12890  
 behavior rating scale & Rorschach, remotivation, interpersonal relationships, institutionalized epileptics, 7722  
 behavioral problem classification, children, 2246  
 behavior/of, clinic, 14451  
 Brief Psychiatric Rating Scale, 4 major syndromes, 7505  
 Brief Psychiatric Rating Scale, patient improvement, 1 vs 2 judges & sample size, 7504  
 child psychopathological behavior, differentiating ability & factor structure, 6065  
 Defense Mechanism Rating Scale & Defense Mechanism Index development & validation, 11179  
 Depression/Hamilton Rating Scale for, & Beck Depression Inventory, 6100  
 driver/problem, identification, 1001  
 drug therapy progress, schizophrenia & depression, 6468  
 forced choice, employee performance, instructions & item tone, 844  
 format evaluation, 60  
 Hamilton Rating Scale for Depression, depression, psychodiagnosis, 6072  
 infant character rating by nurses, sensorimotor & body movements, 8671  
 instructor behavior/of, college students, 14435  
 job performance described by trait ratings, airmen, 12657  
 kindergarten achievement prediction, development, 14439  
 Montrose Rating Scale & phenothiazine & GSR base level & tonic arousal & adaptation, chronic schizophrenics, 10732  
 motivation self-rating scale & academic achievement prediction, 4991  
 Navy avionics technician job performance, absolute scaling instrument validity, 8000  
 process-reactive scale & premorbid subscale of Phillips Prognostic Rating Scale, 9634  
 psychiatric data/for, data processing & reliability, 10491  
 psychiatry/in, classical test theory, true score definition, 12719  
 rater differences, psychiatric scale, 2947  
 school behavior, female teachers, sex differences, 2nd grade, 9372  
 self-esteem, methodology, college girls, 579  
 Self-Rating Depression Scale, age & sex differences, income, marital status, values, education, psychiatric outpatients, 10722  
 similarity of adjective pair, length of reference line, 8205  
 sociometric status & student ratings, teacher age & sex, 3395  
 student/college, evaluation of residence hall counselors, forced choice scale, 994  
 taste intensity, 2509  
 Theological Intern Performance Evaluation, prediction, 9640  
 time estimation, vs direct estimation, 99  
 verbal behavior, presentation order reversal, 5241

**Reaction Time**

- 2-choice series with & without verbal prediction, 14620  
 2nd signal/to 1st signal with, uncertainty, 12998  
 2nd stimulus/to, 1st stimulus intensity, 14624  
 academic achievement, GSR, nervous system excitation level, high school students, 5052  
 & accuracy, forced reaction time & binary stimulus information signal, 9839  
 age differences, reaction time to verbal stimuli, 11324  
 alcohol, positive vs negative reinforcement, discrimination task, rat, 6858  
 alcohol/high vs low congener, & perceptual motor performance, 13245  
 arm neuromotor & muscle movement latencies, 6632  
 arousal & anxiety, visual discrimination, 182  
 & athletic participation, high school boys, 14192  
 attention, information processing & single channel theory & short term memory & vigilance & physiological correlates, symposium, 11218  
 audition, number of oscillations of fixed frequency Bekesy tracings, 16147  
 auditory & aging & normal EEG, 13469  
 auditory, intensity & rise time, 178

- auditory monitoring task, skin conductance, 173  
 auditory non-key stimulus intensity, 9831  
 aversive training, training-test interval & stimulus interval, anxiety generalization, 176  
 biological clocks, periodicities in reaction time, eye movements & visual threshold & EEG, 9663  
 body weight, college males, 13000  
 brain stimulation/electrical, methodology, cat, 6799  
 carbon dioxide, & EEG, 6850  
 & cardiac cycle, 6922  
 categorizing stimuli, 3862  
 category judgment latency & stimulus uncertainty, psychophysics, 3744  
 children, 4-6 yr olds, discrimination, stimulus familiarity, 1105  
 choice, non-equiprobable stimuli, 1178  
 choice behavior, reinforcement schedule, children, 8304  
 choice behavior, signal discriminability, stimulus-response compatibility, 9837  
 choice behavior, stimulus vs response frequency, 5436  
 choice reaction time, varied stimuli, 16192  
 choice reaction time for repetitions & alternation, information hypothesis, 9832  
 choice task, correct & incorrect response latencies, 13109  
 conditioned stimulus, properties of ready-signal, 16188  
 & conflict & choice behavior, Berlyne reply, 261  
 & conflict & choice behavior, Kiesler reply, 264  
 correction for spontaneous reactions, estimation of true response frequency & latency as function of stimulus intensity, 9614  
 cue & data signals, classification, 16190  
 cyanotic heart disease, vision, children, 16193  
 delay, interstimulus interval, stimulus intensities, inter-response relationship, 11321  
 depressive affect, aging, 4418  
 detection performance, nature of auditory stimulus, response nature, 14542  
 digit coding speed, stimulus uncertainty & S-R compatibility, 175  
 discrimination, auditory vs visual stimulation, 1107  
 discrimination reaction performance, anxiety, sex differences, 5440  
 discriminative reaction time performance, stimulus familiarization, children, 11711  
 distribution, auditory clicks, foreperiod variability, payoffs, 11326  
 ear preference, age differences, audition, 14623  
 electrocutaneous stimuli, rise & decay time, 185  
 EMG, man & monkey, 14622  
 error correction time without external signal of error, 2440  
 & evoked response to sensory stimuli, attention factors, scalp, 10006  
 eyelid conditioning/classical, UCS intensity & frequency & latency of response, 8322  
 familiarity, stimulus recognition, categorization, college students, 11325  
 familiarized vs novel stimuli, preschool children, 5795  
 fast guesses, 183  
 field dependence, Autokinetic Word Test, sex differences, college students, 8247  
 fixed interval operant responding, illumination & noise levels, rat, 10155  
 fixed vs variable interval signal schedules, 13065  
 focal epilepsy & brain damage, 17017  
 frustration, nonreward predictability, stimulus preference, children, 11715  
 generalization & duration of cue stimulus, 181  
 GSR/palmar, alerting & executing signals, sweat glands vs epidermal components, 5580  
 hand response, opposite ear stimulation, 9840  
 hypnosis, & conditioned eyeblink learning & extinction & electrodermal response 12120, hypnosis, 12966  
 identification of numerals in presence of geometric coded symbols, 9830  
 inductive reasoning problems, reinforcement type, item difficulty, knowledge of results, female high school students, 13097  
 information gain & stimulus-response coding, 1108

- information perceptual processing, syntactical structure, 5345
- inhibition, visual response, delayed signal, 180
- inhibition by 2nd visual stimulus, 179
- intersensory comparison, electro-pulse tactile stimulus, 2376
- interstimulus interval, & response to 2nd, 3863
- & interstimulus interval, expectancy vs intermittency hypothesis, 9802
- & interstimulus interval & order of data & cue signals, 9797
- & interstimulus interval of 2 signals & expectancy, 9808
- intrasensory effects, re-analysis, 14621
- irrelevant visual stimulus, & digit span & pursuit rotor, 11315
- latency, avoidance response blocking, fear extinction, rat, 14968
- latency, information, feedback, discrimination task, 8303
- latency distribution, choice, correction for guessing, contribution, 13001
- list memorization & item context recall, serial scanning & reaction time, 9908
- LSD-25, operant response time, visual vs auditory stimuli, intensity, rat, 6873
- masking, check trial recognition, 3859
- mental processes model, cognitive & organismic arousal, 3678
- mental retardates, alpha response to photic stimulation & Stanford Binet IQ, 9262
- mentally retarded children, money & praise rewards, 9263
- monitoring reaction time, short term memory of auditory sequences, perception, 14679
- motion/during, 3861
- motor activity, apparatus, transducer board & circuitry, dog, 3736
- motor performance, spontaneous autonomic activity, heart rate & GSR, 5524
- motor reaction, stimulus intensity & duration, 5435
- motor reaction latency & cortical rhythm depression duration, EEG & EMG & EKG & respiration, 14835
- motor task, verbal reinforcement schedule, children, 184
- & muscle tension, audition, 5439
- naming latency, memory store organization & access & indexing, object familiarity & word frequency, aphasic & brain damaged & normal Ss, 3933
- naming numerals & naming quantities, 9841
- & occipital response amplitude to stimulation of nasal & temporal halves of retina, 8448
- overinclusive thinking, distractibility, paranoid & non-paranoid schizophrenics, psychiatric patients, 7598
- oxypertine, low dose, & mood & motor performance, athletes, 4157
- paired associate learning, practice, recall, response correctness, 9868
- perceptual reaction time, ambiguous sentences, 9684
- perceptual-motor reactions, age differences, 5437
- personality & nervous system strength-sensitivity measure, introversion-extraversion, stimulus intensity & onset vs offset, 11905
- personality test items, agreement with congenial item vs disagreement with reversal & ego-involved vs neutral items, 7322
- photic stimulus & following auditory stimulus, interstimulus interval, 9834
- & physiological responses, follow-up, 461
- pitch change of signal & response latency, 174
- preparatory interval, EEG, 1110
- primary colored stimulus cue/to, & following stimulus hue, 3865
- probability/2-choice, & reinforcement, 3860
- programed instruction design, item response time & error rate correlation, 7950
- receiver operating characteristics, response latency, rat, 1377
- recognition & coding of memorized target character, 5364
- recognition memory task, serial position of item & reaction time, 9899
- refractoriness, constant vs varied intersignal intervals, 177
- refractory period of choice reactions with regular vs irregular interstimulus intervals, visual stimuli, 9795
- reinforcement conditions & ready cue, children, 16194
- reinforcement/positive verbal, children, 11710
- response correctness & confidence, short-term memory, unit-sequence interference, 8384
- response intent, 5442
- response latency, stimulus affect, presentation order, 5938
- response sets & simple visual reaction time, 2375
- response stimulus interval, mental retardates, 15701
- response units & rate, binary sequences, auditory stimuli & key pressing, 9838
- rest & reprimand & reward, retardates, 1839
- saccadic eye movement latency, stimulus displacement, college students, 14534
- same-different judgments, simultaneous vs successive visual stimulus pairs, size & color & shape, 9835
- schizophrenia, social vs shock motivation, Italy, 12217
- semantic generalization, interstimulus interval, involvement, response latency, heart rate, blood flow, skin conductance, college males, 11868
- serial reaction time task, sequential effects of stimulus characteristics, 11322
- set, attention, GSR, age differences, children & adults, 9800
- shape discrimination, visual cortices, 16189
- & shock settings, degree of defeat & perceived aggressive intent of opponent, 16676
- signal detection/visual, & confidence, 6633
- & signal intensity & training, plea for small symposia, 9833
- signal patterns, palmar skin conductance, 6630
- simple & choice reaction time, experimentation, 14625
- simple & complex tasks, practice, 6631
- & size of sample, visual pattern discrimination task, 9836
- skin conductance, knowledge of results, sex differences, 5438
- statistical decision theory & information condensation & expectation, reaction processes, 9811
- statistical decision theory of simple reaction time, 11323
- statistical inference & point estimation equations, 2228
- stimulus & choice response compatibility, 16252
- & stimulus emotionality, word association, tranquilizer & placebo, 2357
- stimulus familiarization, children, 8302
- stimulus intensity & adaptation level, 16191
- stimulus intensity & duration, motor reaction to auditory stimulus, 16196
- stimulus intensity & hand withdrawal, 1109
- stimulus presentation, response mode & stimulus presentation probability, 3858
- & stimulus ready signal intensity, 1104
- & stimulus uncertainty, 2377
- Stimulus-Response compatibility, information processing task, 12999
- stimulus-response complexity, schizophrenic, 4812
- stimulus-response complexity, schizophrenics, defense, 16928

 teaching method comparison, 1st grade, 2058  
 teaching method/experience vs traditional, 3458  
 teaching methods, 2nd grade disadvantaged Negro children, 12592  
 teaching methods, 4th & 5th & 6th grade students, 17139  
 teaching methods, basal & linguistic readers & modified linguistic materials, word recognition & comprehension, 2nd grade, 12601  
 teaching methods, basal reading, & whole-word phonics, & phonic-filmstrip & whole-class, & Early to Read ability grouping, 2nd grade, 12593

- teaching methods, language arts & basic reader approaches, 2nd grade, 12602
- teaching methods, phonetic & visual recognition, 829
- teaching methods & research review, 9445
- teaching methods, silent & oral & listening, 828
- teaching methods evaluation, 6285
- & test anxiety, vocabulary & comprehension gain in remedial reading program, 7-14 yr old boys, 7844
- test responses, information sources, 13092
- tests/general vs critical, achievement, 9th grade students, 14190
- training/eye-span, tachistoscope, 15826
- trigram pronounceability & delayed auditory feedback, immediate recall & key pressing rate, 3804
- verbal learning, reading skill improvement, 5018
- & vision, 12478
- visual discrimination training, beginning readers, 12926
- & visual perception, 1969
- & visual perception abilities, college students, 9355
- visual problems & adaptation, 1869
- & visual-motor development, Bender-Gestalt & WISC, superior 2nd & 3rd graders, 8701
- vocabulary, perceptual rotation, school skills, mentally retarded adolescents, 9271
- vocabulary achievement, vocabulary teaching method, deprived bilingual 4th grade students, 10982
- vocabulary concepts instruction & reading achievement, 5th grade, 3460
- Wood Reading Dynamics Method, investigation, 2070
- word discriminability, letter cues, children, 1413
- & writing deficiencies of child & mother harshness, 467
- & writing syndrome, teaching & therapy, 17102
- Reading Deficiency**
- 11 yr old boy, reading disability, reward avoidance conditioning, anxiety, enuresis, stammering, lack of self-confidence, 13417
- adaptation of driver-education materials for remedial reading in high school, 17133
- & articulatory defects, 1805
- & attention, children, nonreading Stroop Color-Word Test, 793
- auditory-visual integration, 16470
- backward readers, visual & kinesthetic sensitivity, sensory dominance, 5814
- Bender Gestalt size constriction performance, 16709
- brain damage, mental ability, cerebral dominance, visual anomalies, personality adjustment, 7776
- causes, neurological & social psychological, case examples, 9076
- causes, sex differences, children, 15837
- cerebral dysrhythmia induced by reading, children with reading problems, 14109
- cognition & personality, 7926
- comprehension rate improvement, 6th form pupils, New Zealand, 3421
- deficit in space-form & directional-sense perception & finger localization & phonemic-graphemic matching, 10 yr old boy, case report, 15601
- detection, children, 9391
- diagnosis, WISC subtest profiles retarded readers, 3334
- directional orientation & finger localization problems, 9 yr old boy, case report, 15602
- discrimination/right-left, 11234
- dyslexic & clinical groups, EEG, elementary school children, 14830
- dyslexic child, reading success, training & kinesthetic techniques, 15831
- dyslexic children, Color Phonics System as reading teaching method, 15884
- elementary school, 6268
- epidemiology, sex & race differences, 6th grade students, 15825
- & eye hand preference, 1st graders, 7133
- high school, bibliography for poor readers, 1958
- imagery & concept formation idiosyncrasies, 10 yr old girl, case report, 15603
- improvement, & Holtzman Inkblot Technique, elementary students, 6250
- individual & group remedial reading instruction, WAIS profiles, college students, 15898
- initial teaching alphabet, 5065
- & laterality, brain damaged children, 14214
- & laterality, handedness & reversals, eye & hand dominance & disability, ear or foot preference in mirror drawing, 10979
- & learning disorders, 1967 directory of schools & clinics, 12509
- mental retardates, programed instruction, & writing & arithmetic, 2081
- motivation, creative ego involvement, 9380
- neurological etiology, 2461
- oculomotor spasms, handicapped readers, 3359
- origins, teaching methods, book, 15838
- perceptual development, handedness 2nd & 3rd grade boys, 7932
- personality, & high achievers & slow starters, kindergarten & 2nd grade, 9364
- phonemic-graphemic matching defect, delinquency, 15 yr old boy, case report, 15604
- phrase reading as unique skill, training method, 12510
- prediction of reading failure, preschool children, book, 5008
- processes/reading, individual differences, 9th graders, 7775
- programs, attitude toward reading, 2nd grade students, 12491
- psychiatric symptoms, emotionally disturbed children, 12181
- & psycholinguistic abilities, cerebral palsied children, 3221
- psycholinguistic correlates, 2nd grade children, 11883
- psychological & reading achievement test results, longitudinal study, retarded readers, 3330
- psychotherapy, & defective ego structure, children, 631
- reactive inhibition, Negro students, 3434
- readability level & interest content, 15841
- reading as operant behavior, 15828
- reinforcement/fixed-ratio conditioned, 2nd graders, 16502
- remedial class screening, WISC & Peabody Picture Vocabulary Test, 9386
- remedial instruction, progress & attitudes of elementary students, follow-up, 15823
- reward & avoidance conditioning, anxiety, enuresis, stammering, lack of self-confidence, 11 yr old, 11610
- slow learners & rehabilitation by training in phrase-reading, 9th & 10th graders, 12511
- & socioeconomic status, children, 570
- & space-form perception, 6213
- specific reading disability, diagnosis & treatment, 12526
- speech muscle activity during silent reading, treatment by auditory feedback from electromyogram, 3367
- systematic phonics instruction & reading achievement, Negro dialect speech & retarded readers, 3362
- teaching through stimulation of deficit perceptual areas, 14195
- treatment, case report, mental retardate, 759
- visual fixation stress/object & space & moving, visual training program & reading improvement, 5th-9th grades, 12517
- & WISC, girls, 7308
- word development, teaching method, 7935
- & writing disorders, 6223
- Reasoning** (see also Cognition, Logic, Thinking)
- ability & suggestibility of hypnotist, handwriting, 9774
- abstract reasoning & language ability, aphasic adults, 1801
- addition & subtraction, number of transformations & non-redundant elements, children, 2690
- addition & subtraction difficulties, concrete reasoning, children, 2689
- behavior change, clinical reasoning vs reinforcement, 7512
- capacities & suggestibility of hypnotist, handwriting, 9773
- categorical syllogism solution, diagrammatic & semantic programed learning material, teacher trainees, 7958
- development, 1391
- inductive reasoning, industrial-differential psychology, job performance research & theory, 7998
- inductive reasoning problems, reinforcement type, item difficulty, knowledge of results, response time, female high school students, 13097

- mentally retarded children, & language & play development, 4913
- perception & abstract reasoning, 8204
- perceptual distortion induced by reasoning, expectancy, vision, 8296
- Piaget & information-processing theories, children, 2691
- programed inductive reasoning, schizophrenics, 3147
- & social sciences, 484
- syllabic reasoning distortion, conclusions' emotional value, college females, 8393
- test, sex & age & environment & socioeconomic differences, 8882
- theory of knowledge, problem of novelty, concepts of reason & intuition, 8387
- trial & error learning, problem-solving, switch-light task performance, distraction, & response alternatives, & response chains, 3951
- Recall** (see also Memory, Recognition, Retention)
- accuracy & confidence in recall accuracy, paired-associate task, 13052
- aging & memory loss, storage vs retrieval difficulties, & recognition, 6696
- anagram coding, recall restrictions & pronounciability & instructions, verbal learning, 13043
- & anticipation methods of presentation, auditory discrimination learning, 13002
- & anxiety, appropriately vs inappropriately colored objects, 6700
- anxiety, audience, verbal recall, 8284
- association groupings/cohesiveness of, children to college students, 5497
- association in retention vs forgetting, & misrecall, 5490
- associative recall, verbal discrimination learning, pronunciation, practice, college students, 13059
- auditory narrative material, speaker & sequential presentation variability, 1153
- aural presentation of nonsense syllables, intensity, 6663
- belongingness/adjective & noun, recall of lists, 11374
- competing responses to single stimulus, paired associates, 6656
- competition, & proactive inhibition, 14693
- concept formation & immediate free recall, 14685
- conceptual categorization, paired associates, 14710
- conceptual similarity, implicit responses, 8358
- concrete & abstract words equated for meaningfulness, 2417
- connected discourse & rated familiarity with separate sentences, interference theory, 3930
- context vs no-context programed Russian vocabulary lesson, college students, 5080
- Deese's word lists, sequential ordering in free recall & interitem associative strength, 9885
- deficit, personality & interest changes, aged, 4421
- developmental study, memorization, nonsense syllables, 9-17 yr olds, 453
- dichotic listening, & laterality, 3805
- dichotic listening, age & laterality differences, retarded children, 9282
- dichotic listening performance, presentation order, perception & short-term storage, 6692
- dichotic listening recall strategies, 5375
- dogmatism, & opinion-consistent & opinion-inconsistent information, preference, 4478
- dreams/natural, recall during wakefulness before vs after hypnosis & during hypnosis, 11294
- drive & shock threat, rotary pursuit reminiscence, 12974
- drive related verbal material, drive arousal, 9890
- emotive word sorting & recall, 9-13 yr olds, 15045
- facilitation & verbal learning, word pronunciation & spelling & related word verbalization, 1161
- familiarity & free recall, 14687
- figure grouping, kinetic vs social themes, 14700
- forgetting theory, interference, 246
- free learning, encoding cues, meaningfulness, college students, 8370
- free recall, noun lists, retroactive inhibition, 9904
- free recall, response availability, short-term memory, 8371
- free recall memory, item repetition interval, junior high school students, 14699
- free recall sentence learning, grammatical rules, language theory, 10409
- grammatical intrusions & structured letter pair recall, 2408
- grammatical structure, presentation mode, college students, 14682
- grammatical structure, word chains, 13084
- hypnotic dreams vs sleep dreams, & eye movements & EEG, 2347
- incidental recall, scanning, size estimation, 6615
- incorrect recall of plausible multiple-choice alternatives, & knowledge of results, 3905
- information & immediate memory, letter & digit & binary digit sequences, & rehearsal, 1165
- information measurement of nonsequential messages, & recognition, mathematical computer technique, 5271
- information processing, structured & unstructured verbal items list acquisition & recall, 2425
- input order & list length, 14696
- instruction set on recall or operation, 8311
- interlist learning & organization changes, instructions, retention, college students, 11370
- intervals/ & intertrial, paired associate learning, concreteness, imagery, college students, 14670
- intralist interference, letters & digits, rehearsal opportunity & response competition, 3932
- & learning, proactive inhibition, paced anticipation, 16216
- learning/paired associate, directional & organizational processes, college students, 11371
- letter & number strings recall, individual differences, college students, 8375
- letter lists with repetition, & associative intrusion, 247
- letter pairs, & intrusions, 3935
- letter-sequence spontaneous recovery, extinction procedure, college students, 6668
- list concept relatedness, age differences, 9895
- list of letters, speaking neutral sound at perception of each letter, 11377
- list-discrimination task, item-population size, & recognition, 9878
- lists/long & short paired associate, 11360
- material length & successive trials & intertrial interval & practice & interpolated task, 16221
- mediator use/nonverbal, kindergarten & 1st grade, 13070
- memory recall, represser-sensitizer defenses, body position, college males, 11380
- memory span & intervening activity between presentation & recall, individual differences, digit series, 16231
- memory traces/visual & verbal, interaction during recall, visual perception of simple labelled figure, 8367
- memory-monitoring judgments, & recognition, college students, 14692
- mental organization, free recall of pictorial material, age differences, 4349
- method, retroactive inhibition, original learning-initial learning interval, 8339
- mnemonic system, verbal learning, 6701
- multiattributive lists, 2-4 binary attributes, additive results, 9892
- neurotics, perception, recall of pictures, details vs global view & interpretation, 12171
- nonsense sentence recall, attitudinal rigidity, dogmatism, change acceptance, authoritarianism, college students, 7232
- nonsense syllable association value, English & Indian, 5462
- number of items per cue, cued & free recall, 13073
- numbers/of, short-term storage, information type, college students, 14683
- opinion change persistence, & active vs passive participation, 4488
- order, audio-visual stimulation, sensory & temporal grouping, 13085
- order, short term memory, 8373
- paired associate learning, signal detection analysis, confidence & correctness, college students, 8382
- paired associate learning, transfer, interference, college students, 9871
- paired associate learning, practice, response correctness & latency, 9868

paired associate learning, practice, college girls, 6654  
 paired associate learning, arousal & recall interval of 2 minutes to 1 week, 14680  
 paired associate learning, verbal stimulus hierarchies & association, recall probability, 1142  
 paired associate recall, presentation rate & age differences, 239  
 paired associates, mediator recall & meaningfulness, forward & backward recall, 6640  
 paragraph word association relationships, reading speed & recall, elementary school & college students, 5941  
 perceptual search, reminiscence in psychomotor task, 9829  
 posture, & verbal learning, 13083  
 prediction, association value & pronunciability, 13077  
 presentation & recall/material, free-recall learning, 13022  
 presentation time, & number of items, 3937  
 presentation vs anticipation, & stimulus meaningfulness, & mixed vs unmixed lists, paired associate learning, 3914  
 presentation/auditory & grouped & spaced visual, trigrams, 13079  
 primary vs control word associates & extraversion & anxiety, 13062  
 primary word associates, interference of learned secondaries & recovery, 5460  
 priming of association test responses, 13019  
 prompted recall of sentences, 13068  
 reactive & conditioned inhibition, & consolidation, reminiscence, review, 5235  
 reading & trigram pronounceability & delayed auditory feedback, immediate recall & key pressing rate, 3804  
 recall vs multiple choice presentations, paired associate learning, training procedure, college students, 8335  
 recall vs recognition test, incidental & intentional learning, presentation rate, instructions, college females, 6659  
 & recognition, information transmission, & number of alternatives, 235  
 & recognition, intentional & incidental paired associate learning, 14658  
 recognition vs reproduction recall, visual figure perception, distortion, verbal labels, 6687  
 rehearsal strategies & word memory, 1167  
 reminiscence/bilateral & unilateral, motor performance, 3856  
 repeated free recall, measurement of clustering & sequential consistencies, 3923  
 retroactive inhibition, degrees of learning & recognition, 230  
 role of single word variables, statistical approximations to English, 232  
 rotary pursuit, alien stimulus during practice, 12994  
 self-reliance & recall of nonsense statements, & interesting vs uninteresting nonsense, 6699  
 semantic differential polarization, word lists, 5498  
 sensory deprivation, & learning, 5405  
 sentence recall, retention interval, 9888  
 sequential ordering & word list length, 3924  
 serial & grouped presentation, categorized & unrelated words, college students, 14691  
 serial anticipation & recall, transfer, 3866  
 serial learning task, spread of effect, intelligence, 13080  
 serial order in recognition & recall, lists of digits, 8329  
 serial recall/mixed letter string, digram storage & frequency, interference, college students, 9897  
 serial-recall, maze & paired associate learning, knowledge of results, mental retardates, 9279  
 short term memory & altitude, 243  
 short term memory, total recall & selected partial recall, 1156  
 short term memory consolidation, rehearsal, intralist differences, college students, 8374  
 short term retention & thematic association & free recall  
 short-term memory, silent vs voiced rehearsals, college students, 8377  
 size & color & form concepts/& pointing to, rate of instructional presentation, mental retardates, 15719  
 sodium amytal, dominant brain hemisphere, auditory recall & visual recognition, 4042  
 spatial location of nonsense syllables, learning rate, 9907  
 spatial order & interitem interval, 1154  
 speech defective children, 15662

stimulus redundancy, estimation, age differences, children & adults, 9900  
 syntactic structure, orders of approximation to English, 9909  
 syntactic vs nonsyntactic structure set, sentence structure, 6614  
 & tendency to reproduce original wording of prose, college student, 197  
 test anxiety, audience, serial learning, college females, 11330  
 time orientation, graduate students, 9687  
 transfer effects in whole-part free recall learning, 11379  
 urn model, recall order, 47  
 verbal discrimination learning, item type, pronunciation, practice, 6670  
 verbal learning, free recall & set & category instructions, word association & delay, 1133  
 verbal learning, list clustering, 5475  
 verbal learning context, & recognition, 245  
 verbal recall, free & constrained concept formation, age differences, children, 10254  
 verbal recall measurement, serial position scoring, expected value of chance formula, 12791  
 verbal satiation, college students, 14709  
 visual patterns/for, symmetry, amount of information, 14711  
 visual stimulus features & fantasy experience, personality measurement, 10461  
 vocalization level & trigram association value, 2423  
 volume of material & meaningfulness, learning & recall, fast & slow learners, 11359  
 voluntary & post-hypnotic attention effects, digits, 2424  
 von Restorff effect, isolation & surprise, nonsense syllables & numbers serially presented, 8330  
 word association, recall of different responses, number of stimuli & trials & cue availability, 11375  
 word association, Spence's verbalized-nonverbalized word hypothesis, 4546  
 word association, stimuli paired with S's own 1st & middle & last associates & subsequent free recall, 6665  
 word lists/intertrial organization of, 13053  
 word total association & conceptual cohesiveness, & clustering & recognition of word sets, 6694  
**Recognition** (see also Memory, Recall, Retention)  
 2-dimensional auditory stimuli/of perceptual independence theory  
 aging & memory loss, storage vs retrieval difficulties, & recall, 6696  
 agnosia & visual recognition, unilateral brain damage, 3216  
 ambiguity training, auditory & visual recognition, 6500  
 ambiguous auditory & visual stimulus recognition, cognitive factors, college & graduate students, 14501  
 anxiety words/of, good & poor premorbid schizophrenics, tachistoscope, 7581  
 auditory recognition of nouns, meaningfulness & abstractness, mentally retarded, 3810  
 auditory signals/of, presentation schedule, 14544  
 auditory word recognition, meaningfulness, abstractness, phonetic structure, 8253  
 bias recognition in binary digit strings, college students, 12897  
 check trial recognition reaction time, masking, 3859  
 & classification of geometric object, 16115  
 clipped speech-wave/of, phoneme confusion matrix, 12943  
 concept formation & recognition/object sorting, academic achievement prediction, 14223  
 cue sampling, quick & delayed response incentives, vision, 8238  
 cued-recognition task, choice behavior, 14745  
 differential memory for picture & word stimuli, college students, 17094  
 difficulty scaling of recognition items, 11146  
 distraction during learning, audition, 12984  
 emotional stimulation, recognition & inference, 11299  
 errors, associative responses, verbal learning, mental retardates, 7757  
 familiarity & response uncertainty, tachistoscope, 14525  
 forced choice form recognition & binocular rivalry, 2304  
 form perception, background contrasts, & visual detection, 3784

heart image & tachistoscopic recognition, cardiac symptoms, college student, 6599  
 incomplete line drawing, prior object presentation & word label, 3928  
 information measurement of nonsequential messages, & recall, mathematical computer technique, 5271  
 & learning, visual sequences, children, 2706  
 left-right differences in tachistoscopic recognition, cerebral dominance vs directional scanning, 5341  
 list 1 response recognition after A-B & A-C learning, 13074  
 list-discrimination task, item-population size, & recall, 9878  
 losing game participation, game recognition & monetary change & withdrawal, college students, 14741  
 memory for photographs, homogeneous sequences, item intervention, college students, 14694  
 memory model/short term, mathematical model, 3938  
 memory task, serial position of item & reaction time, 14692  
 numerical pairs relation & similarity, short-term memory, 8385  
 paired associate learning/aural, stimulus recognition, 13016  
 partial learning model of recognition memory, 16225  
 parts of whole, age differences, children, 117  
 pattern recognition, learning rate & distortion level, psychophysics, & concept learning, 3963  
 perceptual recognition, serial learning, training & delay & order effects, children, 7121  
 personality profile, acceptance & rejection, 15290  
 phrase reading training, tachistoscope usefulness, children, 3327  
 pictures, brain-damaged adults & children, 10842  
 pseudorecognition, judgment stability, random & patterned configurations, 9722  
 reading teaching methods, & phonetic method, 829  
 & recall, information transmission, number of alternatives, 235  
 & recall, intentional & incidental paired associate learning, 14658  
 recognition vs recall test, incidental & intentional learning, presentation rate, instructions, college females, 6659  
 retroactive inhibition, degrees of learning, & recall, 230  
 semantic differential polarization, word lists, 5498  
 sentences, grammatical transformations, 237  
 serial order in recognition & recall, lists of digits, 8329  
 set, visual recognition task, perceptual selectivity, 12986  
 shape recognition/random, verbal coding, 11246  
 short term memory, 0-1 seconds, nonsense forms & display cues, 5335  
 signal recognition & detection, intensity level, white noise, 14551  
 social recognition, achievement motivation, 15261  
 sound recognition & aphasia, semantic-associative disorder, brain damaged patients, 4900  
 sounds of musical instruments & prior exposure to musical instruments, 3rd & 4th graders, 7124  
 & speaker discrimination, 5386  
 speech/of, phoneme grouping, 13567  
 speech/of connected, computer, 16056  
 stimulus conditioning learning model, & machine pattern recognition, 2138  
 stimulus learning in paired associate learning, 1128  
 stimulus recognition, familiarity, reaction time, categorization, college students, 11325  
 stimulus recognition & paired associate learning, 13049  
 syntactic & semantic changes recognition memory, speech passages, 9906  
 taboo words, a priori probability, women, 15226  
 tachistoscopic recognition, signal detection approaches, college students, 12928  
 tachistoscopic recognition thresholds, paired associate learning, word frequency, stimulus-response similarity, 8357  
 tachistoscopically presented stimuli recognition, eye movement, 9696  
 tactile communication, loci of electrodes on body & number simultaneously pulsed, recognition accuracy, 14575  
 teacher-student similarity & recognition, connotative meaning of vocational agriculture words, socioeconomic status, grade level, high school students, 10930

thresholds & accuracy, body region, electrode number & spacing, 5568  
 uncertainty of stimuli & response, visual perception, 8231  
 verbal labels & recognition of forms, 11329  
 verbal learning context, & recall, 245  
 vision, acute & chronic schizophrenia, 13974  
 visual, & coding of memorized target character, reaction time, 5364  
 visual aircraft recognition & detection, observer offset, binoculars, aircraft class, army men, 7991  
 visual fields/across, age & stimulus duration & association value & training, 16116  
 visual perception, configurational letter spans, college students, 6530  
 visual perception, stimulus duration vs repetition, & confounding auditory stimulus, 8228  
 visual recognition of spoken words, stimulus repetition, lip-readers, 12322  
 visual recognition threshold, uncertainty, 14519  
 visually presented homophones, 6690  
 visual/subsequent, serial learned CVCs, 8354  
 voice/one's own, temporal & motivational factors, 13589  
 word, beginning instruction in reading, 3469  
 word, Russian & Georgian, omitted letters & information, 2855  
 word & sentence & picture recognition memory, 8381  
 word identification, presentation with noise, 1162  
 word perception, discrimination, adults, 8340  
 word recognition & comprehension, reading teaching methods, basal & linguistic readers & modified linguistic materials, 2nd grade, 12601  
 word recognition, free association strength, grades 4 & 8 & 12, 16475  
 word recognition, meaningfulness, abstractness, educable retarded children, 12398  
 word recognition & response time, familiarity & perceptual recognition & meaningful categorization, 1163  
 word recognition skills, perceptual abilities, 4th grade students, 16505  
 word recognition skills, young children, 16511  
 word recognition transfer, paired associate learning, false recognition, 5482  
 word total association & conceptual cohesiveness, free recall & clustering & recognition of word sets, 6694  
 words of 0-4th order approximation to English, redundancy & letter spacing, tachistoscopic presentation, 4548  
 words/of, alphabet & auditory discrimination training, children, 15777

## Recreation

attitude toward recreation, bicultural semantic differential, 1512  
 camping & socialization, educationally handicapped children, 5015  
 camping therapy, boys, 10598  
 camping therapy, psychiatric patients, 3003  
 college students, time during week for various activities & grade-point average, 4965  
 counselor-camper group relationships, 3271  
 day camp for emotionally disturbed children, 9410  
 elderly hospitalized patients, competition & recognition & self-esteem, 10591  
 gymnastic vs passive pause after work, 5091  
 holidays, myth & ritual transgression of rules of social order, 2744  
 interest, & intelligence & scholastic achievement & vocational interest & socioeconomic status, adolescents, 1441  
 Israel, high school students, & immigrants, & school learning, 784  
 & job opportunity in working area vicinity, 7975  
 leisure, US & Russia, 5870  
 leisure behavior expectations for old age, 16560  
 leisure time activities, attitudes toward television, family's educational & economic status, high school students, 13463  
 leisure time problems, mental health, values, life adaptations, 14045  
 Little League baseball, & personal & social adjustment, 1587

- continuous response & timed reinforcement model, stimulus sampling theory, 12779
- continuously vs variably reinforced stimuli, preferences during extinction, rat, 16443
- cooperative task, friendship status, extinction resistance, pre-school children, 11699
- cost to payoff contingencies & differential preferences, fixed ratio, 6733
- counting, adjustment to error-contingent reinforcement schedule & recovery of prior accuracy, baboon, 8637
- cyclical schedule, response rate, pigeon, 11653
- discrimination, response-produced stimuli, learning theory, rat, 13352
- discrimination learning, rat, 7041
- & extinction response & secondary reinforcement, children, 227
- extinction/resistance to, reward frequency & amount, goldfish, 11661
- eyeblick conditioning, response stability & individual differences, nonrandom intermittent reinforcement schedules, 9859
- fixed interval, mathematical model, response rate proportional to time left in interval, 9597
- fixed interval, second order conditioning, pigeon, 10153
- fixed interval duration in 2 component chain schedule & response rate, pigeon, 11649
- fixed interval schedule, food & neutral reinforcement, pigeon, 10151
- fixed vs variable interval signal schedules, reaction time & heart rate & palmar skin conductance & GSR, 13065
- fixed-ratio conditioned reinforcement, 2nd grade retarded readers, 16502
- fixed-ratio reinforcement schedule, discriminative stimulus, shock intensity, squirrel monkey, 5735
- fixed-ratio superimposed on differential reinforcement of low rates of responding, pigeon, 13374
- fixed-ratio/multiple, bright & dim light discrimination, rat, 8610
- free fixed interval sucrose food schedule, water intake, rat, 10149
- generalization gradients, tandem schedules, peak shift, pigeon, 1350
- light onset as reinforcement, light intensity & continuous & partial reinforcement, chicken, 8640
- methylphenidate, response rates, squirrel monkey, 14874
- mixed vs fixed ratio schedule preference, pigeon, 5744
- motor performance, reinforcement schedule & age differences, mental retardates, 10883
- motor task response speed, children, verbal reinforcement, 184
- multiple, alternating high & low frequency of reinforcement each with particular stimulus, response rate, rat, 10148
- multiple schedules, intermittent free-feeding, key pecking, pigeon, 11654
- operant behavior & d-amphetamine, pigeon, 4174
- operant conditioning, & goal distance, mental retardates, 5455
- operant conditioning, sex differences, children, 1412
- partial, amount of reward, response effort, goldfish, 13369
- partial reinforcement training, post-training reinforcement schedule & performance, rat, 4318
- percentage reinforcement schedule, responding control, pigeon, 5749
- & performance, fixed-interval, instructions & verbalization of reinforcement contingency, 11373
- persuasion & attitude change, learning theory interpretation, verbal classical conditioning, extinction & reversal trials, 6650
- polydipsia, food reinforcement, monkey, 4328
- polydipsia/control of variable interval schedule induced, type & size & spacing of meals, rat, 8469
- preference, punishment & oxazepam & amphetamine & chlordiazepoxide, rat, 5645
- primary reinforcement frequency, chained vs tandem fixed-interval schedule, 8646
- probability reinforcement, least-frequent sequences of choices, pigeon, 5751
- progressive ratio schedule, breaking point measures correlation with day to day body weight change, rat, 8633
- & punishment schedule concurrent, pigeon, 409
- random reinforcement, maze learning, & stimulus presentation rate, rat, 16412
- reaction time, & ready cue, children, 16194
- reaction time, choice behavior, children, 8304
- reinforcement/primary & conditioned, extinction, pigeon, 11667
- response inhibition, frontal ablations & caudate-putamen lesions, food-deprived rat, 14798
- response pause & rate, fixed ratio schedule, pigeon, 2630
- & response rate & accuracy, simultaneous discrimination task, pigeon, 10158
- response rate & sucrose preference, rat, 408
- response rates & probability of reinforcement, pigeon, 7040
- response variability, 1st grade students, 4382
- & retention & transfer, consistent & partial & no reinforcement, 226
- & reward shift, continuous vs partial reinforcement, start & goal speeds, rat, 8641
- & runway speed & 24-hr intertrial interval, rat, 407
- schedule-induced polydipsia, time & response dependent food schedule discrimination, rat, 14938
- secondary reinforcement by stimuli associated with primary reinforcement, & performance maintenance, rat, 2629
- & secondary reinforcer strength, rat, 1336
- shifts, instrumental conditioning, extinction resistance, rat, 11660
- shock & maintenance of responding, monkey, 13373
- signal detection, response bias & stimulus parameters, 2308
- sinusoidal time-varying schedule, pigeon, 14992
- social disruption, performance, arousal, rat, 8659
- spaced responding, 10-sec. differential reinforcement, removal of ratio lever & fixed-ratio reinforcement, rat, 13367
- teaching machine & programed text learning, results confirmation schedule, 6th grade students, 7949
- time dependent food reinforcement schedule, & water consumption, rat, 1345
- time in goal box, frequency & schedule of reinforcement, rat, 7037
- training on single task & transfer to multiple task, rat, 8627
- & type, & instruction, learning acquisition & extinction phase discrimination, 3879
- variable interval & fixed ratio schedules in alternation & concurrent discriminated fixed ratio avoidance, pigeon, 10145
- variable interval, positive reinforcement, punishment during training, extinction, rat, 7038

- variable interval, stability of key pecking 18 months later, pigeon, 8636
- variable interval & water vs saline load in stomach, bar pressing rate, thirsty rat, 10180
- variable interval training, subsequent multiple low rate variable interval vs fixed-ratio training, behavioral contrast & relative reinforcement frequency, pigeon, 8629
- variable-interval & intermittent conditioned reinforcement & response rate, rat, 413
- verbal learning, right-blank vs wrong-blank, 4 alternative discrimination task, 2413
- & vicarious conditioning, children, 2707
- Reinforcement/Delayed**
- acquisition asymptote, extinction resistance, rat, 7046
- choice behavior, pigeon, 5743
- choice-behavior, & delayed positive & negative reinforcement, & time, & probability, children, 4365
- classical aversion conditioning, & stimulus-response contingency, 14643
- differential conditioning, rat, 11624
- differential reinforcement delay conditions, goalbox confinement shifts, extinction resistance, rat, 11659
- discrimination learning, & distraction, mentally retarded children, 17040
- escape performance, alternation & random presentation, children, 4389
- extinction resistance, acquisition trials, rat, 5748
- fixed-ratio performance, tongue-lick, lickermund apparatus, rat, 5303
- food deprivation, inter-response & reinforcement times, body weight, rat, 10152

 interresponse times, learning, extinction, discrimination, generalization, computer analysis, pigeon, 8605  
 interference, primary & secondary message, 16179  
 inter-response relationship, reaction time delay, interstimulus interval, stimulus intensities, 11321  
 interresponse time, septal lesion & water deprivation, rat, 13168  
 interresponse time punishment, food-based timing behavior, rat, 11658  
 inter-S instruction response differences, autokinetic word technique, replication, 13684  
 judgmental & associational response measures, word associations, 8856  
 key peck response, continuous reinforcement, redtailed & Cooper's hawks, 14986  
 latency & probability & size of sample, visual pattern discrimination task, 9836  
 latency, syllable identification, auditory search task, sentence length, college students, 13556  
 learning, amount of stimulus information, visual discrimination, 9709  
 learning & retention of consistent associative responses, stimulus meaningfulness & similarity, 14626  
 learning transfer, paired associate learning, presentation order, 8347  
 learning/sentence, noun response strength, word order & active vs passive constructions, 2406  
 literature humor responses & judgments & choices, 5th grade students, 10225  
 locomotor response extinction, recovery, reward delay, rat, 11665  
 matched responses to reinforcement probability, learning & motivation, rat, fish, 4281  
 meaningfulness, verbal paired associate learning, social class, Mexican-American & Anglo-American 5th grade students, 11726  
 method of generated responses vs paired associate learning, retention, college students, 8323  
 mode, risk taking, & payoff & probabilities, 13126  
 mode, teacher role, achievement, attitude, programmed instruction, 6th grade students, 10989  
 model response behavior role appropriateness, imitation, 1st & 2nd grade boys, 10311  
 model/randomized response, sample surveys, 16019  
 multiple response contingencies & Premack's reinforcement principle, rat, 10161  
 nature, nature of auditory stimulus, detection performance, reaction time, 14542  
 negative responses of students, counselor reinforcement, 17001  
 noise & anxiety, & physiological response patterns, 2566  
 novel situations/to, rhesus vs langur monkeys, 16381  
 number & time, fixed interval & ratio discrimination, pigeon, 4303  
 observing response choice, cued psychophysical task, 16255  
 observing response procedure, matching-to-sample performance, problem solving instructional set, kindergartners, 14726  
 olfactory responses & chemical reaction to odors, termite, 15016  
 opinion questionnaires, phrase construction & differential responding, 8141  
 optomotor response development & schooling behavior, fish, 10177  
 optomotor turning response, heritability, threshold determinations, fruit fly, 14904  
 organization, stimulus coherence, secondary tasks, sequence length, task coding, 6622  
 orienting & defensive responses, electric shock conditioning, Sokolov's theory, 11357  
 paired associate learning, & stimulus availability, articulation, 1132  
 partial reinforcement effect & competing responses, rat, 2628  
 passive avoidance response, & shock memory, intracerebral actinomycin D, electroconvulsive shock, RNA synthesis, rat, 4127  
 patient's quantitative response, physician's verbal stimuli, medical diagnostic interview, 7284  
 persistent response sequences, food deprivation, rat, 6992  
 physiological & attitudinal responses, arousal stimulation, negotiation task, college males, 11302  
 physiological response to multiple stressors, 2564  
 position & stimulus generalization, rat, 1301  
 position responding, discrimination learning, choice latency, transfer, continuity theory, rat, 11339  
 potentiated startle response, drug effects, classical conditioning, rat, 8490  
 priming of association test responses, 13019  
 Prisoner's Dilemma game responding, strategy change, 5913  
 probability, reinforcement, contingent behavior, college students, 11372  
 probability, salivary conditioning, UCS intensity, high school students, 11344  
 productivity, Rorschach stimuli attention-demand value, card complexity, 13662  
 programmed educational TV, 7th graders responding, 9463  
 programmed learning, competition & observation, student response rate, 5078  
 promptness in verbal responses, computer analysis, 14429  
 punishment & aggression in fantasy responses, age differences, antisocial boys, 10677  
 punishment probability & frequency, response suppression & recovery, rat, 10166  
 range, magnitude estimation of circle size & numerosness, & line length, individual differences, 5326  
 rate, alternating high & low frequency of reinforcement each with particular stimulus, rat, 10148  
 rate, brain stimulation, shock intensity & duration & frequency, rat, 9991  
 rate & correlation between response-contingent shock & reinforcement availability, rat, 10157  
 rate, decision making, 14743  
 rate, fixed interval duration in 2 component chain schedule, pigeon, 11649  
 rate, methamphetamine reinforcement, rat, 14868  
 rate, reinforcement schedule adjustment, pigeon, 11652  
 rate & reinforcement schedule & accuracy, simultaneous discrimination task, pigeon, 10158  
 rate, stimulus, disinhibition, rat, 11623  
 rate & sucrose preference, rat, 408  
 rate as response measure, social reinforcement, children, 8362  
 rate in cyclical schedule of reinforcement, pigeon, 11653  
 rate/absolute & relative, probability learning, rat, 11615  
 rates, methylphenidate, reinforcement schedules, squirrel monkey, 14874  
 rates & probability of reinforcement, pigeon, 7040  
 reaction time, stimulus presentation & response mode, presentation probability, 3858

- rearing frequency to unavoidable shock, rat, 13378  
 rearing response, amphetamine sulphate & sodium amytal & adrenaline & methypentynol, rat, 13244  
 rearing response to novel environment, sex & strain differences, rat, 13330  
 reinforced response, classical conditioning & extinction transfer, stimulus generalization, incentive motivation theory, learning, rat, 7006  
 reinforcement/fixated ratio, response pause & rate, pigeon, 2630  
 repetition, & stimulus alternation & circular behavior, age differences, 6-8 yr old children, 16485  
 reserpine & extinction-induced increase in response rate & brain catecholamine concentration, rat, 10043  
 response & stimulus commonality & uniqueness, 9661  
 response & stimulus connotative similarity, paired associate learning, 8337  
 response-class similarity, retroactive inhibition, paired associate learning task, college students, 11364  
 response-contingency, anxiety, human gastric acidity, 11219  
 response-contingent punishment, consistency, adaptation, occurrence frequency, stutterers, 7685  
 response-correlated reinforcement, intentional & incidental learning retention, college students, 6658  
 response-cued behavior, frontal lobe lesions, cat, 14802  
 response-produced stimuli, discrimination, reinforcement schedule, learning theory, rat, 13352  
 responses to psychological treatment & counselor, attraction, communication discrepancy, college males, 12539  
 responses/dominant & subordinate, cognitive dissonance as drive, college students, 9781  
 response-stimulus paired associate learning during stimulus-response learning, interference, 13011  
 retention interference, metrazol vs ECS, rat, 14864  
 scales/unbalanced, explicit standards, judgments, college students, 12924  
 selection, attention to states of several variables, same vs different categories, 9816  
 selection in verb pair, instructions & motivation, nonreinforcement conditions, 5514  
 self-discloser's responses/high & low, 2 types of interviews, presentation order, 11971  
 self-report & picture identification & social desirability responses, autobiographical & non-autobiographical statements, college students, 13680  
 semantic differential response style, cross-cultural differences, sex differences, Japanese & American college students, 5879  
 sentence completion test responses, academic achievement & attitude, achievement need, self concept, college students, 9367  
 shift, prefrontal lesion, & stimulus-shift, monkey, 294  
 shift errors in paired associate learning, induced muscular tension, 5470  
 short term memory, verbal learning, 8368  
 signals encoded in time only, response sequences, key press task, 9826  
 similarity/intralist response, eye movement, learning, 16121  
 somatic responses, anxiety scale, reliability, factor analysis, sex differences, neurotics, 14594  
 species-typical responses to novel stimuli, biological theory of reinforcement, 5745  
 specificity, stress, schizophrenics, 709  
 speech part/& stimulus, paired-associate learning, college students, 14668  
 speed & choice, spatial discrimination learning, food ration, rat, 11635  
 speed as indicator of incentive value of reinforcer, high vs low reward, 8206  
 speed offset of novel vs familiar stimuli, children, 14506  
 spinocervical tract response facilitation & limb stimulation, nembutal narcosis, cat, 14779  
 spoken response to stimulus, age & sex & socioeconomic & E differences, children, 8675  
 spontaneous response/correction for, estimation of true response frequency & latency as function of stimulus, 9614  
 S-R compatibility & stimulus uncertainty, digit coding speed, 175  
 S-R temporal relations, running speed, frustration effect, generalization, rat, criticism, 5725  
 S-R temporal relations, running speed, frustration effect, generalization, rat, reply, 5724  
 stimulus & choice response compatibility, reaction time, 16252  
 stimulus & response integration, paired associate learning, training transfer, college students, 11366  
 stimulus change, opossum, 16385  
 stimulus choice, uncertainty reduction, monkey & baboon, 16403  
 stimulus vs response frequency, choice behavior, reaction time, 5436  
 stimulus-response compatibility, choice reaction time, signal discriminability, 9837  
 Stimulus-Response compatibility & reaction time, information processing task, 12999  
 stimulus-response complexity, reaction time, schizophrenics, comment, 16914  
 stimulus-response complexity, reaction time, schizophrenics, defense, 16928  
 stimulus-response reactions & information condensation & expectation & reaction time, 9811  
 stimulus-response similarity, paired-associate learning, tachistoscopic recognition thresholds, word frequency, 8357  
 strength, reward learning delay, activity, physical confinement, rat, 11622  
 strength & stimulus intensity, Hullian & Perkins-Logan theories, 2307  
 strength hierarchy stability, continued word association, 5932  
 stuttering as stimulus response, & higher order conditioning, 1802  
 style, & attitude, conformers, independents, anticonformers, 5896  
 style & attitude scales, T-Scale, 2256  
 suppression, & anxiety, & reward & punishment schedules, 1151  
 suppression, contingent vs delayed punishment, shock intensity, rat, 8648  
 suppression & CS variability trial to trial & UCS intensity, CER in rat, 11663  
 suppression, operant response pacing, 14951  
 suppression, shock intensity & duration, rat, 4335  
 suppression & vacation from punishment shock, pigeon, 13381  
 suppression by punishment, alcoholics, 8539  
 suprathreshold olfaction responses, liquid food diet attractiveness, rat, 10188  
 survey interview response quality, respondent education & interviewer-respondent interaction, 6404  
 switch-light task performance, distraction, & response alternatives, & response chains, trial & error learning & reasoning, problem-solving, 3951  
 TAT response characteristics, academically successful & unsuccessful & problem 10th grade boys, 7846  
 TAT/of, & immediately recalled dreams, need analysis, 13663  
 temptation responses, delayed reward expectancy, situational trust, elementary school boys, 11311  
 tickling/to, nonnutritive sucking, neonates, 16468  
 time, instructions, selective attention, 12987  
 time, passed & failed items on Columbia Mental Maturity Scale, mental retardates, 3230  
 time restriction, cognitive style scores, 2nd graders, 13418  
 timed quantity, age & individual differences, 3852  
 tone discrimination, stimulus intensity & response strength, rat, 10132  
 transfer, meaningfully similar & associated stimuli, separate-lists design, 8342  
 transfer/free-operant test of, rat, 11620  
 UCR diminution, classical GSR conditioning, shock intensity judgments, college males, 6647  
 uncertainty, tachistoscopic recognition, & familiarity, 14525  
 uncertainty/& stimulus, reaction time, 12997  
 unconscious self-evaluation, perceptual defense, tachistoscopically presented pictures, 5947  
 understanding, infants, 11693

 storage vs retrieval, missing scan vs digit scan, 241  
 tachistoscopic material identification, discriminability & retention, 2301  
 thalamic lesions, avoidance task, rat, 16286  
 transpositions in short term memory, during retrieval vs storage, same vs different category trigrams, retention interval, 8376  
 UHF radio field, verbal learning, 9762  
 & unlearning resistance & original learning, 1158  
 verbal materials, competition & unlearning, 1159  
 Visual Retention Test performance, brain damaged, 3218  
 visually conditioned avoidance response, retention following bilateral occipital ablation, rat, 13187  
 word-pairs, graphemic & phonetic & associative cue use, deaf, 15646  
 working capacity/of, paranoid schizophrenics, case report, article in book, 15554
- Reticular Formation**  
 ablation of mesencephalic reticular formation & nucleus centrum medianum & midline nuclei, evoked response to somatic & visual & auditory stimuli, cat, 9959  
 arousal, chlorpromazine, breath rate & speech output, individual differences, 8505  
 auditory evoked response to clicks & shock, electrical stimulation of mesencephalic reticular formation, monkey, 11481  
 auditory stimuli/intense, chronic vs acute stress, hypothalamus & reticular formation changes, rat, 6931  
 brain lesions, sensory evoked potentials in reticular formation & sensorimotor cortex, cat, 5558  
 cerebral cortex, & thalamoreticular signals, sleep, 6755  
 chemical sensitivity, cholinergic & adrenergic systems, rabbit, 6740  
 chlorpromazine therapy & convulsive seizure & hypothalamus, schizophrenia, 7455  
 conditioned motor reflex connections, EEG during closure, cortical layers & subcortical formations, theoretical analysis, 9948  
 EEG loci, electrical & visual & auditory stimulation, 5613  
 EEG theta rhythm, coagulation of septum & extirpation of reticular formation area, medial thalamus & visual cortex inhibition, rabbit, 10015  
 electrical stimulation, cortical sensory-evoked potentials, EEG, ganglione & atropine & chlorpromazine, cat, 5562  
 electrical stimulation & excitability of cerebral cortex, serotonin & mepharmine, rabbit, 16289  
 electrical stimulation & neurotropic agents, thiopental narcosis & EEG changes, rabbit, 4188  
 electrical stimulation, operant behavior, rat, 4055  
 electrical stimulation of & thalamic nuclei, recruiting response, cat, 13193  
 electrical stimulation of visual pathway, cerebral & cerebellar cortical response, frequency & intensity of reticular formation stimulation, cat, 14808  
 estrous cycle & reticular formation damage & thyroid deficiency, rat, 13176  
 excitation locus, strychnine, rabbit, 4041  
 excitatory centers, strength of polarizing current & excitation & inhibition, strychnine as excitant, historical survey, 14778  
 extinction/salivary CR, food deprivation & reinforcement, rat, 4336  
 lesions in internal capsule & midbrain reticular formation & hypothalamus, unilateral vs bilateral, aphagia & adipsia, rat, 9966  
 lesions in midbrain, open field activity & conditioned avoidance learning, rat, 9970  
 mesencephalon, stimulation, cat, 4040  
 reticular & thalamic multiple unit activity during wakefulness & sleep & anesthesia, 16272  
 schizophrenia, central adrenergic & cholinergic structures, EEG, EKG, GSR, respiration, 7591  
 sleep & EEG desynchronizing systems, 308  
 sleep/neural mechanisms of, midline thalamus & lateral forebrain, EEG, 14589  
 & somatic areas of cortex, cat, 280  
 somatosensory thalamic neurons/deafferented, cortical spreading depression & stimulation of reticular formation, 14787  
 & spinal cord connections, lesion of posterior vs dorsal part of lateral columns, degeneration, cat, 13185  
 stelazine, brain & behavioral changes, dog, cat, monkey, 6896  
 stimulation & electrodermal activity & stages of sleep, 6836  
 subcortical formations vs cortex, brain & consciousness, Pavlov vs Penfield, USSR, 16274  
 surgical method for isolated area, ruminants, 11462  
 thalamic nuclei stimulation, cortex & reticular formation EEG & behavior patterns, cat, 11470  
 & vestibular system, stimulation & nystagmus, cat, 2469  
 visual cortex neuronal activity modification by sound & by electrical stimulation of midbrain reticular formation & paw, rabbit, 11433

### Schizophrenia/Childhood

& adult hospitalization factors, 1762  
 aspiration level, oligophrenia & organic disturbances of CNS, 12227  
 behavior therapy for stuttering, case report, 7632  
 catatonic syndrome, & adolescents, prognosis, 10766  
 child rearing, 3146  
 chronic organic schizophrenia-like psychosis, differential diagnosis & therapy & characteristics, 16915  
 classroom behavior, severely disturbed institutionalized 5-9 yr olds, behavior modification model, 9015  
 definition & psychotherapy, 7575  
 depersonalization, 10752  
 diagnosis, mentally retarded infants, 15705  
 diagnosis & rehabilitation, schizophrenic children, 1747  
 diagnosis, vs deafness & mental retardation, case reports, 10660  
 diagnosis, vs dementia infantilis, 10651  
 diagnosis, vs psychoses in oligophrenia, 10668

diagnostic problems, 15544  
 distancing & distance devices, nonmetric topological constructs, & borderline states, 7559  
 double blind, reviews of research & theories, 10760  
 EEG, slow waves, & adolescents, 10736  
 endocrine disturbances, & adolescence, 16916  
 endocrine disturbances, childhood & adolescence, 16916  
 etiology, 15552  
 etiology, case report, 10787  
 etiology, heredity vs psychogenic trauma, adolescents, 10763  
 extinction of head-bumping & behavior therapy, case report, 12270  
 family patterns, development, sex differences, hospitalized, 7577  
 fear syndrome, & adolescent schizophrenia, 10750  
 fluphenazine therapy, resistance to other neuroleptics, 9040  
 handwriting analysis, quadruplets, 9081  
 Hoffer-Osmond Diagnostic Test, reliability, 14445  
 hospitalization, premorbid social adjustment in preadolescence & adolescence, prognosis, 16922  
 hypnosis & active psychotherapy & neurotic children, 10596  
 infantile schizophrenia & psychotic father, case report, 14026  
 insulin therapy, prognosis & effectiveness, & adolescents, 16952  
 intelligence of suburban preschizophrenic children vs siblings, 10756  
 language differential diagnosis, aphasic & schizophrenic children, 7499  
 maternal psychopathology, role in development of male vs female schizophrenics, 13978  
 mental retardation tests, oligophrenics, 2-5 yr olds, 12191  
 onset data & prognosis, heredity & family background, 3139  
 operant conditioning, behavior change, training school, & retarded boys, 9010  
 operant conditioning, speech & social behavior, 7593  
 operant conditioning procedures, behavior problems, 3 yr old autistic boy, case report, 12285  
 parental demographic characteristics, survey, 9158  
 pregnancy complications, 9164  
 prenatal & early development, 3-15 yr olds, 3151  
 process/symptoms, inert & attack-like, affective & delirious & catatonic states, childhood origin, 7608  
 psychic development/uneven, case reports, 10779  
 psychotic children, diagnosis & prognosis & therapy, infantile autism, schizophrenia, brain damage with psychosis, 5 yr follow-up, 9148  
 reality testing, problems in treating allegiance to inner world reality, 9159  
 rehabilitation, 13973  
 review of Soviet literature, 12208  
 schizophrenic adolescent girl, introjection & projection, case report, 6136  
 secondary mental deficiency, & adolescence, 705  
 self-mutilation, individual & sex differences, 15555  
 sibling abnormalities, 1v925  
 & social class & other demographic variables & hospitalization duration, 9175  
 social reinforcement & food, conditioning, 1757  
 Society School for Autistic Children's program, teacher-child relationship, student grouping & curriculum, social orientation, 5009  
 special education, standard materials use, 3130  
 speech attributes scored by judges, 10755  
 suffering, infanticide wish, psychoanalytic interpretation, 4733  
 symptoms & diagnosis, vs encephalopathic oligophrenia, 10666  
 symptoms during protracted initial period, adolescence, 10746  
 theory, traditional endogenous sickness vs adult-like schizophrenia, 12189  
 thought process in comparison of visual objects, epileptics vs oligophrenics vs normals, 12367  
 treatment by volunteers, day care institution, 9043  
 vascular tonus, acute & slow onset schizophrenia, & adolescents, 16917  
 verbal & nonverbal autistic children, operant conditioning reading programs, 5013

**Schizophrenia/Chronic**

abstract thinking, extraneous stimuli, 10744  
 adjustment & sociometric choice & day center attendance, 3125  
 & aphasics, laboratory language & association experiment, 12118  
 arousal level & interpersonal connotation, quality of performance, alcoholic, 1699  
 behavior therapy, establishment of stable eating pattern, extinction of glass breaking habit, case report, 15585  
 behavior therapy for apathy, reinforcement schedule, institutionalized females, 4700  
 body image disturbance, 13997  
 carphenazine, safety & effectiveness, women, 7447  
 catatonic, obsessive-compulsive constellation, case report, 9186  
 ceruloplasmin increase, 10751  
 chlorpromazine & benzquinamide therapies, 4709  
 chronicity code, chronic hospitalized schizophrenics, 3140  
 community mental health program, long stay & readmittance groups, 4723  
 diagnosis/differential, book, 4753

 employment in factory for 1 month, 12193  
 fluphenazine enanthate, withdrawal of phenothiazines & regression, 15423  
 GSR base level & tonic arousal & adaptation, Montrose Rating Scale & phenothiazine, 10732  
 haloperidol vs trifluoperazine therapy, 1205m  
 hostel under psychiatric hospital, rehabilitation or permanent home, 7484  
 hydergine, reduction of neuroleptics, chronic psychoses, 13794  
 IQ, & recovered schizophrenics, 6108  
 language, & narcissism, 5 yr study, 1746  
 leucotomy & rehabilitation, behavior & work performance, 7594  
 mesoridazine therapy, biochemical & psychological & psychiatric effects, 7448  
 neuraminic acid metabolism & level in blood, vs other psychotics, 7590  
 & neuroglial changes, 7612  
 outpatients, placebo & phenothiazines treatment & rehospitalization rates, 4707  
 paranoid, symptoms, 12226  
 performance, instructional set, task complexity, 16907  
 phenylcyclidine, clinical & EEG changes, lobotomy, 10609  
 protein factor in blood plasma & family members, 7613  
 Proverbs Test, alternate forms of multiple choice version, 4746  
 readmission to institution/chronic, patient's writings & photos & newspaper clippings, case report, 14018  
 rehabilitation, leucotomy effects, 7595  
 reinforcement by parents or peers, deviant behavior, sex of social agent, children, 15042  
 reminiscence, rest interval, pursuit rotor task, 6120  
 response disorganization & observation behavior, & acute schizophrenia, 707  
 self-recognition, tachistoscopic presentation of own Draw-a-Person Test, 13979  
 severity of illness, personality characteristics & sex differences & current functioning, 15553  
 social conditions/response to, 1759  
 social therapy, 13986  
 speech perception, message load & presentation, chlorpromazine & amphetamine, 3142  
 television broadcasts of group psychotherapy meetings, 7417  
 tension arousing film & physiological responses, 4805  
 thresholds/auditory & visual, withdrawal, paranoia & non-paranoia, 7618  
 time perception & fixation, stated & real age, 10748  
 tranquilizers & Trail Making Test, 10045  
 treatment & diagnosis of non-organic psychiatric patients, 15537  
 treatment, milieu & activation & occupational therapies, 13976  
 trifluoperazine & carphenazine & chlorpromazine, psychological & autonomic functioning, 12221

urinary amines, 2533

urine/pink spotted, chemical analysis, 5633  
 verbal conditioning, operant level & interview with E & awareness of conditioning, 10739  
 verbal paired-associate learning, positive & negative evaluation, self-image, 7601  
 visual recognition, & acute schizophrenia, 13974  
 vocational rehabilitation counseling, role of counselor, 7652  
 work/remunerated, behavioral changes, 15393

**Schizophrenia/Learning & Cognition in**

aesthetic preference, verbal disapproval effect, 710  
 attention, chlorpromazine & trifluoperazine & insulin, 12066  
 cognitive function tests, motivation, longitudinal study, 7574  
 cognitive style & overt symptomatology, 1760  
 comparison of similar & dissimilar object pairs, method, 12211  
 concept formation, verbal & nonverbal feedback, 7619  
 concept formation task, social class, 12194  
 concept identification, 16941  
 conceptual comparisons test, oligophrenics vs schizophrenics vs epileptics vs normals, 12257  
 conditioned trace vascular reflexes, 9154  
 conditioning & EEG, 11936  
 construct utilization disorders, thinking about objects vs people, 706  
 delayed reinforcement learning, 16906  
 distractibility, visual & auditory short-term memory test, hebephrenic & organics vs paranoids & normals, 12209  
 emotive-volitional changes, with psychogenically conditioned relapses, TAT & aspiration level, 12196  
 fixation of time perception, chronic Ss, 10748  
 hospitalization, subliminally presented drive stimuli, ego impairment, 13994  
 hospitalization effect, verbal conditioning, 1749  
 hospitalization length, positive & negative reinforcement, probability learning task, 7587  
 incidental learning, chronic schizophrenics & alcoholics & normals, paired associate lists, 5991  
 inkblot test, nonschizophrenic differentiation, 3135  
 mental retardation tests, oligophrenics, 2-5 yr olds, 12191  
 methods to investigate cognitive disturbance, review, USSR, 12215  
 name free recall & verbal learning, associative interference, process-reactive, 4813  
 paired associates/of, process & reactive, 7564  
 patient, drawings as indication of thought disorder, art therapy, case report, 14022  
 Piaget, Decentering theory, impersonal & interpersonal cognitive structuring, symptomatic behavior, 3623  
 process & reactive, & brain damage, abstraction & social communication scores in conceptual thinking tasks, 5994  
 psychic development/uneven, case reports, children, 10779  
 reaction time & stimulus-response complexity, 4812  
 reinforcement effects, 3141  
 response disorganization & observation behavior, acute vs chronic, 707  
 schizophrenia, overinclusion of concrete material, 15561  
 sensory deprivation & stimulation, cognition, 16934  
 shifts/intradimensional & extradimensional, abstract & concrete schizophrenics, 16937  
 social reinforcement & stimulus generalization, paranoid & nonparanoid schizophrenics & normals, 6114  
 speech/rambling, accidental associations, 12337  
 task performance, praise vs censure as reinforcement, 3132  
 thinking disorders & aspiration level & TAT, simple schizophrenics, 12206  
 thought disturbances, paranoid schizophrenia, 12224  
 thought process in comparison of visual objects, epileptic vs oligophrenic vs normal children, 12367  
 verbal abstraction, literacy, Iraq, 6106  
 verbal correct-incorrect vs evaluative reinforcement, 6110  
 verbal learning, phenothiazine drugs, 1761  
 visual identification with insufficient information, method, 12192  
 visual identification with insufficient information, 12202  
 WAIS, Performance vs Verbal, manic-depressive reaction & psychotic depression & neurosis, 13951

 verstehen, & ideal self, social research, M. Weber, 8106  
 verstehen, social research, contribution, 8113  
 visual imagery or pictorial cognition & affectively charged memories & ideas & impulses, 7376  
 word responses to letter & meaning cues & word frequency, 2850  
 working conditions & tensions, scientists & engineers, 14286  
**Thirst** (see also Water Deprivation)  
 cognitive control, 1086  
 cognitive control, 5502  
 dove, phase relations in feeding & drinking, 6571  
 food & water preference, hunger, rat, 5706  
 goal-box confinement duration & removal mode, rat, 11655  
 human, review of physiological & comparative studies, 6749  
 hypothalamus mediation & spinal reflex facilitation, salt arousal, rat, 283  
 imagery/spontaneous vs stimulus-related, drive, 153  
 physiological psychology textbook, 3980  
 selective focusing, & hunger, rat, 380  
 self-stimulation of lateral hypothalamus, self-induced thirst as reward, satiated rat, 14804  
 spontaneous salivation rate, water reward. \*thirsty dog, 4325

## Threat

water intake & free fixed interval sucrose food reinforcement schedule, rat, 10149  
water vs saline preference in T maze, reinforcement value, rat, 4319

## Threat

attractiveness of forbidden toy, threat severity, boys, 15043  
cognitive dissonance, children, severity & pre & post-temptation evaluation of objects, 4360  
concept formation, threat instructions & anxiety, interpolated frustration task, high school students, 7922  
evaluation, & action decisions, air raid watchers, 3966  
evaluation of military threat, decision behavior, 14278  
fear heightening, anticipation of event, 5417  
goal motivation & negative affect response to threat, 2865  
& inborn fear response to threat pictures, monkeys reared in isolation, 2613  
interpretation, war strategy, 13562  
motor performance, anxiety & attention, 6627  
perceptual defense, metacontrast technique validation, 8904  
personality & psychological & physiological responses, threat movie vs shock, 11579  
physical, lab procedure for inducing physical threat stress, observation & measurement, 6476  
psychological reactance to threats on behavior freedom, theory, book, 8061  
punishment threat, ethical risk, censure-avoiding behavior, college students, 8399  
pupillary response, 8281  
reaction, birth order, 14591  
reminiscence/rotary pursuit, shock threat & drive, 12974  
safety films, high vs low threat & physiological responses, 8025  
self-disclosure under threat, anxiety & group cohesiveness, 7257  
shock, & anxiety, & humor rating, 156  
shock, & heat pain threshold, 155  
shock threat, & heart rate, high & low shock fear & anxiety, 5675  
signals/& submission, male bison, 13387  
stimuli effects, process & reactive schizophrenics, 4799  
verbal conditioning, & anxiety & awareness, college males, 2401

## Threshold

absolute, magnitude of current volume of gas & concentration of odorless molecules, olfaction, 11497  
absolute auditory thresholds, meprobamate, graduate & undergraduate students, 14877  
acoustic stimuli & discrimination thresholds, stimulus intensity, goldfish, 15018  
anal words auditory & visual thresholds, sublimation, 6360  
audition, central masking, contralateral threshold shift, steady state & pulsed maskers, 5385  
audition, determination method, decision parameters, 2340  
auditory & visual sensory interaction, bisensory threshold determination, signal detection theory, 6499  
auditory shifts/temporary, after noise, 5389  
auditory temporary threshold shifts, combined impact & steady-state noise, 5388  
auditory temporary threshold shift, monaural & binaural exposure, 16127  
auditory threshold, frequency discrimination, noise, 8255  
auditory threshold, UHF radiation exposure, 14536  
auditory threshold measurement, turtle, 1382  
auditory threshold measurement, positive reinforcement, cat, 13393  
behavioral arousal threshold, hunger, rat, 8586  
biological clocks, reaction time periodicities, eye movements & visual threshold & EEG, 9663  
bone-conduction, ear, 14563  
bone-conduction thresholds/monaural, forehead & mastoid positions, 2 hearing-aid type vibrators, 12936  
brightness discrimination thresholds, conditioned suppression, pigeon, 1315  
color separation, colored targets & colored grounds, 129  
contour effect, pause between disk & ring, critical pause threshold, 12923  
detection, & stimulus-response contingency, 81

## SUBJECT INDEX

## Threshold

determination, response frequency & latency & Bayesian statistics, 84  
determinations, optomotor turning response, heritability, fruit fly, 14904  
difference thresholds, visual pattern discrimination, Gestalt similarity principle, 14522  
electric shock thresholds, pain attitudes & ethnic differences, psychophysical & skin potential responses, instructional sets, 5402  
electrical pain, neurological & neurosurgical patients, 5530  
electrical stimulation of fingers & subsequent sensation threshold, 8449  
flash threshold, arousal, & basal skin conductance, dexedrine, psychiatric & surgical patients, 6743  
flicker thresholds localization in visual field & brain damage localization, 293  
flutter-vibration mechanical sensibility, 4095  
fusion of 2 clicks vs 2 flashes, schizophrenics vs normals, 4826  
heat pain, & threat of shock, 155  
heat pain, optimum interval for assessment, 16149  
impulse noise exposure, temporary threshold shift reliability, 1077  
interaural intensity difference, 2338  
loudness thresholds, vision, attention, 16105  
measures & signal detectability, 1034  
method of limits vs method of constant stimuli thresholds, psychophysical methodology, 12867  
modulation thresholds, amplitude-modulated & quasi-frequency-modulated tones, quality differences, 8256  
monochromatic threshold, infrared effect, 6522  
olfaction, temperature effects, ethyl alcohol, 5393  
olfactory thresholds, temperature, 1222  
optic nerve/single fibers of, cat, 6496  
orally-retained liquid bulk, scaling by constant method & ratio estimation, 6495  
Pacinian corpuscles, mechanoreceptors, frequency response, 316  
pain, & tolerance, white noise, 4094  
pain, measurement, electrical stimulation, 2344  
pain, repetition of determination in different body area, 141  
pain & touch & temperature, burn patients, 3815  
perceptual grouping, orientation changes, shape changes, threshold judgments, 109  
photomyoclonic & proheptatrien therapy, endogenous depressives, 12056  
pupillary response, visual threshold, 1054  
recognition thresholds & accuracy, body region, electrode number & spacing, 5568  
respiration changes at visual & auditory thresholds, 6747  
retina scotopic thresholds, detection psychophysical thresholds & EEG, 6542  
sedation threshold, chronic psychotics, 13797  
shifts, forward masking, auditory signal frequency, 16124  
smell, rest & exercise, 8262  
smell threshold & CNS function, 2342  
stimulus length difference threshold, simultaneous & non-simultaneous viewing, Weber's law, 9671  
subliminal perception & perceptual defense, 9666  
subliminal stimulation response/aggressive, drive arousal, 16166  
subliminally presented drive stimuli, ego impairment, hospitalized schizophrenics, 13994  
suprathreshold olfaction responses, liquid food diet attractiveness, rat, 10188  
supra-threshold phenomena, middle ear muscle activity, rabbit, 1384  
tachistoscopic recognition thresholds, paired associate learning, word frequency, stimulus-response similarity, 8357  
tactile thresholds, cross-modality masking, auditory stimulation, time interval, 11214  
thermal stimulation threshold cutaneous sensitivity, cat, 4346  
threshold/2 flash, cortical arousal, college students, 12922  
thresholds/phi, apparent movement, cerebral palsied children & adults, 14105  
time differential, 14510  
touch & pain thresholds, electropulse stimulation, body region, individual differences, 5395

- touch thresholds, onset & offset skin stimulation, 12952  
training & order of presentation, olfaction, hydrogen sulfide, 5394  
vibration, research method, piezoelectrically based apparatus, 6572  
vision, food deprivation, 6927  
visual acuity, over wavelength spectrum, monkey, 1386  
visual recognition/subsequent, serial learned CVCs, 8354  
visual sensitivity, electromyography, motor response, 5349  
visual tachistoscopic thresholds after paired associate learning, 12927  
visual thresholds, sound, neurological model, brain damage, 6840  
vocalization thresholds, vigilance states, electroshock, age differences, rhesus monkey, 8406
- Time** (see also Perception/Time, Reaction Time)  
100 yr olds, memories & future ambitions, time perspective, 7163  
24 hr vs 30 min saccharin & sucrose intake, rat, 14935  
24-hr intertrial interval & runway speed & reinforcement schedule, rat, 407  
2-person arms-race game, intention disclosure timing, cooperation, 9928  
4-yr interval/language changes within, individual differences, children, 16659  
acquisition rate & stimulus exposure & test delay interval, retention, 11376  
anticipation interval & conceptual similarity, verbal discrimination transfer, 13040  
anticipation interval & mediation locus, transfer learning, 13055  
anticipation time, stimulus association & duration, paired associate learning, 13044  
anxiety incubation, delayed response generalization, 12975  
anxiety/trait & state, & stress & relaxation, 3834  
aphasia, intersound interval & same-different discrimination of syllable pairs, 6169  
apparatus, exposure control for Kodak Carousel Model 700 projector, 8189  
apparatus, repeat cycle timer, visual stimulus presentation & other uses, 8201  
apparatus, timer, 11205  
attention to input channels & transfer of information between central stages, temporal process as succession of equally-spaced points, 9803  
attention to sequential events, trial length & rate of presentation, 8294  
attitudes toward future, sex differences, old age, 15166  
auditory narrow-band frequency contour development, 16123  
automobile accidents & mental hospitalization, 15433  
biological clocks, reaction time periodicities, eye movements & visual threshold & EEG, 9663  
brain biological clock, EEG & GSR & electro-oculogram, 4081  
causality & functional dependence, simultaneity of causes & effects, USSR, 9527  
choice-behavior, & delayed positive & negative reinforcement, & probability, children, 4365  
choice-response time & time to detect errors, 9810  
circadian rhythms, statistics for estimation of length of period of spontaneous activity, kangaroo rat, 9936  
circadian rhythms, statistics for estimation of length of period of spontaneous activity, kangaroo rat & gila monster, 10095  
classical eyelid conditioning, interstimulus interval, correction procedure for spontaneous blinking, 5451  
clinical judgment reliability, confidence, response classification, information, graduate students, 11949  
communication systems/time varying, articulation index, 15229  
compressed speech recognition, word length & usage frequency, 14548  
computer determination of effect of superseding signals, interstimulus interval & effect, 9622  
concept identification time, attribute & rule changes, 13105  
concept of time, intellectual & cultural & sex differences, 5334  
concepts, sex & age differences, IQ, high school students, 7160  
conditioned eye blink, CS-UCS interval shift, response latency & frequency, rabbit, 7000  
conditioned reflexes, gradual alteration of reflexes with lesser to greater time intervals, rabbit, 10122  
conditioned reflexes to time, formation & change & transfer, 9854  
conditioned reflexes/forward & backward, temporal patterns of stimuli, dog, 14962  
conditioning/delay & trace, interstimulus interval, nictitating membrane, rabbit, 5730  
conservation/concept, interval duration, children, 13429  
CS-UCS interval, classical conditioning of drug response, 11631  
CS-UCS interval, classical eyelid conditioning, age differences, mongoloid children, 15737  
CS-UCS interval, GSR & muscle action potentials conditioning, males, 11355  
day of week, mental hospitalization rate, & weather, women, 10619  
& decision making certainty, reinforcement, 14744  
delay, association strength & retention, mediation, 8338  
delay & order & training effects, perceptual recognition, serial learning, children, 7121  
delay, reversal & nonreversal shifts, overtraining, kindergarten children, 15062  
delay time, size perception & estimation, memory scanning instructions, Gestalt theory, college females, 8236  
delay timer, improved, solid state, short interval timing, 1024  
delay/argument, instrumental conditioning of attitudes, persuasive communication, 14653  
differential threshold, 14510  
differentiation/adult, infant-maternal interaction & indulgence, cross-cultural research, 11815  
diurnal activity cycles, & electrical brain self-stimulation, rat, 16298  
diurnal differences, learning ability, hospital patients, 5459  
diurnal rhythms, social reinforcement, baboon, 16437  
DRL schedule, temporal adjustment, water deprivation, rat, 416  
ESP target drawing, time involved at attempts to gain knowledge, 12703  
excess time effect & Parkinson's Law, replication, 14718  
exploration/visual, incentive duration & sensory deprivation, monkey, 16395  
exposure, skin temperature, & water temperature, 8266  
exposure length, tachistoscopic perception, 6544  
exposure time, searching behavior & errors, matrix size, mental retardates, 15736  
exposure time, visual perceptual response, age differences, Werner's developmental theory, brain damaged & retarded children, 7140  
exposure times, gamma movement, mentally retarded adolescents, 6200  
eyelid conditioning, acquisition & extinction, CS-UCS interval, squirrel monkey, 14961  
food deprivation time, competing responses, learning, rat, 6987  
future perception, anxiety, schizophrenic & medical patients, 10518  
goal box, frequency & schedule of reinforcement, 7037  
GSR, differential conditioning of auditory stimuli by shock, extended interstimulus intervals, 8315  
GSR classical conditioning, CS-UCS interval, neural timing mechanisms, 5457  
GSR conditioning/classical & forward & backward, experimental instructions & resistance to extinction, 8318  
happiness in lifetime, philosophy, 9542  
Hebb-Williams maze, magnesium pemoline, errors, rat, 8518  
individual time span, organizational structure, leadership motivation, job satisfaction, 14291  
information processing, resolution of time relations among stimuli, temporal & stimulus factors, 9809  
integration/temporal, correlation with 5 other mental abilities, 11914  
intellectual performance, limits, & personality, 9 yr olds, 463

- interaural intensity & time differences, anechoic & reverberant rooms, 14837  
 interaural time delay, masking, speech & noise, 16122  
 interpresentation intervals, paired associate learning, short term memory, anticipation trials, college students, 14629  
 interresponse time gradient & auditory stimulus generalization, rat, 8601  
 interresponse time punishment, food-based timing behavior, rat, 11658  
 interresponse times, learning, extinction, discrimination, generalization, computer analysis, pigeon, 8605  
 intersession time length, group counseling, high school students, 7883  
 intersignal interval variability, signal rate, auditory vigilance, 9804  
 intersound interval/varied, speech sound discrimination, aphasics, 15681  
 interstimuli interval, brightness judgment, masking, 8222, 8223  
 interstimulus interval, classical discrimination condition, heart & respiration rates, rabbit, 16413  
 interstimulus interval, eyelid conditioning, & UCS intensity & stimulus similarity, 16210  
 interstimulus interval, eyelid conditioning, 14646  
 interstimulus interval, GSR extinction, forewarning, instructions, college students, 11353  
 interstimulus interval, heart rate conditioning, GSR, college males, 11346  
 interstimulus interval, heart rate conditioning, rat, 11626  
 interstimulus interval, judgment of straightness of dot patterns of light, mental retardates, 17041  
 interstimulus interval, paired associate learning, 16205  
 interstimulus interval, semantic generalization, involvement, heart rate, blood flow, response latency, reaction time, skin conductance, college males, 11868  
 interstimulus interval, stimulus intensities, reaction time delay, inter-response relationship, 11321  
 intertest interval, Michigan Free & Restricted Association Norms' stability, stimulus frequency, task instruction, sex differences, college students, 14660  
 intertrial interval, avoidance discrimination, nonshock confinement, rat, 4306  
 intertrial interval & duration of reinforcement, simultaneous discrimination of colors & geometric forms, pigeon, 11634  
 intertrial interval, duration & latency & presentation order spiral aftereffect, 5330  
 intertrial interval, paired associate learning, stimulus duration, college students, 13045  
 intertrial interval, predictive behavior, alternation sequence, children, 16471  
 intertrial interval, short term memory, & practice & interpolated task, 16221  
 intertrial interval as reinforcement, avoidance behavior, fish, 14975  
 intertrial interval regularity, reinforcement schedule, adaptation, orienting response, classical GSR discrimination conditioning, college students, 11356  
 interval, cross-modality masking, auditory stimulation, 11214  
 interval, shock termination as secondary reinforcer, rat, 11647  
 item repetition interval, free recall memory, junior high school students, 14699  
 judgment, body temperature, 14509  
 learning/verbal, presentation time & time of stimuli reproduction, 8331  
 marker/auditory & visual, classroom, 14486  
 maze confinement duration, spontaneous alternation, & hippocampal lesions, rat, 16283  
 memory/short term, logical order in stimuli, encoding speed vs interstimuli rehearsal time, 3931  
 mental patient's adaption mode in mental hospital, 16788  
 muscle antagonist inhibition & agonist excitation, latent period magnitude & variability & muscular training, EMG, 9999  
 night workers during day, sleep amount & depth, 10999  
 operant conditioning, shock intensity & delay, rat, 5759  
 optimum teaching time determination, study skills course, college freshmen, 7933  
 ordering/temporal, speech identification, 14558  
 orientation, perceptual & cognitive organization, 5333  
 orientation, recall, graduate students, 9687  
 overnight performance decrement, brain stimulation, rat, 10162  
 pacing/response, operant response suppression, 14951  
 paired associate learning, response repetition vs number tracking vs rest during interstimulus interval, 5474  
 Parkinson's Law, goal setting in time limits, 15919  
 partial delay of reward vs continuous immediate reward, resistance to extinction, 90 day follow-up, rat, 8632  
 pecking at slanted & vertical lines, nonreinforcement of 1 & increase in response to the other, temporal factors in behavioral contrast, pigeon, 8599  
 perception of temporal patterns as spatial patterns during apparent movement, 5332  
 perceptual scan short-term memory, temporal & interactional processes, 6686  
 perspective, competence, interest, counselor, follow-up, 12540  
 perspective, frustration-failure, gratification delay, family organization, social class, children, 15040  
 perspective, social class, children, 5785  
 perspective reversal satiation/visual, 11237  
 perspective/future time, homesickness, & self concept, 11912  
 presentation & total time, & trials to criterion, & meaningfulness, paired associate learning, 3899  
 presentation rate/stimulus, memory, 14705  
 presentation time, & number of items, free recall, 3937  
 proactive inhibition, retention interval, descriptive prose, 8346  
 Progressive Matrices/Raven's, & scores, 13599  
 psychodrama, therapeutic setting, space, reality, cosmos, 5214  
 psychological concepts of space & time, review, 8103  
 psychological scientific methodology, philosophy, 15957  
 psychophysiological measurement variability, session repetition, adaptation effects, 5520  
 punctual & procrastinating college students, WAIS Picture Arrangement & Stroop Color-Word Test, 7317  
 punishment & extinction, shock duration & delay interval, rat, 4338  
 pupillary reflex, infant, time vs sound as CS, 10198  
 rapid eye movement sleep cycle, D-state theory, 2348  
 recall & intertrial intervals, paired associate learning, concreteness, imagery, college students, 14670  
 recall order, audio-visual stimulation, temporal & sensory grouping, 13085  
 reinforcement & test trial intervals, paired associate learning, college students, 14641  
 relations, diethylpropion & dexamphetamine & phenmetrazine & caffeine & placebo, 10041  
 response speed as indicator of incentive value of reinforcer, high vs low reward, 8206  
 response stimulus interval, reaction time, mental retardates, 15701  
 response suppression, contingent vs delayed punishment, shock intensity, rat, 8648  
 response time, instructions, selective attention, 12987  
 response time restriction, cognitive style scores, 2nd graders, 13418  
 retention intervals, short term memory, paired associate learning, task repetition, associative strength, mental retardates, 17042  
 running in straight runway, recording time by time-shared computer, 8198  
 salt deprivation by intraperitoneal dialysis, temporal factors in genesis of salt appetite, rat, 6847  
 sense, psychiatric patients, & emotion & reality testing, 4788  
 sequencing test performance, aphasic children, 17016  
 sequential response to simultaneous stimuli, set & learned associations & spatiotemporal arrangement of stimuli, 6490  
 sequentially illuminated lights, rectilinear dot progressions & judgments of straightness, eye movement, 6552  
 sex, time spent thinking about sex, age differences, 13513

sexual behavior, temporal patterns, rabbit, 8658  
 sexual performance & ejaculation timing, male monkey, 16449  
 shock-food preferences/immediate vs delayed, rat, 5717  
 signal detection & decision times, integration of information & expectancy, 9815  
 signals encoded in time only, response sequences, key press task, 9826  
 sinusoidal time-varying reinforcement schedule, pigeon, 14992  
 size perception & interpolated standards of varying size & color & time error & instructions, 9715  
 sleeping time, induced hypersensitivity to barbitol, female rat, 16319  
 somatosensory nerve action potential patterns at irregular intervals, 14785  
 & space concepts, geographical concept learning, 17060  
 spaced & massed vigilance task, binocular rivalry, 8224  
 spatial order & interitem interval & recall, 1154  
 speech analysis & synthesis, time normalization & automatic speech recognition, 1569  
 speech analysis, time series, computer, 11169  
 speech in interviews/temporal measures of, regressed schizophrenic & nonmedicated schizophrenic & normal, 7500  
 speech segments, intelligibility & perception, 6563  
 S-R temporal relations, running speed, frustration effect, generalization, rat, reply, 5724  
 S-R temporal relations, running speed, frustration effect, generalization, rat, criticism, 5725  
 stimulus change, nonreward, time interval, rat, 1334  
 stimulus duration & association value, visual recognition across fields, 16116  
 stimulus duration & intensity, motor response time, 16196  
 stimulus duration & interval, concept formation, 14734  
 stimulus generalization, classically conditioned response, temporal dimension, 1123  
 stress & attention sharing level, electrocutaneous information transfer & limited vocabulary, 2-man teams, 8202  
 tachistoscopic recognition, exposure duration & spacing between elements, 111  
 tactical decision making, 8398  
 temporal characteristics of visual perception, visual beat phenomena, 14523  
 temporal patterns/sequential, & cognitive processes in speech, 13559  
 temporal presentation of winning symbols, early vs late, & continued slot machine playing, 8400, 11405  
 temporal speech pattern distortion, syllable-tied alternation 13561  
 temporal summation, critical bandwidth signal, 16146  
 time as place sequence in hypnosis, behavior model, 146

**Transfer** (see also Generalization/Stimulus, Learning Set, Learning Transfer)  
 3-choice variable S-R mapping task, reaction time, & self-paced & discrete trials, & information, 3883  
 application of adult education courses, 4944  
 auditory discrimination, instructions, retention, age differences, 1st & 3rd grade children, 7129  
 augmented feedback usefulness, transfer of training, 1117  
 bilingual high school students, 223  
 classical conditioning & extinction transfer, reinforced response, stimulus generalization, learning, incentive motivation theory, rat, 7006  
 differential eyelid conditioning, successive discrimination, 16212  
 discrimination, irrelevant stimuli, children, 7117  
 discrimination learning, new cue combinations & visual recognition, 2379  
 discrimination learning, stimuli alterations & shifts in dimension relevance values, 1052  
 discrimination task, intradimensional & extradimensional & reversal shift, performance, preschool children, 16499  
 information, electrocutaneous & limited vocabulary, time stress & attention sharing level, 2-man teams, 8202  
 information between central stages & attention to input channels, temporal process, 9803  
 interhemisphere, discrimination of mirror-image patterns, pigeon, 395  
 interhemisphere, passive avoidance reaction, rat, 1194  
 interhemisphere inhibition, independent responses to 2 visual stimuli in opposite-half fields, 9823  
 interhemispheric transfer as stimulus generalization, rat, 8417  
 interlingual, language-specific cognitive skills, alphabet inversion training, 11869  
 interocular transfer, monocular pattern discrimination retention, opposite eye discrimination reversal, guinea pig, 8611  
 intradimensional transfer of discrimination, type of training, college students, 14635  
 item length, multiple choice recognition & paired associate performance, 210  
 kinesthetic aftereffect, interdigital transfer, 3816  
 language transfer, psycholinguistics, 10419  
 learning/verbal, expository instruction vs discovery method, instructions, retention, 3903  
 locomotion, arm & foot, right & left limbs, 2372  
 maze learning to free-turns situation, ant, 10116  
 mediating response transfer, discrimination learning, mental retardates, 12416

mediational transfer, unidirectional & bi-directional word associations, serial learning lists, college students, 16199  
 modulation transfer, square-wave grating contrast, visual angle & fixation, 6538  
 monocular conditioning & interocular transfer, goose, 7071  
 motor skills, similar perceptual components, 6626  
 negative & habit lag & involuntary nonconformity, 8755  
 nystagmus, transfer of bilateral caloric nystagmus habituation to unilateral calorization, cat, 11616  
 object-function transfer, problem solving, experience, 13093  
 Osgood's transfer surface, multiple sign & transposition problems, matching & largest-smallest with nonsense shapes, children, 7131  
 paired associate learning, number of S-R pairs with common relating principle, 6675  
 paired associate learning, interference from preexperimental language habits of high vs low associative strength, 11365  
 paired associate learning, mediation, presentation rate & meaningfulness, 221  
 paired associate learning/bidirectional, & interference, 213  
 partial reinforcement, discrimination learning, transfer to each of 2 vs 7 relevant cues, rat, 4331  
 personality statement choice, verbal reinforcement & conditioning, 208  
 pilot experience & space flight training, 853  
 problem solving, replacement & nonreplacement strategies, learning, 2nd grade children, 7135  
 problem solving/anagram, prior exposure to list of solutions or associates or unrelated words, 8392  
 programed learning, attitudes, graduate students, 17152  
 pursuit tracking, normal practice vs forced-response guidance & course complexity, 3874  
 recall/whole-part free, transfer effects, 11379  
 RNA extracts from trained rats, 4113  
 social influence, numerosity judgment of original & transfer displays, sex of peer, 8844  
 stimulus selection & transfer, paired associate learning, 224  
 stress, motor skill transfer, 12996  
 surface, Osgood vs Houston, 200  
 training by TV display & cathode ray tube, control of miniature railroad trolley, 5116  
 training transfer, learning, college students, 13008  
 training transfer, motor performance, reinforcement change, mentally retarded child, 12395  
 training transfer, paired associate learning, stimulus & response integration, college students, 11366  
 training transfer via cannibalism, classically conditioned response, planaria, 13350  
 training/of, & learning set, review, mental retardates, 12401  
 transfer of training, physiological & psychological factors, 14945  
 transfer/dimensional, discrimination learning, irrelevant stimulus dimensions, preschool children, 11706  
 verbal learning, from perceptual structure map, 1140  
 verbal learning, meaningfully similar & associated stimuli, separate-lists design, 8342  
 visual discrimination & reaction time, horizontal & vertical & tilted stimuli & tilted head, changed position & transfer, 9701

# Transference

& a-transference phenomena, psychoanalytic interpretation, 3056  
 behavior therapy, indirect quantification method, 633  
 college dropouts & psychotherapy & family transaction, 16585  
 countertransference, clinical cases of major sexual & interpersonal attachments, 13876  
 countertransference, factors of liability, psychiatrist's self-examination, 10529  
 depression/neurotic, stages, psychoanalysis, 10713  
 ego states/contradictory, defensive organization, transference disposition, comment, 3046  
 ego states/contradictory, defensive organization, transference disposition, 3048  
 examination/nonregressive ahistorical vs psychoanalytic, 1641  
 images, denial & screening, psychoanalysis, ego deficiency, 16758

Negro therapist & white patient, case reports, 11983  
 neurosis & interpretation, psychoanalysis, role of illusion, 16760  
 neurosis, psychoanalytic technique, psychosomatic patients, 15583  
 neurosis, psychoanalytic view, 1697  
 neurosis avoidance, psychotherapy, 15373  
 obsessive hyperamnesia & free association as transference resistance, case report, 7634  
 psychoanalysis, acting out, motor sphere of transference, 1696  
 psychoanalysis, identification & search for identity, self-maintenance vs self-enhancement, 16769  
 psychoanalysis transference between analyst & child & parents, 15374  
 psychoanalyst's acceptance & use of tenets presented to patients, 10536  
 psychoanalytic therapy, patient transference, case report, 2973  
 psychotherapy fee setting, resistance & transference reactions, 10550  
 psychotherapy with psychotic, therapist role, acting-out countertransference, 2969  
 psychotherapy/conjoint, married couples, 7439  
 psychotherapy/group, 2 therapists in group, schizophrenics, 8989  
 psychotherapy/individual, prognosis of patient in struggle with past or present antagonist, 8976  
 resistance, temporary vs permanent, desired vs undesired, description of patient's behavior, 7403  
 screen memory & temporal ego, 7543  
 suicide in psychotherapy patients, dynamics of transference & countertransference, suggestions for therapist, 7527  
 theories of transference & countertransference in psychoanalysis, 15369  
 therapeutic group discussion, communication, patient adjustment, 6017  
 therapeutic process with ego-close vs ego-distant patient, 7412  
 therapist transference, psychiatric patient, 8974  
 vertebral column/hyperextensive, cervical section, osteochondrosis, medical report, 7769

**Trauma**

bilateral traumatic facial & abducens paralysis, differential diagnosis & therapy, case report, 12261  
 blood circulation, & noradrenaline; cat, 16368  
 brain trauma, alcoholism, & diseased & healthy S, 16848  
 diabetes mellitus, neurotrauma & etiology, 9314  
 escape learning, rat, prior shock trauma & test-shock intensity, 4307  
 learning problems, & secrecy & derogation, elementary school boys, 16491  
 post-traumatic syndrome, nature & causes & treatment, questionnaire study of neurosurgeons, 7706  
 psychoses of psychotraumatic origin, diagnosis & classification, 10723  
 psychosis, situation of acute outburst & trauma revived in psychosis, 13961  
 recovery, age differences, rat, 4260  
 schizophrenia, etiology, heredity vs psychogenic trauma, children & adolescents, 10763  
 schizophrenia etiology, cranial trauma, 16905  
 sensitivity & development of schizophrenia, patient life history & experiences, 9169  
 sensitivity & reactions, institutionalization & follow-up, schizophrenics, 9170  
 sound-induced episodic behavior & convulsion, & methionine sulfoximine & eserine & atropine, cat & rat, 2555  
 surgery/open heart, WAIS Digit Span & Digit Symbol & MMPI changes, male veterans, 7763

**Treatment** (see also Therapy)

accident process, prevention, 9509  
 accident process, prevention reply, 9511  
 adolescent behavior disorder treatment program, participation refusal, ego identity, 9092  
 adolescent residential, ego support vs growth & individuality, 8733

Air Force, prisoner rehabilitation, short term intensive treatment & return to duty rate, 4847  
 Alcoholics Anonymous vs psychiatrically oriented community clinic vs no treatment, chronic drunk offenders, 15479  
 alcoholism, & patient concern, 1712  
 alcoholism, multidisciplinary approach, 4759  
 alcoholism, outcome, intelligence & sex differences, 10684  
 alcoholism, participation in treatment, hospitalized female alcoholics, 10679  
 alcoholism prevention & treatment, national program evaluation, Chile, 10682  
 aphasia, children, & diagnosis, 749  
 asthenic remission, working capacity, schizophrenics, case reports, article in book, 15543  
 atypical & nonatypical asthma, & heredity, & psychological & social factors, 4926  
 attitude questionnaire, nontherapeutic & therapeutic hospital doctors, 6039  
 attitude toward psychiatric treatment, socioeconomic status, problem families, 15640  
 attitude toward treatment, tuberculosis patient, 1857  
 autistic child, operant conditioning technique, 4697  
 backache/industrial neurotic, diagnosis, 12237  
 behavior indexes of motivation, 15378  
 bilateral traumatic facial & abducens paralysis, differential diagnosis & therapy, case report, 12261  
 brain tumors/secondary, diagnosis, cancer patients, 15756  
 British & American psychiatry, treatment methods, 13705  
 caseworkers' perceptions of treatment interaction, caseworker-client similarity, casework theory, codification concept, 15379  
 & causes & diagnosis & prevention of alcoholism, research, book, 16844  
 cerebral dysfunction, children, comprehensive treatment & developmental needs, 9246  
 character disorder & schizophrenia treatment, chlorpromazine, pericyazine, 13273  
 childhood emotional disturbances, community mental health center, diagnosis, 2-3 yrs old, 8724  
 choice for adolescent & family social influence patterns, 8946  
 chronic psychoses/of, fluphenazine enanthate, 15408  
 clinic integration, anthropological observation methods, elderly psychiatric patients, 15439  
 clinical & theoretical integration, depressed adolescents, 14000  
 clinical assessment/systematic, & disposition & treatment procedures, 3167  
 community services treatment programs, alcoholism, 13894  
 concurrent group & individual treatment, institutionalized mentally retarded, 3231  
 conditioning as psychotherapy, delinquents, review, 7540  
 crime causes & punishment & treatment, psychiatry, book, 9122  
 deafness, delay of early treatment, 15649  
 defensive reactions/of, involuntal psychosis, 16886  
 delinquents/outpatient, school & business support, adolescents, 6091  
 depression, geriatrics, 16872  
 depression diagnosis, chemotherapy, 13957  
 depression treatment, commentary, 13924  
 depression/of, chemotherapy, 15409  
 diet treatment & intelligence changes, phenylketonuric children, 2870  
 differences, professionals as psychiatric patients, staff attitude, 13716  
 disorder definition & etiology & treatment, abnormal psychology & psychiatry, book, 8091  
 drug addiction treatment & epidemiological trends, psychotherapy & Synanon, 13898  
 drug dependency, depressants, diagnosis & treatment, psychiatric patient, 7449  
 & early recognition, mental disorders, children, 7374  
 effects, genetic analysis, open field behavior, mouse, 14902  
 electroconvulsive shock vs other therapies, 10589  
 & emotional problems in aging, & diagnosis, 16877  
 enuresis, & etiology, children, 15584

enuresis, diadynamic current vs static galvanization, children, 12177  
 etiology of mental disorder, various theories, experimental methodology & prevention & treatment, 11946  
 extra-hospital treatment, fluphenazine enanthate, chronic psychoses, 15418  
 family environment, starved child, case report, 15607  
 geropsychiatric treatment & practice, training program model, 15084  
 goals & programs & methods evaluation, schizophrenic outpatient clinic, book, 7589  
 group work treatment, 4686  
 growth retardation, diagnosis of emotional deprivation vs idiopathic hypopituitarism as cause, 12117  
 growth retardation, removal from emotionally disturbed environment & rise of growth & ACTH hormone levels, children, 12172  
 handicapped children, Germany, 3168  
 hearing & speech disorders, training program, symposium paper, 15980  
 hearing & speech disorders, training program, symposium paper, 15981  
 heroin addicts, social conditions, economic conditions, prevention, 682  
 homosexual patient, evaluation & treatment, 12124  
 hypnotic treatments/successes & failures in, psychiatric patients, 13776  
 Indian meditation exercises, control of nervous functions, case reports, 4702  
 indoklon & electroconvulsive treatment, EEG, 15362  
 juvenile delinquency, prediction of success & rearrest rate, 10702  
 juvenile delinquents, new institution, staff attitudes, therapeutic vs punitive treatment, 3092  
 Kleine-Levin syndrome, symptoms, review, 15519  
 label of "mentally ill" & interference, 16724  
 language lags in psychotherapeutic nursery school, 12513  
 laser skin reaction & topical corticosteroids treatment, 2529  
 leucoencephalitis, case report, 16266  
 masturbation/ & concepts of, 13512  
 maturational stages, behavior problem & regression, defense mechanisms, 17 yr old male, case report, 14019  
 medicament treatment research for psychoses, 13964  
 meningiomas, X-ray, 14138  
 meningitis/purulent, protracted drainage, 12361  
 mental disorder/of, pipamperone, 15410  
 mental illness, sociocultural factors, review of literature, 617  
 mental illness & sociology & etiology, 2954  
 mental illness incidence & treatment, Negro vs white, sex differences, 10508  
 methadone withdrawal treatment, drug addiction, rehabilitation, age differences, 7524  
 methods, developmental language disorders in children, Orton-Gillingham teaching approach, 15839  
 methods, working capacity prognosis, paranoid schizophrenics, case reports, article in book, 15579  
 migraine headache, carotid body removal & serotonin therapy, 12436  
 migraine/of, psychotherapy, 3154  
 milieu & occupational & activation therapies, entertainment, chronic schizophrenia, 13976  
 multiple indiscriminate overmedication as neurosis, diagnosis, 12179  
 narcotic addicts & mandatory hospitalization, 16840  
 nervous exhaustion, diet & drugs, 7379  
 neurological disorder, Doman-Delacato treatment method, children, 14360  
 neurotics, mental hospital, 19399

- EEG theta rhythm, coagulation of septum & extirpation of reticular formation area, medial thalamus & visual cortex inhibition, rabbit, 10015
- electrical correlates of stimulus & response & reinforcement, discrimination task, monkey, 13206
- evoked potential, EEG, reflex conditioning, dog, 5616
- evoked potentials, light stimulation, rabbit, 4062
- evoked potentials, recovery cycle & thalamic level, rabbit, 4051
- evoked potentials & stimulation frequency, 7th fetal month to 15 yrs, 11477
- evoked potentials, visual field & handedness, 11473

evoked response & EEG & complex visual stimuli, 305  
 eye opening/before & after postnatal, morphocytochemical features of visual cortex & retina, rat & cat & rabbit & dog, 13216  
 form resolution & successive stimuli, 5354  
 giant pyramidal fields/strychnine on photic stimulation, evoked response in anterior colliculi, cat, 9998  
 image processing & visual frame theory, optic nerve stimulation & cortical evoked responses, cat, 314  
 lesional hemispheric lateralization, visual distortions & hallucinations, 4027  
 lesions in medial aspect of lateral & posterolateral gyri, pattern discrimination & avoidance task, cat, 9974  
 neuron recovery cycle, light stimulation, rabbit, 4009  
 neuronal activity modification by sound & by electrical stimulation of midbrain reticular formation & paw, rabbit, 11433  
 neurons, spontaneous activity & reactions to photic & acoustic stimuli, 5-17 days old, rabbit, 9943  
 occipital ablation/bilateral, retention of visually conditioned avoidance response, rat, 13187  
 occipital response amplitude to stimulation of nasal & temporal halves of retina, 8448  
 optic tract destruction & destruction of pattern vision, cat, 9977  
 optic tract destruction & sparing of pattern discrimination & pupillary response to light, cat, 9965  
 & peripheral inputs to polysensory areas of neocortex, cat, 11414  
 photic & cortical stimuli, visuomotor reaction time & latency, monkey, 11424  
 polysensory areas/vs, photic stimulation & stimulation of optic nerve & tract & radiants, cat, 6759  
 projection areas, visual & tactile & auditory stimulation, monkey, 6760  
 shape discrimination, reaction, visual cortices, 16189  
 striate cortex & retinal lesion & visual acuity, projection system, monkey, 2479  
 thalamic spreading depression & amplitude & latency of visual & auditory evoked responses in cortex & colliculi, rat, 11475  
 visual deprivation, sensory cortex weight, rat, 10064  
 visual evoked potentials, superior colliculus & lateral thalamus stimulation, 5569

**Visual Discrimination**  
 2 discriminations processed simultaneously, visual & auditory, measure of efficiency, 9813  
 age & familiarity & reading ability differences, disadvantaged children, 8682  
 arrow directions, inhibition of adjacent arrows, 12917  
 auditory discrimination, sensory isolation & pattern deprivation, male psychiatric patients, 11215  
 brightness, anchor & speed of rotating light, 5339  
 brightness, cue reversal, rat, 13351  
 brightness, pentylenetetrazole & strychnine & mephenesin, posttrial injections, rat, 6888  
 brightness, retention, rat, 13337  
 brightness discrimination, chlorpromazine, rat, 13264  
 chlorpromazine & secobarbital, sleep deprivation, attention & visual discrimination, monkey, 8524  
 choice, overlearning reversal effect, rat, 8607  
 circle-ellipse, teaching program with ascending vs descending method of limits, errors & performance, children, 10988  
 classical conditioning overtraining, heart rate & foot flexion schizokinesis, dog, 5726  
 color, interocular transfer, pigeon, 10138  
 color, varied stimuli distances, learning, mental retardates, 14127  
 concept learning, age differences, children, 8709  
 conditioning, mentally retarded children, 12417  
 cues/progressive acquisition of relevant, monkey, 10134  
 design recognition & copying, sensory-motor integration, preschool children, 4401  
 developmental tasks/& motor & verbal & conceptual, education, children, 9460  
 differential reward magnitudes, alley brightness, rat, 8638  
 difficulty, differential conditioning, heart rate, 4294  
 discrimination/right-left, reading disability, 11234

& duration of viewing, size & form of squares & rectangles, 8240  
 early experience, adult ability, rat, 7011  
 electrical correlates of stimulus & response & reinforcement, occipital cortex, monkey, 13206  
 event relationships, detection & quantification, visual perception, 3968  
 faces/of, 4 month old males, 16464  
 form, innate generalization, no contouring eye movement, monkey, 7069  
 form, opossum, 1311  
 geometric figures & transfer, ferret, 8613  
 inclusive & exclusive experimental instructions, 8203  
 inferotemporal cortex lesions, pattern, monkey, 1201  
 interocular pattern discrimination transfer & tectal commissure lesion, fish, 288  
 judgment stability, random & patterned configurations, pseudorecognition, 9722  
 learning, & temporal cortex electrical stimulation, monkey, 4045  
 learning, auditory input pattern & articulation & instructions, 13003  
 learning, educable mentally retarded children, 17035  
 learning, irrelevant peripheral stimuli effects, brain damaged children, 4894  
 learning, irrelevant stimuli, monkey, 4299  
 learning, irrelevant stimuli variability, mentally retarded children, 7760  
 learning & recognition, visual sequences, children, 2706  
 learning, reinforcement & test conditions, mental retardates, 3241  
 learning, stimulus dimensionality & manipulability, children, 10249  
 learning transfer, irrelevant visual information, training & test performance, 3876  
 learning/visual pattern, knowledge of results, 196  
 lesions in medial aspect of lateral & posterolateral gyri, pattern discrimination & avoidance task, cat, 9974  
 light pulse intensification discrimination, & noise, 11216  
 lightness judgment, assimilation & contrast, 108  
 lightness matching & Munsell choices, 1062  
 meprobamate & trioxazine, discrimination of intermittent light, subjective ratings on objective variables, 6884  
 middle object selection, monkey, 7018  
 multidimensional stimuli, parallel & serial processes, 6531  
 nonsense forms, short term recognition memory 0-1 seconds, display cues, 5335  
 overlearning reversal, 16198  
 overtrained pattern discrimination retention, pretectal lesions, rat, 11454  
 pattern, destroyed by destruction of optic tract, cat, 9977  
 pattern, low cholinesterase & increasing error cost, 7017  
 pattern & pupillary response to light spared following optic tract destruction, cat, 9965  
 pattern discrimination, complexity & distortion & noise, 2311  
 pattern discrimination, learning set formation, brain stimulation reinforcement, rat, 1312  
 pattern discrimination transfer, schemata vs random pre-training, college students, 13006  
 pattern parameters, monkey, reply, 5361  
 pattern parameters, monkey, criticism, 5370  
 pattern physical dimensions, monkey, 1314  
 patterns/of, difference thresholds, Gestalt similarity principle, 14522  
 perceptual grouping, orientation changes, shape changes, threshold judgments, 109  
 position sequences for positive stimulus, 2-choice task, criticism, 3871  
 prior electroshock & lever pressing, hunger & discrimination performance, rat, 6985  
 problem solving strategies, children, 7114  
 pupil size, emotional words, 11298  
 reaction time & arousal & anxiety, 182  
 reaction time, horizontal & vertical & tilted stimuli & tilted head, changed position & transfer, 9701  
 reaction time, vs auditory discrimination, 1107  
 redintegration, chimpanzee, 2622

- response latency & probability & size of sample, visual pattern discrimination task, 9836  
 response sets & simple visual reaction time, 2375  
 responses, genetic aspects, chicken, 1316  
 reversal, & tactile, monkey, comment, 392  
 reversal learning, quail, 7021  
 sameness-difference judgments & discrimination of obliques, rat, 7015  
 set & money motivation, 164  
 shape discrimination, reaction time, visual cortices, 16189  
 simultaneous, colors & geometric forms, duration of reinforcement & intertrial interval, pigeon, 11634  
 simultaneous form discrimination, shaping, nonverbal teaching program, mentally retarded children, 6195  
 size, absolute judgment, irrelevant information & discrimination difficulty, 5358  
 size discrimination, LSD-25, squirrel monkey, 5649  
 social class/high & low, children, 10245  
 spectral discrimination curves & frequencies, scale correction, 6550  
 split-brain, dark vs normally reared cats, 8427  
 stimulus additivity & dominance, cues, rat, 13354  
 stimulus complexity & symmetry, visual discrimination, age differences, 15023  
 stimulus dimensions/correlated, presentation method, 5356  
 stimulus generalization & discriminability, number of stimuli, pigeon, 16425  
 stimulus information/amount of, 9709  
 & striate cortex lesion, shrew, 290  
 subjective certainty vs objectiveness, 14513  
 tachistoscopic material identification, discriminability & retention, 2301  
 tachistoscopically viewed random shapes, judged complexity, college students, 12919  
 target detection threshold, masking stimulus width of movement, constant target separation, 6537  
 task of Rodnick-Garmezy, censure-deficit theory of schizophrenia, 13970  
 threshold, removed striate cortex, rat, 13169  
 thresholds/brightness, conditioned suppression, pigeon, 1315  
 topological perception, & Piaget hypotheses, children, 2685  
 training, autistic children, 7556  
 training, beginning readers, 12926  
 training, size constancy, cat, 16422  
 transistorized programing system, random presentation of discriminanda & response filtering block & classifier, 11170  
 unilateral & bilateral tectal lesions, extinction & relearning, pigeon, 4021  
 variability estimates, context, 12909  
 vertical line, presence or absence vs vertical line & 45° line, generalization, pigeon, 11677  
 viewing/simultaneous & nonsimultaneous, stimulus length difference threshold, Weber's law, 9671  
 visual components of aggregation, aphid, 1267  
 & visual perception, apparatus, 16084  
 von Restorff effect, learning transfer, intra-list similarity, 13057
- Visual Field**  
 attention, motor performance, & anxiety, 6627  
 binocular rivalry & figure reversal fields, attributive rating method, rigidity, anxiety, college students, 12890  
 brightness inhibition, surrounding field size, 9725
